WEATHER FORECAST

For 36 hours ending 5 p.m. Thursday:

Victoria and vicinity—Light to moderate winds; continued fair and mild.

Victoria Daily Times

WHERE TO GO TO-NIGHT

Royal—Within the Law.
Dominion—Why Worry?
Columbia—Brass.
Capitol—Clara Butt.
Pantages—Toby, the Detective.

VOL. 63 NO. 108 VICTORIA, B.C., WEDNESDAY, NOVEMBER 7, 1923 PRICE FIVE CENTS

Here and There

One Difference Between the East and This Coast; Canada, Without Inflation or Unemployment, Pays Her Debts

In Toronto, snow—first of the long, long Winter.

In Victoria, start of a golf tournament with over 100 competing for Pacific Northwest senior championship, and the planning of still more activities on five links for the Thanksgiving holidays.

And you can skate here, too, on artificial ice without the zero weather.

Next great manufacturing part of this continent is in process of being built up along this Coast.

The Orient, to-morrow's best export market, will purchase from the lowest bidder—Herbert Kaufman reminds us—and no concern with a four thousand-mile haul added to its estimates can hope to figure with producers located in the midst of natural resources and a stone's throw from Pacific docks.

British Columbia with little over three-quarters of a million people is already third manufacturing Province of Canada and holds the raw materials of products the rest of the world is beginning to call for.

The Coast's fisheries output, showing a marked increase over the pack of 1922, is another bright spot on the horizon. British Columbia's salmon pack is about a million and a quarter cases.

As encouraging as the size of the pack is the fact that prices have held on a steady level and that another good season is indicated for 1924.

France, according to this week's figures, has only 315 idle men applying for Government unemployed allowance. She has a per capita debt of $63.11, but is not attempting to meet her foreign loans and her money is worth in exchange a quarter of what it was before the war.

Britain has 1,250,000 unemployed, has a per capita debt of $35.45, and is the most heavily taxed country in the world. Her taxation amounts to one-third her national income. She is paying her debts and her money is nearly par. But the money that is taken in taxation is removed from trade and industry. This causes business depression and unemployment increase. Politicians should bear this in mind when they deal with taxation.

Canada has a per capita debt of only $16.98, is paying her bills, on taxation only a fraction of the British rate, has no unemployment problem, and her exchange is around par. The Canadian dollar, Hon. Ernest Lapointe says, is the only currency that can look the United States dollar in the face.

Without inflation as in France and without extreme taxation, as in Britain, paralyzing industry and heaping up unemployed, Canada, meeting her debts and with her production setting new high records, is off on another decade of great expansion similar to the first years of this century.

Four thousand immigrants, including 1,800 skilled workmen from Britain, are admitted to United States by special permission on probation because the quota for the month is already exhausted. United States has plenty of room and knows that each enterprising immigrant means more development.

Canada also has plenty of room and untouched opportunities. Each new citizen increases the national wealth of the country, lightens the per capita debt and taxation. No need to be doubtful about the newcomer.

ACCIDENTALLY KILLED

London, Ont., Nov. 7.—As the result of wounds suffered some days ago when Fred Manson accidentally shot her, May Lidell, aged eighteen, of Manor Park, died here last night.

BRITAIN IS TO TAX FOREIGN SALMON, BUT EMPIRE FISH FREE

News of Interest to British Columbia Comes From Economic Conference in London; Duty on Foreign Canned Salmon to Be Ten Shillings Per Hundredweight

London, Nov. 7.—The Imperial Economic Conference to-day decided in favor of a tax of ten shillings per hundredweight on foreign canned salmon. Empire products will not be taxed.

London, Nov. 7 (Special Cable to the Canadian Press by George Hambleton, Staff Correspondent)—The British Government is making new preference proposals to the Governments of the Dominions. At this morning's meeting of the Economic Conference, it is understood, the British representatives expressed a willingness to extend the recent offer of an increased preference by the addition of a number of articles, the most important, as far as Canada is concerned, being fresh apples and canned salmon.

The official announcement will not be made until to-night or probably to-morrow, but the British offer is said to be one of an imposition of duties on foreign products with 100 per cent. preference on Empire products. If this is adopted it will mean that Canadian apples and canned salmon may enter the British market free while foreign products will be dutiable. Honey is also understood to have been added to the preferential list.

Premier S. M. Bruce tabled a resolution expressing the view that the economic future of the Empire lies in the development of inter-Imperial trade.

An Offer of Certainty

London, Nov. 7 (Canadian Press Cable)—"A very striking fact about our exports to the Dominions is that nearly all of them are manufactured goods employing a large amount of labor in their production," declared Neville Chamberlain, Chancellor of the Exchequer, last night. "The only thing keeping the Dominions from developing their territories is the uncertainty as to what they would be able to sell if they developed them. The certainty we have now offered them," he added, referring to the preference already announced, "is the security of the British market, which is the finest in the world. It will enable them to place orders with us for locomotives and machinery and to take more settlers from Great Britain."

BRITAIN REPORTED TO HAVE OFFERED TO BUY GREENLAND

Copenhagen, Nov. 7. — Great Britain, according to The Ekstrabladet, recently made overtures to Denmark to buy Greenland, asking in addition that she be allowed to make the first offer of purchase if Denmark wished to sell at a future date. The reply of the Danish Government, the newspaper says, was that the island was not for sale and would not be.

STORES IN BERLIN PLUNDERED TO-DAY

Disturbances of the Past Three Days Continued

More Than 100 Persons Injured During Clashes

Berlin, Nov. 7. — Sporadic plundering of food shops was again in progress in Berlin to-day. Flaring signs bearing the words "Christian shop" have been posted on many of the smaller places of business in the sections where raids had been in progress the last three days, directed especially against the Jewish shops. During the disturbances up to this morning, many hundreds of shops had been wrecked and pillaged and more than 100 persons injured.

To-day's plundering, although scattered, was apparently thoroughly organized, as the outbreaks occurred simultaneously in several different sections in such a way that the efforts of the police to curb them could not be concentrated.

Many of the shops are closed, even in the central part of the city, as yesterday's outbreaks were not confined to isolated sections.

DOCTORS DIVIDE NOBEL PRIZE MONEY

$10,000 Each to Dr. Banting, Dr. Macleod, Dr. Collip and C. H. Best

Toronto, Nov. 7.—Professor J. J. R. Macleod, of the Department of Physiology of the University of Toronto, will divide his $20,000 share of the Nobel Prize for the discovery of insulin with Dr. J. B. Collip, a professor in the University of Alberta.

Dr. Macleod confirmed the fact that he had offered to make an even division of his prize money with Dr. Collip and that the latter had accepted.

This action now gives all four men who worked on the insulin experiments—Dr. Banting, Dr. Macleod, Dr. Collip and Mr. C. H. Best—an equal division of the prize money. Each gets $10,000.

Lord Douglas is Committed For Trial in London

London, Nov. 7.—Lord Alfred Douglas, son of the late Marquis of Queensberry, was arraigned before a magistrate in the Bow Street police court yesterday, charged with unlawfully and maliciously publishing a defamatory libel concerning Winston Churchill in a pamphlet entitled "The Murder of Lord Kitchener and the Truth About the Battle of Jutland and the Jews."

The magistrate committed Lord Alfred for trial at the central criminal court and allowed bail in two sureties of £100 each.

MILL BAY FERRY TO CUT MALAHAT READY TO RUN

Will Operate as Soon as Terminals Are Secured

Give All-Year-Round Service to Up-Island Points

A boat, capable of carrying twelve to fourteen automobiles and provide an hourly service between Saanich Peninsula and the Mainland of Vancouver Island near Mill Bay, is ready to go on the run immediately and it is earnestly desired to have the boat in operation before the Malahat is closed down for repairs, a joint delegation from the Chamber of Commerce and the Publicity Bureau told the Minister of Public Works to-day. The delegation was introduced by the Speaker, the Hon. F. A. Pauline, and M. B. Jackson, M.P.P., who acted as chairman. It consisted of Joseph Patrick, president of the Publicity Bureau; B. C. Nicholas, vice-president of the Chamber of Commerce; J. C. Pendray, past president of the Publicity Bureau; George McGregor, Alderman Dave Leeming, Publicity Commissioner George I. Warren and Mr. Williams, the owner of the boat.

Arrangements Complete

The delegation told the minister that arrangements had been completed whereby the ferry will be placed on the run immediately provided satisfactory arrangements can be made for terminals and the approaches to terminals. They drew attention to the fact that this ferry service would connect Cowichan Valley and the upper part of the island and Victoria by road, eliminating grades, and meaning a saving of over ten miles to car owners driving between Victoria and points northeast to Mill Bay or Cobble Hill.

The operators of the boat were prepared to give immediate service and the Government was asked to provide terminals in order that the ferry could start before the Malahat drive was closed.

All Year Service

It was also emphasized that the ferry will give an all the year round service and provide a permanent connection between Victoria and the rest of the Island, as a result of which farmers in the Cowichan district could easily bring their produce to the Victoria market with a minimum amount of expense and inconvenience.

Resolutions in support of the establishment of a ferry service to overcome the Malahat grade and give an alternative connection with up-Island points from the Duncan Board of Trade, Cobble Hill, Shawnigan and the Victoria Chamber of Commerce were presented in support of the arguments advanced.

The minister assured the deputation that the matter would have his sincere and immediate consideration.

INDIAN ACCUSED OF MURDER DIED

Denied He Killed Raymond, Alberta, High School Girl

Lethbridge, Nov. 7.—"Two-Stab," alleged Blood Indian slayer of Winnie Tollestrup, of Raymond, died at the Galt Hospital here to-day.

Before he died the Indian gave to the police a statement in which he denied he murdered the Raymond high school girl.

It is unlikely the crime will ever be solved definitely now, though the police believe the evidence against the Indian is complete.

Police believe that "Two-Stab" died by his own hand, and that powder from his coal mine was used in an attempt to blow his head off to avoid capture when he found he was suspected of the murder.

EXPECTED TO HOLD OIL PROPERTIES

British Government Not Likely to Sell Anglo-Persian Shares

Parliament Probably Would Not Approve Sale

London, Nov. 7.—Much doubt is expressed in Government quarters over the possibility of a deal going through for the sale of the British Government's 5,000,000 shares in the Anglo-Persian Oil Company for £12,000,000, as reported by The Daily Express.

Officials of the Foreign Office point out that the Government in 1922 declined an offer of £32,000,000, which was then the market value of its holdings.

It is believed the sale to the Shell-Royal Dutch combine, if consummated, would be discountenanced by Parliament, which, like the general public, might feel that the sale was depriving the British navy of one of its most valuable sources of fuel oil and making the country dependent upon American and Dutch companies.

GERMAN LETTER TO CANADA NOW COSTS 15,000,000 MARKS

Ottawa, Nov. 7.—The cost of sending a postcard from Germany to Canada is now 9,000,000 marks, while the letter rate for the first weight is 15,000,000 and the second weight 7,500,000 marks. The letter rate is equivalent to ten cents for the first weight and five cents for each succeeding weight or fraction thereof.

PLAN COLONY OF ESTHONIANS IN INTERIOR B.C.

Hundred Esthonian Farmers May Settle Along Line of P.G.E. Shortly

Government Ready to Provide Land and All Facilities For Settlement

Plans for establishing a colony of Esthonians in central British Columbia were discussed at a conference between Premier Oliver, Hon. T. D. Pattullo, Minister of Lands, and Rear-Admiral Sir John Pitka, representative of the Canadian National Railways in Esthonia, at the Parliament Buildings to-day.

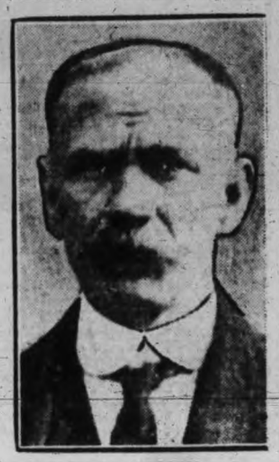

It is planned to bring 100 Esthonian farmers out to the Canadian West and settle them on the land shortly, Sir John told the Premier and Mr. Pattullo. The Premier replied that British Columbia is anxious to get settlers and is ready to make satisfactory arrangements for providing them with lands. Mr. Oliver declared that land suitable for the proposed Esthonian colony could be secured in the interior of British Columbia and probably along the line of the Pacific Great Eastern Railway.

The Premier also promised that if Sir John would look over lands in the interior for himself the Government would send a representative with him to explain conditions. It is probable that Sir John will make a trip through the interior in the near future.

YEAR'S COAL OUTPUT OF NOVA SCOTIA 6,200,000 TONS

Halifax, Nov. 7.—"It is estimated the coal production of Nova Scotia this year will reach at least 6,200,000 tons," Hon. E. H. Armstrong, Premier of Nova Scotia and Minister of Mines, announced to-day. "As the total production last year was 4,642,196 tons, the increase this year will be more than 1,500,000 tons. The outlook for 1924 is encouraging."

SENTENCED IN EASTERN CANADA

JAMES B. MACLACHLAN

former secretary of the United Mine Workers in Cape Breton, following his trial on a charge of seditious libel was sentenced to two years in the penitentiary.

TWENTY-TWO WERE KILLED IN RIOTS

Strike of Polish Railway Workers Cause of Clashes

Score Killed in Cavalry Charge in Cracow

Warsaw, Nov. 7.—Twenty-two persons have been killed and three score wounded in riots and bombings growing out of the strike of the railway workers. The disorders occurred despite the agreement of the Socialists to call off the strike in return for the Government's promise to withdraw the military from the railroads.

The most serious riot was at Cracow, where a crowd surrounded and disarmed a company of infantry. The men were rescued by a cavalry charge in which twenty persons were killed. Most of those killed were soldiers, including three officers.

Cracow has been the scene of Communist propaganda of a most active kind directed, according to the Government, by outside leaders.

Bomb Explosion in Warsaw

A bomb exploded in Warsaw yesterday morning, in the headquarters of the Socialists, killing the porter and wounding the janitor. The city was alarmed by the disturbance, but no further trouble occurred.

A Socialist leader was killed in Borysław, Galicia, in the course of a disturbance in that town.

Troops Patrol Cities

Troops are patrolling the cities and no further outbreaks are reported.

The apparent settlement of the strike is attributed to the failure of the Socialists and Communists to succeed in inciting sufficient disorder and economic disturbance throughout the country to make a tieup of the railroads effective.

MONEY FOR SWISS COMING TO CANADA

1,000 Emigrants to be Aided by Their Government

New York, Nov. 7 (Canadian Press)—According to The International Labor Review, the Swiss Federal Labor office has issued a statement defining the conditions under which about 1,000 Swiss settlers desirous of making their homes in Canada will receive a portion of the credit of 5,000,000 francs granted by the Federal Council in March, 1923, to provide those wishing to go to the Dominion, but not possessing the means of transportation.

The statement specifies that only persons engaged in crowded industries will be entitled to receive the credit. The subsidies, it is explained, are in the nature of loans and are intended to supplement both the personal resources of the applicants and the subsidies of the cantons in which they live, with a view to completing the sums necessary for traveling expenses.

BANKER TELLS OF PROGRESS WEST OF THE GREAT LAKES

Toronto, Nov. 7.—A distinct brightening in the western outlook of a character which bodes well for steady expansion and general prosperity was reported by James Hamilton, general manager of the Union Bank, who was in the city to-day en route to Montreal.

A feature of western rehabilitation, Mr. Hamilton remarked, was the steady elimination of the "land miner" and his replacement by the real farmer.

COMPROMISE ON GERMAN INQUIRY

Poincare Willing "Present" Capacity be Regarded as Two Years

British-French Invitation to U.S. is Expected

Paris, Nov. 7.—The prospects for an agreement between France and Great Britain on the text of the invitation to the United States to join the conference of experts for examination of the reparations question was regarded in diplomatic and French official circles to-day as brighter than yesterday.

The improved situation was said to be due to the fact that Premier Poincare is willing to give a rather elastic interpretation to his reservation restricting the estimate of Germany's capacity to pay to the "present." It is declared he will permit this reservation to cover a period of two years. It is believed here the British Government will accept this compromise.

Moratorium

Discussion is now proceeding as to whether an accord can not be reached on the understanding that the word "present" would mean the period of the moratorium asked for by Germany, which everyone admits must be granted for at least four years.

Another alternative suggestion to reach an accord is the elimination of the words "capacity for payment," which have proved so irritating to the French official mind.

COMMISSION TO HEAR GERMANS IF INQUIRY NOT HELD

Paris, Nov. 7.—The Reparations Commission has decided to comply immediately with the German request for a hearing on the reparations question as proposed in the Berlin Government's note of October 24, if the several Governments, including the United States, are unable to agree regarding the setting up of the advisory investigating committee.

This decision was reached by Sir John Bradbury of Great Britain, M. Barthou of France, Signor D'Aurelio of Italy and M. Bemelmans of Bel-

PREDICTS GREATER C.N.R. IMPROVEMENT

J. E. Dalrymple Says $5,000,000 Net Operating Revenue Will be Surpassed

Declares Traffic and Business Conditions Good

Toronto, Nov. 7.—Greater progress in the future even than that indicated by the reports for the first eight months of this year will be made by the Canadian National Railways.

Such is the optimistic comment of J. E. Dalrymple, Vice-president in Charge of Traffic who last night discussed the significance of the recent report from Ottawa concerning the operation of the National Railways for the eight-month period ended August 31. Speaking with a careful consideration of the facts, backed by his knowledge of general conditions throughout the system, Mr. Dalrymple does not believe that a net revenue of $5,000,000 for that period represents the ultimate. In his opinion, the peak has not been reached.

"Traffic and business conditions at present are generally very good," he declared. "The western crop is being efficiently moved and the volume of business greatly exceeds that of last year. We have not received a single complaint so far which has been of a sufficiently serious nature to be brought to the attention of headquarters. That is something which speaks for itself.

"Throughout the whole system we are doing a good business and despite the pall of the European situation, our export business is quite brisk. Should general conditions continue as at present I see no reason why we should not make further progress in fact, I would be very much disappointed if we do not. We must go ahead if we are to achieve our objective of completing wiping out all deficits."

WORK FOUND FOR MANY THOUSANDS

Undertakings Put Forward in Britain Relieve Unemployment

London, Nov. 7 (Canadian Press Cable)—Though there are 1,250,000 unemployed in this country, Sir Montagu Barlow, Minister of Labor, said last night that this figure was not so bad as he at one time expected. The Government, he said, this Winter was expending £100,000,000 on development schemes and the Clyde Navigation Trustees were expending £1,000,000 on construction work. Several of the largest railways were embarking on heavy expenditures calculated to find work for many thousands. The locomotive industry, especially in Scotland, was being kept going meanwhile through foreign orders.

ABOLITION OF "P. P." TAX NOW UNLIKELY, PREMIER INDICATES

Government Plans to Reduce Levy and See How Revenues Are Affected, Oliver Announces; Man on Land Entitled to First Relief; Premier Does Not Want to Interfere With Production, He Tells Businessmen Protesting Against Eight-Hour Day Law

Little hope that the personal property tax can be abolished entirely at this time was held out by Premier Oliver to-day to a delegation from the Victoria Chamber of Commerce which protested emphatically against the levy. The Premier declared that the Government could not rely solely on income taxation, which fluctuates with changes in business conditions. He added that the personal property and real estate taxes would be reduced at this session of the House and when this reduction had been made the Government would be better able to judge the effect of this cut on provincial revenues.

Land taxation is "vastly more oppressive" than personal property taxation, the Premier asserted. The man on the land is first entitled to relief, he said.

"I am not at all enamored of legislation continually interfering with conditions of production," the Premier assured the delegation in answer to protests against an eight-hour day law.

He announced that the Government has no intention of claiming priority for provincial income taxes over real estate encumbrances, but must maintain this priority for real estate taxes.

"That is your side of the case—now what is the Government's side?" the Premier said after listening to the delegation which was led by C. P. W. Schwengers, president of the Chambers of Commerce. "We have fixed charges to meet. Rightly or wrongly for many years past British Columbia has not only spent its revenue, but has borrowed money and spent it also. If the revenues are to be decreased there is only one possible consequence—our services also must be decreased.

"If I am not mistaken it is only a few days ago that the Chamber of Commerce was dealing with a resolution asking for the construction of a road from the coast to the interior. So you are asking the Government to reduce its revenue on one hand and increase its expenditure on the other. That position is irreconcilable and no Government that lives can give effect to both your requests."

The Premier explained that some of the revenue shown on the public accounts of the Province was "bookkeeping revenue only." Nearly $4,000,000 of the provincial revenues had been turned back to municipalities last year, he stated.

Would Lose Half Million

The Premier asked the delegation pointedly to suggest how the Government would make up for the loss of about half a million dollars a year if the personal property tax were abolished, or to indicate how expenditure could be cut as a result of the reduction in Government services.

"A good deal has been said in connection with the personal property tax that a man should not be required to pay taxes on something which does not make him a profit," the Premier observed. "But that applies to taxes on real estate, too. It is impossible for the Government to rely solely on income taxes which naturally fluctuate according to business conditions.

Plan Tax Cuts

"However, I may tell you, that we propose to reduce somewhat—the exact amount has not been decided—the personal property and real estate taxes, and when we see the results of that we shall know better to what extent the change effects our revenues."

"We would like to abolish the personal property tax," the Premier declared. "But I believe that the land tax to-day is vastly more oppressive than the tax on personal property. And if it comes to the question of ability to pay I think that the man on the land is the worst sufferer, and is entitled to first relief."

Liquor Ship Search Plan Approved by Empire Premiers

London, Nov. 7.—The Imperial Conference has given final assent to the proposal for an agreement by which British vessels suspected of liquor running may be stopped and searched within an agreed distance of the United States shore. The conference acted on the recommendation of the British Foreign Office and one of its own expert committees.

Negotiations are now proceeding between London and Washington with the object of perfecting a treaty which shall be proof against constitutional or other defects and in harmony with existing statutes.

Foreign Secretary Curzon and Secretary of State Hughes are understood to have reached a complete understanding on the broader phases of the treaty.

CONFEREES TO END WORK TO-MORROW

Programme Calls For Last Session of Imperial Conference

Official Report Now Being Prepared by Premiers

London, Nov. 7 (Special Cable to the Canadian Press by George Hambleton, Staff Correspondent)—When the Imperial Conference closes to-morrow, should it keep its much-abused schedule, its members will be able to look back on nearly six weeks of work that was almost constant, but lacking in dramatic developments. A committee of the Premiers is meeting to-day to draft the official report of the conference decisions and in their details they will not be available until the report is issued.

Admittedly the main value of the conference has lain in the meeting together of the Premiers. As a result there will be a better appreciation of the difficulties of each part of the Empire. While differences in points of view exist, it has been shown that these differences are not so wide as had been anticipated.

Many Interviews

When the conference opened there was a tendency, especially in Great Britain, to regard it as a sort of imperial Santa Clause with a remedy for all economic and political questions. Its members were widely heralded, photographed and interviewed. It is probable that in its lack of the dramatic features there

MAN TOUCHED LIVE WIRE BUT WILL RECOVER

Pasadena, Cal., Nov. 7.—Although 22,000 volts passed through his body when he came in contact with a live wire on the roof of a railroad station here, surgeons who are treating A. K. Rawson, a telegraph company lineman, say he probably will recover.

PASSENGERS TAKEN FROM SHIP AGROUND IN CUBAN BAY

Havana, Nov. 7.—The Munson liner Munargo is aground in the harbor of Nuevitas, Cuba, according to passengers arriving here. They said the passengers were taken off.

LIQUOR MAJORITY TOTALS 30,420

That Many Albertans Voted For Clauses B, C and D

Clause D Lead Over Other Three Clauses 18,824

Calgary, Nov. 7.—Returns from the liquor referendum received by deputy returning officers yesterday afternoon and this morning show the following results, with some isolated districts missing:

Clause A, 50,009; Clause B, 3,221; Clause C, 2,577; Clause D, 74,631—majority for Clause D over Clause A, 24,622.

The total "wet" majority of the province as represented by the first choices registered for Clauses B, C and D is now 30,420. The lead of Clause D over the other three clauses combined is 18,824.

Quebec, Nov. 7.—"The result of the referendum on the sale of liquor in Alberta is a fine tribute to our system of sale and control," declared Premier Taschereau yesterday, commenting on the majority obtained in favor of Government control of liquor in the Province of Alberta.

"Here is a province," he added, "where prohibition has been in force for seven years which has studied our system that has not yet reached a point of perfection and which finally adopts it through the people. This is the best answer to the clamoring of the opponents of our law."

OIL IN ONTARIO

Chatham, Ont., Nov. 7.—Several oil prospectors of Oklahoma are preparing to inspect Romney Township in the near future as the result of the striking of a gusher on the Shanks farm recently, according to J. F. Dempsey, oil prospector, of Tulsa, Okla., who arrived here to-day.

THIRTEEN JAPANESE STEAMSHIPS ARE TIED UP BY STRIKE

Tokio, Nov. 7.—Seamen employed by the Nippon Yusen Kaisha have struck in consequence of a decision of the company's management to put into effect a thirty per cent. reduction in sailing allowances for crews, according to reports to-day from Kobe.

The reports say the strike has tied up thirteen of the company's vessels, including the Katori Maru, which was scheduled to sail for the United States to-morrow.

"VICTORIA ISLAND" SAYS C.P.R. BOOK

Railway Folder Elimates Confusing Similarity of Names

Advocates of a change in the name of Vancouver Island to Victoria Island to prevent the confusion which so often arises between the city of Vancouver and Vancouver Island will find some satisfaction in the latest folder of the Canadian Pacific Railway. Publicity bureau literature for some time past has referred to "Victoria and Her Island Kingdom" in preference to Vancouver Island, but this is the first time that the change has been made in railway folders. In a glowing tribute to the Island the C.P.R. speaks throughout of "Victoria Island." A full page features Victoria as a Winter resort, no other city in the Dominion receiving any special mention in the folder.

"Victoria is never so charming as in Winter," the article states, "for it has a mild, equable climate that never touches zero, tempered by the soft winds that blow over the warm Japanese current.

"The grass is always green in Victoria, and flowers bloom through the Winter. One does not stop playing golf or stop those long, healthy motor rides on the fine roads that lead throughout Victoria Island. On the contrary, the Garden City has a delightful Winter season of pleasure-loving people who make this beautiful Pacific Coast city their rendezvous."

ABOLITION OF "P.P." TAX NOW UNLIKELY, PREMIER INDICATES

(Continued from page 1.)

Mr. Hart stated in reply to questions from the delegation that if the Government had not collected the personal property tax last year and had relied only on income tax, it would have lost from $700,000 to $800,000 in revenue.

Priority of Taxes

Mr. Oliver assured the delegation that the Government did not intend to give income taxes priority over mortgages and other encumbrances on property. Real estate taxes, however, must have this priority, he declared.

"We must maintain the priority of the Crown charges on real estate, but we do not intend to give income taxes this priority," he said.

"The Government is now considering, and I feel sure will act upon the idea that the Government should register within a reasonable time all charges against land so that the purchaser or intending purchaser may know what the position of the land title is. We are also considering plans for apportioning succession duties on estates."

Eight-Hour-Day

In regard to the Eight-Hour-Day Bill, the Premier said, that the Government realized the difficulties under which private business operated.

"I am not at all enamored of legislation continually interfering with conditions of production, and I can assure you that your representations on this matter will be brought before our colleagues in the Cabinet, and will be given careful consideration."

Mr. Hart asked the delegation what it thought of a small income tax on the wages of working men, to be collected from the workers' monthly wages. The delegation agreed that this was an excellent idea.

Mr. Schwengers made clear the attitude of the Chamber of Commerce on the provincial poll tax. The chamber was not advocating the collection of such a tax, he said, but felt that if the levy were collected transient workers should be forced to pay it.

Cannot Cut Mill Hours

The argument that British Columbia mills should be able to operate on an eight-hour day because Washington and Oregon mills do so is unsound, J. O. Cameron, leading Island lumberman, told the Premier and Mr. Hart. He explained that the American mills operated on the eight-hour day voluntarily.

"And they are ten years ahead of us in the matter of equipment," Mr. Cameron added. "We cannot put ourselves on the same basis with them because we haven't got the money. On the American side I can show you in a mill where one man does the work ten men would do here, due to the better equipment."

Mr. Cameron declared that sawmill workers prefer to work nine hours a day with Saturday afternoons off rather than eight hours a day without the half-holiday. The nine-hour day with the half-holiday, he pointed out, only amounted to fifty hours a week as against forty-eight hours under a straight eight-hour day. It was impossible to work two shifts a day in sawmills, Mr. Cameron said, because the lack of mechanical facilities to handle the output of two shifts. Such a plan also would necessitate the expenditures of large sums for new equipment, he said.

Declare Tax Unsound

The delegation declared that the personal property tax is "economically unsound, unfair in its operation, a handicap to development and a deterrent to capital investment."

"By reason of the fact that this tax is put in force in other provinces it places a direct discount on merchants and manufacturers carrying large stocks to take care of the business against outside competition," said a memorandum laid before the Premier by the delegation.

"To our knowledge the tax is a source of anxious enquiry on the part of capital contemplating investment here."

The delegation headed by Mr. Schwengers included P. B. Scurrah, Edwin Tomlin, Howard Stevenson, Ernest McMullen and George L. Warren, secretary of the Chamber of Commerce.

TO BE OPEN TO PUBLIC

The directors of the Jubilee Hospital and executive committee of the campaign have made arrangement with the contractors for the new hospital building to be open to public view on the afternoons of Saturday, Sunday, and Wednesday, until the drive concludes, commencing next Saturday.

IMPORTANT LUMBER MILL DEVELOPMENTS DUE AT CHEMAINUS

Vancouver, Nov. 7.—A special dispatch from New York to The Vancouver Province says: "In connection with the recent announcement from Victoria that the owners of the big lumber mill at Chemainus, Vancouver Island, propose to double the capacity of their plant and to build a logging railway into the Quatsino district, the Weyerhaeuser interests, owners of the plant, announce that they will spend $1,500,000 on the mill. They own thousands of acres of fine timber on the Island and, it is stated, will develop it to the full.

SEWER AGREEMENT STILL HOLDS GOOD

Lawyers Believe Agreement to be Sound, in Spite of Latest Act

What relation will the Northwest Sewer surprise in Saanich have to the agreement with the City of Victoria executed in 1920? That question occupied some attention at the City Hall to-day, and City Solicitor Pringle discussed the matter with Harold B. Robertson, K.C., solicitor to the municipality.

It is understood that Mr. Robertson supported the recommendation of his letter to the Saanich clerk, in favor of amending the clause of 1918, irrespective of the private legislation of the municipality, which has hitherto been considered specific on the matter.

It seems to be the impression that the contention of the Municipal Inspector and Saanich solicitor challenging the right to deal with the subject in the way it has twice been submitted to the ratepayers, only affects the relation of Saanich to the sewer by-law, and that the agreement between the city and Saanich, under which Saanich is to pay the principal and interest, is just as binding as it ever was. The only thing therefore which would protect Saanich from a civil suit to collect the amount of the debt, which then would come out of the funds of the whole municipality, instead of being charged back to the sewer district, in that the city agreed to have the by-law ratified by the electors of Saanich.

Unfortunately the framers of the general legislation of 1918 appear, according to present legal opinion, to have been oblivious of Section Five of the Saanich Light, Water, and Sewer Act of 1914, and the clauses do not harmonize as they should, hence the present conflict and uncertainty.

PHILANTHROPIC LANDLORD IS FOUND IN COURT

Allan Ferguson Modestly Admits Loans to Longshore Friends

Liquor trials resumed in the City Police Court to-day when Allan William Ferguson was charged on remand with illegal sale of beer. In the accused, the court found a philanthropist of distinction.

On the premises at the Panama Hotel the police found a book, which counsel said the accused on the stand to-day, a record of loans he had made to striking longshoremen. The book, he agreed with the city prosecutor, C. L. Harrison, contained itemized loans of some $250 in all. This money, said the accused, had been advanced in twenty-five-cent and fifty-cent lots to longshore friends during the lean times of the strike.

How It Paid

As to the operation of his business as a rooming house, the accused said that he paid $50 a month rent for the premises, leasing it through the Empire Realty Company. He had now five roomers, each of which became liable to a payment of $3 a week for their rooms. Some of the roomers, admitted the accused, were slightly in default with their payments. Summing up the accused affirmed that the rooming house was a successful one in operation and provided him with three meals a day, if nothing else.

Sold No Beer

Questioned as to the relatively large loans said to have been made to friends on the waterfront, the accused said this money came from savings he had made during his life time. The loans were not for sale of beer on credit, nor had he at any time sold beer or liquor, said the accused.

Evidence given in the trial yesterday by Special Constable Killwyn was to the effect that he had been supplied with beer on the premises. This the accused denied without reservation. The trial is proceeding.

John Ferguson and William Millington, charged with infractions of the Government Liquor Act as a result of the same series of raids by the city police, will stand trial at the conclusion of the former hearing.

William Hughes and Thomas King, charged separately with being drunk in a public place, were remanded on pleading not guilty, for hearing on Thursday.

CONFEREES TO END WORK TO-MORROW

(Continued from page 1.)

will be some disappointment, although Great Britain is now so engrossed with its own political situation that little attention is being paid to the conference.

Publicity

One feature that will demand further consideration in future, however, is that of conference publicity. The method adopted at the present conference, while it has been a considerable advance on previous conferences, has not been found entirely satisfactory, particularly among the Dominion representatives. Complaint is made that the verbal summaries of the conference sessions given to the press tend to stress too much the British viewpoint and that the position of the Dominion representatives sometimes is not properly presented.

DR. A. E. GARROW DIED IN MONTREAL

Montreal, Nov. 7.—Dr. Alexander E. Garrow, one of Canada's outstanding surgeons, died this morning at his home here of heart trouble. He was sixty-two years of age.

He was of Scottish origin, being the son of the late John Garrow, Ottawa, where he was born. He graduated from McGill University in 1889, winning a gold medal. In 1891 he married Miss Victoria Craig, of North Gower, Ontario. For year's past he was a member of the faculty of McGill, being Assistant Professor of Surgery. He was also Assistant Surgeon of the Royal Victoria Hospital.

Mallek's Announce a Big Event!

A Sale of Costly Fur Coats

True to our policy of offering extraordinary values at the very height of the season, when they are real buying opportunities, rather than clearance sales when the season has begun to wane, we now present a wonderful collection of LUXURIOUS FUR COATS, trimmed with self furs or furs of harmonizing or contrasting colors, at remarkably low prices.

This is indeed your opportunity to purchase a Real Fur Coat at a price well within your means. The prices have a very wide range, from **$49.50** to **$495.00**. The styles include many new features. We ask you to see these Coats to-day, and earnestly advise an early selection. Here are a few of the offerings:

Coney Coats, full length, in either wrap or regulation style. Splendid values at **$49.50**

Plain Seal Coat. Very special at **$98.50**

Seal Coat with opossum collar and cuffs, outside pockets, belt and novelty lining **$145.00**

Muskrat Coat, made in banded effect; splendid for dress wear or general use. Reduced to **$145.00**

Seal Coat with squirrel collar and cuffs. Can be worn with or without belt. Reduced to **$195.00**

One Only, Genuine No. 1 Beaver Coat with deep collar and cuffs, beautifully lined. A rare bargain at **$495.00**

Any one of these Coats would make a splendid Christmas gift. A small deposit will secure one until ready to be called for.

DR. THACHER'S GREAT TONIC BRINGS QUICK RELIEF IN NUMEROUS TESTS

HIS PRESCRIPTION IS GIVING HAPPINESS TO THOUSANDS

Stubborn Cases of Indigestion, Nervousness, Constipation and Run-Down Health Yield to Celebrated Vegetable Tonic.

With hundreds of persons now telling of their own personal experiences as evidence of relief, there is little wonder that druggists throughout this section report a marked increase in the use of the great vegetable tonic made famous by Dr. H. S. Thacher, distinguished American physician.

There's an excellent reason why druggists brought it here to sell under a standing guarantee. Dr. Thacher's tonic contains a combination of the finest health building ingredients known to modern medical science—prescribed by the most eminent doctors in the United States and Canada.

PUT TO MANY TESTS

Test after test has been made! Reports in more than 500 cases of record indicate that Dr. Thacher's tonic gives quick relief in cases of indigestion, nervousness, constipation and a general run-down condition of the system.

Records of leading druggists show that of every 2000 bottles sold there has been an average of less than two returns. Yet every bottle of Dr. Thacher's tonic (known as Dr. Thacher's Liver and Blood Syrup) is sold with the understanding that the purchase price will be refunded without question unless this tonic gives quick, complete satisfaction.

Following are reports taken at random from the test cases of record. All descriptions are confined to the statements of those who actually used it. Names, addresses and complete information regarding these tests will be furnished those personally interested.

INDIGESTION

Case 259—This man had been troubled many years. He had tried tablets, pills and medicines of various kinds, he said, but had been unable to get lasting relief. His digestive organs were in such condition that food soured on his stomach, caused gas and bloated him. He had become constipated, his health broke down and he was forced to lay off from work for days and weeks at a time.

DR. H. S. THACHER

Celebrated American Physician who Proved that Symptoms such as those described in this article can be relieved quickly with purely vegetable ingredients and without the treacherous use of dangerous or habit forming drugs.

In a few days after taking Dr. Thacher's tonic (a spoonful in a wineglass of water after meals), he felt fine again. "My appetite is hearty," he said, "and my digestion fine. My nerves are steadier. I can sleep the night through without rolling and tossing in bed. I am no longer constipated, weak and run-down, but have regained my health, strength, energy and feel fine."

CHRONIC CONSTIPATION

Case 46—This person's bowels neither moved thoroughly nor often enough to keep the system properly cleansed. Frequently suffered from sick headache, indigestion and annoying pains. Dr. Thacher's Liver and Blood Syrup did not pain or gripe like harsh cathartics, but induced a pleasant, gentle and thorough movement of the bowels. As the dosage was gradually cut down the patient's bowels continued to move regularly and the patient was soon able to leave off the dose. [illegible] bore; in Mission by A. J. Stephen and by leading druggists in each city and town.

Could Dr. Thacher Quickly Help You Feel Fine Again?

Did you ever stop to consider why you feel badly at times? Why on certain days you feel well, cheerful and full of "pep"—and other times when you wake up dull, tired and "headachy"—why people suffer at times from indigestion, constipation, nervousness and the many symptoms of a sluggish liver and acid condition of the stomach and blood?

There is a cause! And your trouble CAN BE CORRECTED, often quickly, if you start the right treatment in time.

Read the article on the left showing what Dr. Thacher's has accomplished in 500 actual tests of record.

bowels invariably move twice every day and I feel so much better."

NERVOUSNESS

Case 83—Because of her nervous condition this woman was unable to get refreshing sleep or properly digest meals. Food soured on her stomach, bloated her and did not give her the proper amount of nourishment. Her nerves became so "unstrung" she could do only the lighter kind of housework.

From the very first day she began taking a spoonful of Dr. Thacher's Liver and Blood Syrup in a wineglass of water after meals, her appetite increased, digestion improved and she appeared to be getting more nourishment from her meals. Her complexion showed a healthier and more attractive color and she looked much better in every way.

"I feel fine," she said. "I can now do my housework and walk to the market without feeling tired. My nerves are steady, my meals are relished and my digestion is splendid. I get plenty of sound restful sleep and wake up mornings feeling cheerful and full of energy. This splendid tonic did wonders for me."

TRY THIS TONIGHT UNDER GUARANTEE

Take a tablespoonful of Dr. Thacher's Liver and Blood Syrup after the next few meals. Notice the quick difference in the way you eat, sleep and feel! Keep this up a few days and let this vegetable tonic increase strength, energy and vigor. Your money will be returned at once unless you get complete satisfaction. You are the only judge—and your decision as to its merits in your case will not be questioned.

"JOE" WILSON WAS IN LEAD AT NOON

J. E. ("Joe") Wilson, captain of the Victoria Golf Club, was leading the field at noon to-day in the first round of the championship of the Senior Northwest Golfers' Association being played at the links of the Victoria Golf Club.

"Joe's" card showed an even 80 for the eighteen holes. He was four strokes better than R. W. Gibson, also of Victoria.

Two Seattle players followed. A. S. Kerry and T. R. Van Tyle, turning in cards for 86. J. A. Sayward, who is expected to be right up at the top at the finish, did not shoot the golf he did yesterday in the opening match, and required an 88.

Other scores were as follows:

R. W. Gibson, Victoria, 84; A. S. Kerry, Seattle, 86; T. R. Van Tyle, Seattle, 86; J. Caven, Victoria, 87; J. A. Sayward, Victoria, 88; J. R. Waghorn, Vancouver, 88; A. W. Tidmarsh, Seattle, 89; J. Ogilvie, Vancouver, 90; A. A. Morrison, Portland, 93; F. F. McCullough, Spokane, 93; S. Warburton, Tacoma, 94; Senator Barnard, Victoria, 95; N. E. Ayer, Portland, 95; W. B. Ferrie, Vancouver, 95; F. H. Graves, Spokane, 97; A. E. Beasley 108, J. P. Babcock 91, A. E. Atwater 106, F. J. Post 101, E. E. Blackwood 97, Hon. W. Sloan 102, C. H. Jones 89, P. Criddle 99, F. G. Fowkes 101, Major Roberts 99, and J. R. Stirrat 106.

COMMISSION TO HEAR GERMANS IF INQUIRY NOT HELD

(Continued from page 1.)

gium, at a meeting of the commission last evening at which Colonel J. A. Logan, official observer for the United States, also was present.

To Explain

The Germans in their note last month asked the Commission to begin an examination into Germany's capacity to pay and allow representatives of the Berlin Government personally to explain the situation and the measures Germany had taken for reforming her budget and stabilizing her currency. They also suggested that German delegates be heard regarding the conclusions embodying the results of the Belgian technical studies of the reparations problem.

P. G. E. OPERATIONS REVOLUTIONIZED BY MACLEAN POLICIES

Drastic Economy Cuts Expenses While Better Service Swells Revenues; Line Must Not Be Abandoned, Minister of Railways Declares, Telling of Plans For Finishing Road to Prince George

Business management and drastic economy have revolutionized the operations of the Pacific Great Eastern Railway during the last year. Operating expenses have been cut and revenue has increased. The Government-owned line, for years the despair of British Columbia, is being made into a real railroad.

This is the substance of striking facts and figures laid before the Legislature yesterday afternoon by Hon. J. D. MacLean, who took over the portfolio of Railways early this year and who has reorganized every department of the P.G.E. Dr. MacLean's report on the operations of the line for the year—the most optimistic P.G.E. report in years—was received with keen satisfaction on both sides of the House.

"The balance sheet and statement of accounts of the Pacific Great Eastern Railway Company for the year ending June 30, 1923, are the most satisfactory that have yet been presented, and give very substantial evidence of real progress having been made in the operation of the railway during that year," Dr. MacLean went on.

"The balance sheet and statement of accounts of the Pacific Great Eastern Railway Company, for the year ending June 30, 1923, are the most satisfactory that have yet been presented, and give very substantial evidence of real progress having been made in the operation of the railway during that year," Dr. MacLean went on.

"As for the cost of the road, the two chief items making up the increase shown in the capital accounts as compared with last year's figures, are the charges of interest on guaranteed bonds and on loans from the Provincial Government, amounting to $2,149,845.61, and revenue and operating expenses during construction of $257,620.32. The other items represent principally, adjustments made at the final settlement with the contractors.

"The thing, however, of paramount interest in the year's statement, is the marked improvement in the statement of the operating department, which shows the deficit in the year's operations to have been reduced to $230,786.41 as compared with $487,383.06 in 1922 and $375,642.18 in 1921 and $264,697.71 in 1920.

Revenue Grows

"The revenue for the year was $437,017.55 as compared with $384,182.57 in the preceding year, but to appreciate fully the significance of this great improvement, attention is drawn to the fact tnat in the past, revenue accounts have benefited to a great extent from the charges against the construction department, for transportation of workmen and material and supplies during the construction of the road. Last year the revenue derived from this source was $48,670.04, whereas this year the only benefit received therefrom was $860.84. The railway may, therefore, have been said to have been standing on its own legs in the year just closed, and on that account the big reduction in the amount of the deficit should be all the more gratifying. Mud Hill shows an added $15,000 to expenses. Therefore, the operating loss would have that much less.

"The expenses in operating the railway amounted to $667,803.96, which is a lower figure by $161,146.13 than the best year since 1920, when the mileage operated was very considerably less. Besides, in the expense last year is included the cost of reconstruction of the wharf at Squamish in the beginning of this year.

"General expense accounts, which contain the cost of administering the affairs of the company, show an expenditure of $41,809.15, as compared with figures $58,000 in the previous years on attached statement.

"The better showing last year is attributable, chiefly, to several important changes, among which are the reconstruction of the Squamish wharf, which has been the means of reducing very materially the cost of transfer of passengers and freight from steamer to train, and vica versa and enabling the trains to run on better time. There was also the change from established practice in the running times of the trains, which are now operated from Squamish in the evenings and returning in the mornings, instead of in the afternoons as in the past. This change of service has brought about the practical elimination of competition which the Company has been subjected to in former years at Clinton, through the operation of stages and teams driving between Ashcroft and Clinton, in connection with other lines.

Better Service

"Another improvement having a direct bearing on the bettered conditions, is the introduction of sleeping cars, which have been a source of considerable revenue to the Company, as well as a great convenience and benefit to passengers. The opening of the city passenger office in Vancouver has proved to be a step in the right direction and much good has resulted therefrom.

"This year, the traffic on the North Shore Branch has been exceptionally good and part of the success of the Company in achieving record earnings, is due to greater effort along publicity lines, and better facilities at the Ferry Wharf on the Vancouver side of the Inlet where a P. G. E. Ticket Office was opened in the Spring and tickets sold from Vancouver to all points on the North Shore line.

"While a new Board of Directors and a new management has been in charge since January 31, 1923, I do not wish to give the impression that the improved financial position was due entirely to these changes as a detailed study of the expenditures during the first six months of the financial year ending June 30 last, will show that very substantial economies were effected during that period."

Dr. MacLean laid these figures on the operation of the P. G. E. before the House:

	1920	1921
Expenses	$577,946.06	$828,956.69
Revenue	313,248.35	453,307.91
Deficit	$264,697.71	$375,642.18
General expenses	$ 32,004.99	$ 52,486.08

	1922	1923
Expenses	$871,565.63	$667,803.96
Revenue	384,182.57	437,017.55
Deficit	$487,383.06	$230,786.41
General expenses	$ 58,149.05	$ 41,809.15

Figures for 1919 are not given, as statements submitted for that year include figures for 1918.

Must Complete Line

Coming to the question of building the line into Prince George, Dr. MacLean declared that the connection must be made.

"The Railway can be completed over the present surveyed line," he explained, "but it is going to be difficult to maintain the roadbed in certain sections. From a point seven miles south of Quesnel, to the north of the Cottonwood, or a distance of some 25 miles, there is the most difficult roadbed imaginable. While the grade is not excessive, certain sections of this distance consist of slowly sliding and movable masses of earth. This condition became more evident when the grading was completed. This year when I travelled over this portion of the grade, we were so impressed with this fact that we decided to investigate a possible diversion to overcome these difficulties. These investigations are still going on, as the directors are anxious to make reasonably sure that the cost of maintaining this section of the roadbed would not be excessive. It is a simple matter to make a snap decision, but when we are dealing with the public monies of the country it behooves us to exercise every care that none of it is wasted.

Peace River Plans

"Then there is the matter of providing transfortation facilities for the Peace River territory. This question has engaged the earnest consideration of my co-directors and myself because it is realized that very many settlers went into that portion of the Province on the strength of the original scheme for the extension of the railway into that territory, and because, further, we realized that the territory in question is capable of producing a grain tonnage for a transportation company of no mean proportions. We have found ourselves, however, confronted with the construction of a minimum mileage of about 300 miles to open the Peace River country into Central British Columbia, and a financial barrier of a roughly estimated expenditure of $20,000,000 or $25,000,000.

"These facts rendered it advisable for the directors to refrain from recommending that the Province undertake this burden, at least until such time as all other possible solutions of the situation had been exhausted. I therefore undertook to represent as forcibly as I possibly could to the two great transportation companies, the desirability of their undertaking the supplying of transportation facilities to the Peace River, and I am very glad to state that during the past Summer several survey and investigation parties were at work in that section, and I am satisfied that the company that obtains a foothold in this territory will be richly rewarded for its enterprise.

Valuable Asset

"One of the disadvantages of the road," the Minister went on, "is that while it is splendidly constructed, the gradients are 2.2%, which is considered high, I understand, for economic operation. If, however, we had 300 to 400 miles of railway with a 1% grade from the Grand Trunk to the main line of the Canadian National, or of the C. P. R., we would have an asset of considerable value, both from the standpoint of local freight, as well as a feeder for a transcontinental line. From what I have already stated, you will realize that the directors are not yet prepared to announce the final policy in connection with the extension of the railway. I will say, however, that in an important matter of this kind, I believe that all the representatives of the people should be consulted before a final conclusion is arrived at. Meantime, we expect: (a) to still further reduce our operating loss; (b) to colonize the tributary lands; (c) to completely exhaust the possibilities of relieving the taxpayers of the Province of this heavy financial responsibility.

Cannot Abandon Line

"On assuming office, the Minister stated, the Board of Directors had set themselves the task of increasing revenues, reducing expenditures, improving the service of the road, and investigating the future possibilities of the railway.

"Messrs. Sullivan & Dennis advised the closing down of the road and accepting our losses," he said. "This the Board of Directors are not yet prepared to do. What would the abandonment of the railway have meant to the Province? First, an admission that Central British Columbia was an unproductive wilderness. Such a course would certainly have impaired our credit and advertised to the world that the large central interior districts were unproductive and valueless. What would we have saved financially by following this advice? Simply the annual operating loss plus any monies required for capital expenditure and equipment. We should still be confronted with the payment of interest and principal on the guaranteed bonds and on the money loaned by the Province for the construction of this railway. Now, before taking this loss, surely the most careful investigation, covering several years

(Concluded on page 12.)

Fine quality Silk and Wool Hose in shades of silver, dark grey, fawn and brown; sizes 8½ to 10. A splendid wearing hose at, per pair, **$1.25**

TO ASK REPRIEVE FOR CHINAMAN

Vancouver, Nov. 7—Chong Sam Bow, a Chinese, was sentenced to death in Mr. Justice Gregory's court last night for the murder of John Clayton Jones, an electrician, on July 18 last. Counsel for the defence will apply to Ottawa for a reprieve before February 6, the date set for the hanging, contending that Chong Sam Bow was subject to fits of insanity and that in one of these he shot Jones while not responsible for his action. The jury, in finding the Chinaman guilty, apparently accepted the contention of the Crown prosecutor that blind rage rather than mental unbalance prompted the Chinaman, who drew a gun and shot blindly at Jones, whom he had never seen, on a crowded street here at noonday. Evidence showed that Cheng was subject to fits of anger.

KU KLUX KLAN IN AUSTRALASIA

Special to The Times

Wellington N.Z., Nov. 6.—At least one branch of the Ku Klux Klan has been started in New Zealand and it is known another exists in Sydney, Australia. Both are secret.

In Sydney a question was asked in the State Legislature and the Chief Secretary promised to make inquiries. In New Zealand the police know nothing of the organization and say they will not interfere with it unless on proof that it is a public danger.

Both branches in Australasia, it is believed, will confine themselves to sectarianism, always a live issue in New Zealand.

ROBINSON CRUSOE ON LONELY ISLAND

Special to The Times

Auckland, N.Z., Nov. 6.—A modern Robinson Crusoe has been found on a small island to the north of Australia, according to a report from a steamer that called there on the way to Auckland. The island is fertile and carries a fine flock of sheep and some goats and the owner "lives like a king," it is said. He occasionally visits the mainland, but nobody knows his real name.

LAND ACT Form No. 11
Notice of Intention to Apply to Lease Land in North Saanich Land District, Recording District of Victoria, and situate Near Saanich.

Take notice that Stephen Jones, of Victoria, hotel keeper, intends to apply for permission to lease the following described lands: Commencing at a post planted at the S.E. corner of Lot 4, of the subdivision of Sec. 18 and part of Sec. 17, Range 3, East North Saanich district (Map No. 2804), thence north nine chains, thence N. 45 deg. E. seven chains, thence east twelve chains, thence north eight chains, thence east twenty chains, thence south twenty-three chains, thence west eight chains, thence south five chains, thence west sixteen chains, thence south eleven chains, thence west eight and a half chains, more or less, to the shore line at high water mark, opposite to Lot 10, of the said subdivision, registered under Map No. 2809 in the Land Registry Office in the City of Victoria, thence following the shore line in its meanders at high water mark in a northerly, westerly, easterly and southerly direction, a distance of 124 chains more or less to the point of commencement, and containing 45 acres more or less.

Dated Sept. 12, 1923. Stephen Jones.

LABOR SAVING DEVICE

"Dinnis," said Mike, "can yez tell me why they always have a rooster an' niver a hen on top of thim barns fer a weathervane?"

"Sure!" said the other. "'Tis t' avoid the difficulty iv coilictin' the eggs."

THE P.G.E. IMPROVES

It may be some considerable time before the people of this Province will derive much pleasure from a study of the annual financial statement of the Pacific Great Eastern Railway. At the same time they have already begun to realize that it is much more profitable to assist in popularizing the line and so gradually reduce the yearly deficit than to throw up their arms in despair. The reason for this is disclosed in the statement which Dr. MacLean has presented to the Legislature.

The Minister of Railways has not fixed the year in which there will be a surplus of operating revenue over operating expenditure. But he has shown how the conduct of the business of the system during the last twelve months has reduced the deficit from $487,383.06 in the fiscal year of 1922 to $230,786.41 in 1923. This condition very naturally still leaves much to be desired in the annual business of the line. Nevertheless it goes without saying that if a rather more vigorous and intensive policy of development shall be persisted in by the proper departments of the public service the business upon which the P.G.E. must depend for its maintenance and growth will undoubtedly be furnished at no distant date.

In any event the people of British Columbia should regard their own property in the same manner as Canadians as a whole are regarding the Canadian National Railways—as assets that are going to pay and not as liabilities without prospect of liquidation. Not so very long ago the operating business of the system over which Sir Henry Thornton presides was far from encouraging and the annual drain looked like a permanent institution. But a very considerable change has taken place during the period in which Sir Henry's plans have been in effect. Monthly operating deficits have been converted into monthly revenues that are showing a continual increase. Will it be seriously contested that British Columbia's normal growth within the next few years will not be reflected in the turnover of a public undertaking that is a somewhat cumbersome liability at the moment?

Dr. MacLean has not enlightened us as to what he proposes to suggest for the Squamish-Clinton section of the line. We are still of the opinion, however, that if that mileage were to be dispensed with, and a highway substituted, the increased travel of various kinds that such a facility would undoubtedly furnish would indirectly, if not directly, contribute more liberally to the provincial exchequer than would otherwise be the case.

GOOD BUSINESS

Victorians will learn with gratification that Dr. Sutherland's support is already assured for the plan to have the final miles that lead to the Butchart Gardens properly paved and ready for use next year. The Minister of Public Works, like his predecessor was, is fully alive to the value of good roads and more especially where he can be shown that there is an immediate promise of increased revenue because of improvements that his Department is required to carry out. He knows how "Benvenuto" has made a name for itself in very many parts of the world and he would naturally prefer that it should associate its future popularity with the aggressiveness of that branch of the public service over which he presides. Whether or not it is appropriate to congratulate Mr. and Mrs. Butchart upon the prospect of still more visitors to their beautiful home and gardens is a matter upon which we may only speculate. Their public-spiritedness has long passed out of the realm in which pleasant comment would do it anything approaching justice.

EARLY DIFFICULTIES LOOM UP

What is meant by the "sale of beer to be consumed in licensed places" is already a complex question in the Province of Alberta. As we have pointed out before, the plan—designated "D" in the plebiscite submitted to the people on Monday—which has been selected for translation into law provides for the sale and control of all liquors by the Government as well as the "sale of beer to be consumed in licensed premises."

Conflict in respect of that part of the scheme which exceeds the privilege obtained by either British Columbia or Manitoba will be at least of a three-fold nature. Brewers and hotelkeepers will naturally assume that Monday's vote virtually restored the ancient method of distribution over and consumption in the bar. Moderationists will promptly refuse to countenance a complete return to the very practices that they in their campaign declared would never be tolerated again. The average voter, who favored "D" because it is intended to give him a law that seems more capable of enforcing than the one he has now discarded, will have his own objection to an unduly liberal interpretation of the phrase relating to the fate of the less potent beverage.

Unlike Manitoba the electorate of the neighboring Province had nothing to guide it in the form of legislation that would give expression in law to either of the four choices. Consequently it now remains for the Legislature to frame a Liquor Control Act that will erect all the necessary safeguards that the Government's own direct dealing will require and still extend such general liberty as the "sale of beer to be consumed in licensed premises" will finally be deemed to imply. Here is a task which may well perplex any body of legislators

THAT EFFIGY INCIDENT

Those ardent spirits in Esquimalt who selected the burning of the Premier's effigy, as a fitting demonstration of their objection to what they believe to be the final decision in respect of redistribution, are no doubt less proud of their handiwork now that they have had time to ponder over it. At the same time we shall hesitate to believe that any responsible follower of Mr. Pooley would countenance a display of that sort.

The member for Esquimalt has a perfect right to call his friends and supporters together for the purpose of collecting an opinion on a public question that is of importance to the constituency which he has represented in the Legislature for a number of years. This was his object on Monday evening and it can be said without hesitation that Mr. Oliver would be the last man in the world to place the blame for the effigy incident on the shoulders of good citizens in Esquimalt. And the burning will, of course, not even irritate the broad back of the Premier.

ONLY NATURAL

Vancouver City's publicity bureau—an energetic organization in the constituency represented by Mr. Bowser in the Legislature—announces with justifiable pride that "while there has been some talk of British Columbians migrating to California, the fact is not to be overlooked that many Californians are looking towards this Province."

Why all this fuss about British Columbia emptying herself into the United States? Who dares to say that there has not always been a continual crossing and recrossing of the invisible line that divides the two countries? Who dares to say that it will not continue until the present generation has taken its final leave? And will Mr. Bowser say that his Vancouver optimists are talking through their hats?

Note and Comment

Alberta has gone "wet." But it only took the beer clause because it had not been separated from the main alternative to prohibition.

Premier Mackenzie King and Premier Bruce are both agreed that Imperial Federation is not now within the scope of practical politics. Carried unanimously.

For the benefit of our readers who are wondering whether some mistake has been made on the 1923 calendar we beg to declare that this is the seventh day of November and not, as the sun and warmth might imply, the seventh day of June.

We are glad to know that there is at last some stability in German exchange. The official rate for the paper mark is now fixed at 420,000,000,000 to the dollar. Anybody who wants to spend a pleasant evening might let us know how many marks thirty-nine cents would purchase after deducting a sales tax.

Premier Poincare is now willing to put an elastic interpretation upon the term "present" as related to Germany's capacity to pay reparations. It is suggested that he will allow the term to mean two years, and with this concession there is every likelihood that Great Britain and France will agree upon the formula that the examining committee shall follow.

Some Thoughts for To-day

A noise like a hidden brook
In the leafy month of June,
That to the sleeping woods all night
Singeth a quiet tune.

Coleridge.

Histories make men wise; poets, witty;
The mathematics, subtle; natural philosophy, deep;
Moral, grave; logic and rhetoric, able to contend.

Bacon.

Oh, for a lodge in some vast wilderness,
Some boundless contiguity of shade,
Where rumor of oppression and deceit,
Of unsuccessful or successful war,
Might never reach me more!

Cowper.

There is a silence where hath been no sound,
There is a silence where no sound may be,
In the cold grave—under the deep, deep sea,
Or in wide desert where no life is found,
Which hath been mute, and still must sleep profound.

Hood.

Our Contemporaries

SOUNDS REASONABLE

Montreal Gazette:—Satiety and piety have much the same sound, and that isn't all they have in common either.

COINING NEW WORDS

Toronto Star:—In England they have a new word for the effect of a misleading communique. They call it "communiqueering the public."

LABOR'S COMPENSATION

Morning Post:—The routine worker buys a certain amount of leisure, that invaluable possession, by a certain amount of toil. It is the price he must pay, and if he be wise he will not grumble too much at the cost. When his trick at his machine is over he is free. He need carry no burden of responsibility home with him. He has fairly earned his leisure, and can employ it how he will.

HEAVY BURDEN OF AMUSEMENT TAX

Why Moving Picture Houses Are Pressing For Its Reduction

Point Out That it Threatens Them With Extinction

The case of the Associated Amusements of British Columbia for a reduction of the amusement tax from ten to five per cent. was supported by the following communication which was sent by the association to members of the Provincial Cabinet:

This letter deals with a subject which the layman and the general public know but little. Read it, and put it aside for future reference. It contains facts. It will be interesting to read again later.

The amusement industry is facing a serious situation in the Province of British Columbia. It is on the verge of collapse.

We couldn't afford to say that to you, if it were not true.

Since 1917 the amusement interests have paid, in addition to all other taxes, an amusement tax of ten per cent. on their gross receipts, irrespective of whether the operation was being conducted at a profit or a loss, with the result that the industry as a whole is in a precarious state and will undoubtedly collapse if no measure of relief is secured at this session of the Legislature.

Briefly the situation is this: The theatres as a whole are operating at a loss or very close to the line. In almost every case the amusement tax is the deciding factor between a profit and a loss. To be specific, the Columbia Theatre Circuit, handling fourteen houses in this Province, has gone into bankruptcy. The Allen Theatres have followed suit. The Empress Stock Company and three of their successors have been put out of business. The Orpheum Theatre in Vancouver for the past three years has suffered losses than run into six figures and have been forced to cut their show to half a week. The Capitol Theatre in Victoria shows a net loss on two years' operations of $42,000. One of the leading moving picture theatres in Vancouver, whose shareholders are practically all British Columbia people, has paid no dividends for two years, and in fact last year showed a net loss of nearly $10,000. Professional baseball is a thing of the past. The hockey interests are seriously contemplating moving out of the Province. The amusement tax is slowly but surely grinding out the business lives of those engaged in the industry in this Province. If relief is not granted, and that quickly, the Province will suffer a black eye that will take some little time to overcome. Do away with amusements and the present tide of emigration will be doubled.

But you say: "The tax is payable by the patron." The obvious intention in the act is to impose it upon the patron. In effect, however, the tax is imposed upon the proprietor. This is particularly so in respect to the theatres. They have a commodity to sell like any other merchant. There is a certain fixed price at which they can sell their commodity to make their houses produce the most money. If they exceed this fixed price per seat, they find the decrease in attendance decreases the gross yield.

A good showman knows this price and charges it. It is fixed by the laws of supply and demand. That is why he has had to absorb this tax.

There are sixty-five moving picture theatres in the Province of British Columbia. Fifty-five of these are "small houses." The necessity of paying ten per cent. of the gross revenue each week to the Provincial Government has run these theatres into such an economic back-water that their proprietors have more or less lost interest in the business. They are not redecorating their houses, improving their music and show, and the industry is marking time, looking forward to some relief.

The theatre owner pays all the other taxes, Federal, provincial and municipal, that are imposed. These do not begin to amount in all to the amusement tax, which is imposed upon him as a super-tax on his gross, and payable on his losses. This is an unsound principal of taxation. It has been argued in justification of this super-tax, that amusements are luxuries. That is true in the sense that everything other than the bare necessities of life are luxuries. The people must have some form of amusement, and if they don't get one type they will have another.

If it be remembered that the amusement interests in the Province of British Columbia represent an investment of over $5,000,000, and three of the theatres in the City of Victoria spend there more than $100,000 every year, and seven out of the sixty-five theatres in the Provinces, run by one company, spend in the Province every year $500,000, that two theatres alone in Vancouver maintain more than 100 families on their payroll, it will be realized that the amusement business in the Province of British Columbia is a real economic factor, and as such entitled to consideration as a legitimate industry, upon which a ten per cent. super-tax on the gross turnover is inequitable.

In spite of our utmost efforts the cost of operation has increased tremendously. Some years ago the price of admission reached the breaking point. Beyond that price we cannot go and make our houses yield the best returns.

The producers of pictures must either improve their product from time to time or go out of business. With improvement comes increased cost. None of these pictures are produced for Canada or British Columbia alone; the price we pay, irrespective of the poverty of amusement conditions in British Columbia, is fixed on a quota basis. The time has come when the industry must seek some relief from this super-tax. Don't "kill the goose that lays the golden egg."

We are asking that the tax imposed on theatres with a vested interest in the Province and spending all the money earned here, be reduced to five per cent. In making that request we do so believing that the increased impetus it will give to the business will mean that the reduction can be made without any appreciable loss in revenue to the Province. It will mean the difference between profit and loss to the theatre owner, will give him an opportunity of renewing his interest in his business, renovating and improving his house, taking a new interest in getting good film and good music, and largely augment the attendance.

We are asking the Government to devote a little profit to capital expenditure. It's good business.

This tax was imposed as a war tax. For some years the theatre owner felt that it was his duty to bear the burden. Our war debts are not paid but conditions have changed materially since the tax was imposed; he can bear it as it stands no longer.

This is a Province whose biggest industry is the tourist traffic. It is not a Province to discourage and stifle amusements.

In the City of Victoria they are planning even now to establish an amusement centre on the property behind the Empress Hotel, and spend $500,000 theron. To encourage them the city is relieving the enterprise of any taxation for fifteen years.

We've reached the point where we need more than encouragement. We need help. Our request is just and equitable.

We are asking you to exert your influence to see that this tax be stabilized at five per cent. in so far as it applies to places of amusement with vested interest in the Province. Can you, as a responsible law maker, ignore the situation? The remedy is in your hands.

Yours Sincerely,
ASSOCIATED AMUSEMENTS OF BRITISH COLUMBIA.

A Word of Caution!

When buying Maple Buds, say
"I want Cowan's Maple Buds"
—and further, when you are handed the package, slip a few Maple Buds out and see that they are stamped with the name "COWAN".

This warning is necessary because some dealers are foisting imitations of Maple Buds upon the public. Genuine Maple Buds cost dealers more than do the imitations. Get the best!

If They're not COWAN'S They're Not MAPLE BUDS

Hand the dealer back his substitutes

COWAN

G 141

Bransby Williams

ACTOR, ENTERTAINER
POET, AUTHOR

One of the rare treats of the present theatrical season will be the appearance of Mr. Bransby Williams and his British Company in a British play, "David Copperfield." Mr. Williams is the greatest exponent of Dickensian characters on the English stage, where he has won his place by the sheer artistry of his impersonations.—On the eve of leaving London for his Canadian tour, Mr. Williams sent the following letter to Mr. Frank D. Waterman:

Dear Mr. Waterman:

For fifteen years, I have carried and used various Waterman Pens. Apart from my heavy correspondence, I have written lectures, speeches and my book "An Actor's Story" also "Ten Books on Acting"—all my work has been done by my "Jolly Young Waterman." I have sketched in and autographed thousands of autograph books.

I have often wondered what difference it would have made if Charles Dickens had been able to use a Waterman. His ideas flowed; but, alas! the continual "dip, dip" of his pen into his famous blue ink must have hampered him. If only he could have written with "Waterman ease," he might have left the world even more wonderful treasures than we already possess. I keep special pens—one for small writing and copying my poems and plays; another for letter writing; another for ornamental work and music copying. My Watermen and I are Pals—we are a united society of "nibs." I am now carrying my Pals across the ocean to Canada to present "Our Mutual Friend" "*David Copperfield*" where I have "Great Expectations."

Yours, till the "last Drop,"

Bransby Williams

WHERE MOST PEOPLE TRADE

Last night, in an exhibition billiard game at the Empress Hotel, Bert Irish defeated Chris Owens by 127 points in a game of 750 up. George Ramsay officiated as referee and there was a large crowd of spectators. A return match between these players will take place Tuesday evening.

In the memorial parade celebrations of Armistice Day to be held on Sunday next, the brass band of the City Fire Department will make its first appearance in full strength. Under Chief Vernon Stewart, a member of the band, twenty-five firemen will parade. The firemen hold the record of being the first band operated in any service of the city.

BREAK A CHEST COLD WITH HEAT OF RED PEPPERS

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as rep peppers, and when heat penetrates right down into colds, congestion, aching muscles and sore, stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles." Advt.

IS ROMAN MEAL ADVERTISING TOO TECHNICAL FOR WOMEN?

A would-be critic said: "Roman Meal advertising is too technical for Canadian women." Like most critics he was expressing his prejudice towards, not his knowledge of, Canadian women. For two years, we have been telling mothers, that refined foods like white flour, refined cereals, polished rice, while pretty to look at, are lacking in vitalizing elements, essential to young and growing bodies. We have been teaching that disease comes from "denatured," refined foods. We have been recommending more milk and eggs, leafy vegetables, fruits, and Roman Meal.

Selection of proper fod is the most important function of the mother or housewife. Canadian women know this and we have reason to know, Mr. Critic to the contrary, that thousands and thousands of women have learned from our "too technical" advertising that Roman Meal is the most valuable food in the larder for the family. Because of this "too technical" advertising, a new and more proper dietary is now the rule in thousands and thousands of Canadian homes to the great benefit of old and young, especially the young. Your grocer sells Roman Meal. (Advt)

Cuticura Talcum

Fascinatingly Fragrant

Always Healthful

Soap, Ointment, Talcum, 25c. each. Sold everywhere. Can. Depot: Lymans, Limited, St. Paul St., Montreal.

NEWS IN BRIEF

Mrs. Nellie McClung will speak under the auspices of the District W.C.T.U. at the Centenniel Methodist Church on Tuesday evening, November 13, on the subject "Up to London."

Old friends of Charles H. Rust, former city engineer here, will be glad to learn that he is holding an executive position with a public service corporation in Toronto. Mr. Rust writes for some information to City Engineer Preston on a technical matter.

Victoria West Brotherhood held a business meeting, followed by a social and dance, last evening. Some suggestions for street improvements in the district will be forwarded to the City Engineer for attention. Several speakers delivered brief addresses.

The postponed quarterly meeting of members of the Real Estate Board of Victoria will be held in the form of a luncheon at the Chamber of Commerce lunch room to-morrow at 12.30 noon. Progress reports of committees in connection with succession dues, agents licensing act, etc., will be made at the luncheon.

Lady McBride will formally open the bazaar which is to be held at St. Joseph's Hospital to-morrow afternoon, commencing at 3 o'clock. The affair is being arranged by the Women's Auxiliary, who for months have been fashioning useful and dainty articles for the stalls. One of the attractive features for kiddies will be the children's garden, under the care of Mrs. Alex. McDermott.

At the close of the hearing in the City Police Court to-day Allan Ferguson, charged on remand with illegal sale of beer, was remanded for judgment on Friday. Similar charges against W. Millington and John Ferguson were remanded until Thursday for hearing. A charge of speeding preferred against Yarrows, Ltd., was ordered dismissed. A charge of failing to drive in a careful prudent manner, preferred against Philip Humber also was dismissed.

At the monthly meeting of the Gonzales Chapter, I.O.D.E., yesterday, Mrs. L. A. Genge, the regent, reported that she had examined sixteen Girl Guides for their laundry badge and all but three had passed. Mrs. A. D. Muskett gave an interesting report of the visit of Mrs. Warren, Dominion Commissioner. The report of the recent bridge party at the home of Mrs. Ross Sutherland was received with much gratification, over $300 being raised. Further plans were made in connection with the forthcoming pantomime. Mrs. Curtis Sampson is on the dress committee. Mrs. Prior, Mrs. C. E. Thomas and Mrs. Todd were also added to the committees. Mr. Angus Campbell is very generously lending flowers and ornaments for the production.

The Loyal Order of Moose, the Legionairies and the Junior Moose organization will hold church parade on Sunday morning, and will attend the Thanksgiving service at Centennial Church. The parade will form at the Hudson's Bay Company and will be headed by the Moose band under the direction of Sidney Rogers.

Struck by a motor car driven by E. Harris, 137 Robertson Street, Mrs. Knolder, seventy-year-old resident of 600 Gorge Road, is in hospital with painful injuries. The accident happened at the intersection of View and Douglas Streets, at 9.45 p.m. yesterday. Mrs. Knolder was removed to the St. Joseph's Hospital.

Replies from Canadian emigration agents in various parts of the world point to the success of the move to exploit Victoria and Island through the Dominion orfices. Another letter received to-day was from W. Griffiths, of the Department of Emigration, and Colonization Bangor, Wales, who asks for a further supply of literature, and states that he will use it during his lectures.

Writing for Lord Renfrew Godfrey Thomas, private secretary, writes to the Victoria Publicity Bureau in a letter received to-day as follows: "I am desired by Lord Renfrew to thank you for the good wishes contained in your letter, which he much appreciated." The Bureau wrote to the Prince congratulating him on his visit to Canada and expressing the hope that next year he would be able to spend a holiday on Vancouver Island.

At the close of an extended hearing in the City Police Court yesterday Bow and eight other Chinese were each fined $20 when charged with being inmates of a lottery den located on the third floor of 558 Fisgard Street. Five other Chinamen were acquitted when it was shown by the defence that they were not connected with the place. The convicted accused had each a tale to account for his presence there; but the court declined to credit the accounts and imposed the fine stated. R. C. Lowe appeared for the defence.

A programme of merit was given in the social room of St. Paul's Lutheran Church, Princess Avenue and Chambers Street last evening, under the auspices of the Missionary Service League. The programme centred in a lantern lecture given by Jim Bryant on "A Trip to Japan," with over one hundred beautifully colored slides, some of which showed sections of cities no longer in existence. R. Cordwell contributed two cello solos, with Mrs. Cordwell at the piano. Mrs. Cordwell also rendered pianoforte selections. A group of violin selections were charmingly played by Mrs. R. F. Kibler and the Rev. Mr. Kibler sang "Little Mother of Mine." The concert was thoroughly enjoyed by an appreciative audience and the lecturer and those who contributed the music were warmly thanked for their contributions. Mr. Bryant's lecture on "A Trip to London" will be given on a later date. After the programme refreshments were served. The pastor, Rev. Mr. Kibler, presided.

MOTHERS, DO THIS---

When the Children Cough, Rub Musterole on Throats and Chests

No telling how soon the symptoms may develop into croup, or worse. And then's when you're glad you have a jar of Musterole at hand to give prompt relief. It does not blister.

As first aid, Musterole is excellent. Thousands of mothers know it. You should keep a jar ready for instant use.

It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds of the chest (It may prevent pneumonia). 40c and 75c, at all druggists.

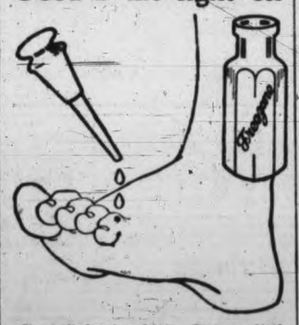

The Musterole Co. of Canada, Ltd., Montreal

MUSTEROLE WILL NOT BLISTER

Better than a mustard plaster

"FREEZONE"

CORNS lift right off

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

SS. "CANADA" FROM MONTREAL NOVEMBER 17, 1923

Passengers for the White Star-Dominion Line steamer "Canada," sailing from Montreal Nov. 17, should leave on the Canadian National Railways "Continental Limited" 9.50 p.m. Sunday, Nov. 11, from Vancouver. This train carries all-steel standard and tourist sleeping and dining cars, drawing-room-compartment-library-observation cars, and runs through to Montreal, arriving 9.55 a.m. Friday, Nov. 16. Baggage may be checked through to the steamer from Victoria.

As steamer sails at daybreak from Montreal passengers embark during the evening of November 16, thus eliminating hotel expense in Montreal.

Reservations for both the steamer and the train may be made at the C.N.R. City Ticket Office, 911 Government Street, telephone 1242. ***

NEW QUARANTINE REGULATION WAS ENFORCED TO-DAY

El Abeto Was First Boat to Come Under New Law

The steamer El Abeto, bound for Blubber Bay by way of Vancouver from Los Angeles, was the first vessel to enter quarantine under the new immigration regulations to-day.

The steamer passed up to Vancouver at 7.30 o'clock this morning and will proceed later to Blubber Bay to load cargo. Through the new immigration regulations all steamers coming from ports south of San Francisco are compelled to secure pratique before proceeding on their journey in Canadian waters.

This will affect all the oil tankers that come here and to Vancouver from Los Angeles in the future.

CHURCH UNION WAS SUBJECT

Rev. William Stevenson Addresses Island Baptist Association

Rev. William Stevenson, of Emmanuel Baptist Church, yesterday addressed the Island Baptist Association at Douglas Street Baptist Church on the subject of "Church Union." Mr. Stevenson commenced his address with a brief outline of the modern movement for union among the churches. Scotland had led the way. The Free Churches of England had formed a Federation of the Churches which had provtd to be if immense advantage to the cause of Christianity and afforded a splendid example of the benefits of co-operation on a national and community scale. Federation, no doubt, was opening the way toward the larger union, which was bound to come in time, as the dividing lines were worn away. The Anglican Church in England was doing a great work towards the reunion of Chrisednom and it could hardly be questioned that the noble efforts of that great body of Christians would one day result in a great coming together of the detached elements of the Body of Christ.

Years of Effort

Canada was about to witness the consummation of long years of earnest effort to bring together three great evangelical denominations, and questions were being asked as to why the Baptists were standing outside of the movement. He assured the meeting that Baptists did not stand outside of these efforts at union on account of any narrowness of vision or brotherly sympathy. Baptists were good mixers and they would always find them ready to work together with other religious communions in every good work. Baptists, however, found themselves cut off from anything like organic union by virtue of the principles which lay at the root of their denominational and Church life. It was not a mere question of Immersion versus Sprinkling; or adult versus infant Baptism. It was rather a matter of allegiance to the sole and exclusive authority of Christ Jesus and the freedom from every other authority which fringed upon that allegiance. Standing on that principle, Baptists stood out against all possible encroachments from Churches, from sections of Churches, from the whole Church at any special moment of its action.

Mr. Stevenson introduced the following statement which was unanimously adopted by the Association to be given out as expressing, in part, the Baptist attitude on the subject of Church union:

Whereas the subject of the reunion of the Churches is at present to the fore in Canada and other lands;

And whereas in Canada a great act of union is about to be consummated in which three large and influential Evangelical denominations are about to form themselves into one body;

And whereas questions are being asked as to the attitude of Baptists toward this great movement;

Therefore be it resolved by this meeting of the Vancouver Island Baptist Association that the following statement be given on behalf of our people;

Baptists have ever held all who have communion with God in our Lord Jesus Christ as our Christian brethren in the work of the Lord, and heirs with them of eternal life. We love their fellowship, and maintain that spiritual union does not depend upon organization, forms or ritual. It is deeper, higher, broader and more stable than any or all externals. All who are truly joined to Christ are our brethren in the common salvation, whether they be in the Catholic communion, or in a Protestant communion, or in any other communion, or no communion.

Baptists with all evangelical Christians rejoice in the common basic beliefs, the Incarnation of the Son of God, His eternal Saviourhood and His supreme authority in all matters pertaining to faith and life and salvation.

While we heartily rejoice in every movement in the Churches of our Lord Jesus Christ which will tend to remove uphappy divisions among them, and at the same time enable them to marshal their forces for the speedier and more efficient spread of the Gospel, and the building up of the kingdom of God throughout the world; and we earnestly pray for the divine blessing upon all such movements, yet we, as Baptists, standing as we do for the great principle of the universal priesthood of believers, a principle which involves the direct authority of Jesus Christ out great High Priest, we hold that Christian unity, in its truest and most vital sense, can only come through obedience to the will of Christ as revealed in the New Testament, which Baptists must ever take as their sole, sufficient, certain and authoritative guide.

While making this declaration, which we do in a spirit of true Christian charity for our brethren of other denominations, we also wish to make it widely known that we stand ready to co-operate with our brethren in other Churches, to the fullest extent in our power in every good work that has for its object the extension of the kingdom of God and the well being of humanity.

COMMUNITY DANCES BEGIN TO-NIGHT

The weekly Community dances which proved such an attractive feature of the Winter season last year at the Armories on Bay Street will be inaugurated by the Sixteenth Battalion of the Canadian Scottish Regiment this evening.

The Wednesday Community dances offer those who care to enjoy dancing on a good floor to the music of a full brass band the opportunity to engage in this pastime once a week at a nominal entrance fee. The dance programme is supplied by the full brass band of the battalion under the leadership of Bandmaster Miller. Cloak room and other arrangements are made and everything done by the committee in charge to insure a pleasant evening to those attending on the Wednesday of each week.

For those who do not dance, the card party, which proved an enjoyable feature last season, will be continued under the same arrangements as those which prevailed during last season on each Wednesday evening. The Five Hundred Tournament will be held in the men's messroom, while the dancers are tripping on the floor below. Prizes are offered for competition each week.

FEW FOLKS HAVE GRAY HAIR NOW

Druggists Say Ladies Are Using Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Advt.

J. CASTELL HOPKINS WELL-KNOWN HERE

Had no Equal in Canada as Statistical Journalist

The late John Castell Hopkins, whose death was announced in The Times yesterday, was a periodic visitor here. He leaves several relatives on the Island and lower mainland.

Mr. Hopkins accomplished what few Canadians had hitherto achieved, that of a current political history issued before the smoke of conflict had waned and yet without bias and without prejudice. On the last occasion he came here, in discussing the Canadian Annual Review, to which the last twenty years of his life were given, he said that he had achieved what was deemed impossible when Morang's Register was issued in 1901. That register was the predecessor of the Annual Review, and leading parliamentarians declared to him it was impossible to publish a volume which would be acceptable to all parties. Yet, as Mr. Hopkins pointed out, the Annuel Review had since won the esteem of all sections of the community, and its pages were quoted by opponents as if it were an official record.

"Canada—an Encyclopædia of the Country," a series of six volumes issued between 1897 and 1900, was perhaps most widely known to the average citizen of Mr. Hopkins' compilations, finding a place in every library in Canada.

Mr. Hopkins, in the thirty years of his career as an independent author and publisher, after he left the editorial post he held at Toronto with The Empire, published many works, some of the better known biographies being those of Queen Victoria and of Gladstone.

Few men have known better how to condense essential information and leave out the trivial and unimportant. His loss to statistical journalism in Canada is incalculable. Some have wondered how he obtained such a mastery of figures; perhaps the answer is supplied in the days he spent as a bank clerk before he entered journalism.

Mr. Hopkins found time in a busy life to hold some public offices in Toronto, to be member of numerous historical societies, and to attend conventions in Europe on subjects in which he was interested.

ESQUIMALT LIBERALS CRITICIZE PARADERS

An invitation to the Premier, the Hon. John Oliver, to speak in the Esquimalt district was extended last night at a meeting of the Esquimalt Liberals' Association held in Kent's Hall. Mrs. Frank Campbell, president, presided over a good attendance Strong criticism was passed by speakers at the action of some residents of Esquimalt who it was declared held a torch light parade and burned Premier Oliver's effigy following the Pooley indignation meeting at the Sailors' Club. It was charged that officers of the law witnessed the starting of the bonfires for which no permit was obtained.

Victoria Gardeners Hold Monthly Meet

The Victoria and District Gardeners' Asociation held its regular monthly meeting in the council chamber at the City Hall last night with W. J. Edwards, president, presiding. It was decided to make an effort to stage an exhibit in the forthcoming potato show to be held under the auspices of the Department of Agriculture.

A very interesting review of his work during the past year was given by G. Little, who reported successful exhibits at the Provincial Exhibition, Saanichton; Ward Two, Saanich; Ward Seven, Saanich, and the Victoria West show, carrying off sixteen first, nineteen second and five third prizes. He stated that all display vegetables had been grown in a fifty-fot lot. Mr. Little is a member of the association, and during the past three years has carried off no less than 139 prizes. He also won last night's monthly competition with a total of eighteen points. Messrs. Unwin, Christie, Cooper and Mrs. Schbrunner were tied for second place with sixteen points each.

All members not attending last night's meeting are asked to get in touch with the secretary for information regarding the forthcoming potato show.

Ward Three Liberals will hold their first social of the season, in the Club Rooms, Friday evening, Nov. 9. Cards and dancing will be the feature of the evening. Zala's Orchestra will supply the music.

An illustrated lecture on "Earthquakes and Volcanoes" will be given by Napier Denison on Friday at the parish room, Esquimalt, at 8 p.m. The lecture will be under the auspices of the St. Paul's Girls' Auxiliary.

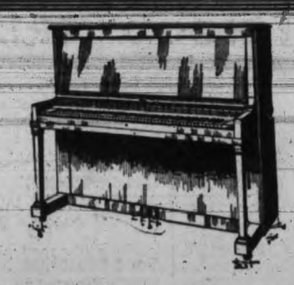

UPSET STOMACH, GAS, INDIGESTION

Chew a few Pleasant Tablets, —Stomach Feels Fine!

So pleasant, so inexpensive, so quick to settle an upset stomach. The moment "Pape's Diapepsin" reaches the stomach all pain and distress from indigestion or a sour, gassy stomach vanishes.

Millions know its magic. All druggists recommend this harmless stomach corrective.

Used Pianos of World-Famous Makes

Several Remarkable Bargains at prices from $295

Terms as low as $10.00 Monthly

Every one of these pianos has been carefully gone over in our piano repair department and they are in such order that they can be sold with the unconditional guarantee of the house of Fletcher Bros. Mellow, sweet and beautiful in tone—the very names of these instruments tell of quality far above the average. Some of these names are:

J. & C. FISHER (New York)
BEHR BROS. (New York)
GILBERT & CO. (Boston)
KOHLER & CAMPBELL (New York)
WEBER (New York)
MATHUSHEK (Boston)
GERHARD HEINTZMAN (Toronto)
MENDELSSOHN (Toronto)

A practically new Monarch Player-Piano is an outstanding value at $695. So new and modern is the walnut case of this instrument that it is impossible to tell that it has seen service at all. Twenty-five music rolls and a bench go with this player-piano. Convenient payment terms can be arranged.

AGED WOMEN'S HOME

Sixty-two Inmates Now Domiciled; Many Donations Last Month

The monthly meeting of the Aged and Infirm Women's Home Committee was held at the Home yesterday afternoon with a full attendance of members present. The president, Mrs. Clay, occupied the chair. Reports from the visiting committee for October showed that sixty-two inmates were at present domiciled there, and that there was one vacant room. With few exceptions the health of the inmates was reported good. Enjoyable motor drives were given many of the inmates by Mrs. Clarke and Mr. Baxter.

The following donations were also gratefully received during the past months: St. Paul's Anglican Church, Esquimalt, Harvest Thanksgiving, vegetables and fruit; Church of Our Lord, vegetables, fruit and flowers; Provincial Police, grouse; Magistrate Jay, pheasants; Mrs. Shotbolt, lettuce; Flewin's Nurseries, flowers, Mesdames Harold Grant, Whittier W. Grant, Bennett, Gillespie, cut flowers.

The visiting committee for November is Mrs. Harold Grant, Mrs. Heddle and Mrs. Clay.

IN WOMAN'S DOMAIN

SHOULD TALK PEACE TO CREATE WORLD GOOD-WILL

Mrs. Nellie McClung Made Stirring Appeal to Women's Canadian Club

Ostensibly speaking on the subject of "women in politics," Mrs. Nellie McClung, M.L.A., the noted authoress, developed her address before the Women's Canadian Club yesterday afternoon into a stirring appeal on behalf of the movement for world peace. The earnestness of her plea that women mobilize themselves as effectively for peace as they did for war and that each individual begin the great movement by ensuring peace in his or her heart moved the audience of nearly five hundred women to enthusiastic applause. The sentiment of the meeting was epitomized at the close of Mrs. McClung's address by a member who urged the club to take steps to form a League of Nations Committee in Victoria, along the line so ably advocated by Sir George Foster recently.

Quintessence of Courtesy

Women were in politics because they couldn't help it, said Mrs. McClung. Refuting the old contention that men would lose their respect for women on their elevation to the status of full citizenship, she amused her audience by the statement that "to see the gallantry of a man to a good-looking woman is a beautiful thing, but for the quintessence of courtesy commend me to the member-elect when addressing his constituents!"

"Women are not angels, they are just poor blundering human beings," was the way in which the speaker met the criticism that women since entering politics have not done all that was expected of them. She pointed with pride to the legislation for the amelioration of social conditions which had been effected since women entered the political arena.

Efficacy of Talk

It has often been said that the women needed leaders, but Mrs. McClung claimed that the greatest need was for workers. Every woman could constitute herself a worker for peace by talking about it and thus spreading the doctrine of peace. To prove the efficacy of talk, she pointed out that all great reforms began in talk. The great international council now sitting in the interests of peace accomplished their end by talking about the points at issue. Women could do good work to this end by having peace in their hearts and peace in their organizations.

Bones or No Bones

Dilating on the latter point, Mrs. McClung deplored the tendency in some organizations to think more of the method than the principle; to squabble over trifles while the bigger things went by unheeded. "Why, I know of a Ladies Aid Society which was rent asunder over the question of whether chicken should be served with or without bones at the annual banquet. And I don't believe they have got over the quarrel yet," she observed amid laughter.

Every woman could be a factor in international politics and in the making of international goodwill. Mrs. McClung commended the work of the Oriental Home and missions in this city, for the greatest powers in creating international goodwill were spiritual powers.

International Goodwill

Another direction in which women might help in an international policy was to see that settlers coming to this country were not misled by false statements. She knew of many cases, coming within her personal knowledge, of women in the Old Country who had been inveigled into investing their hard-earned savings in valueless real estate or other worthless investments in this country through the misrepresentations of real estate "sharks." Such happenings created bitterness.

Great Britain, Canada and the United States hold the destiny of the world in their hands, was the speaker's claim. Yet there was present a source of irritation between Canada and the U.S. in the shape of the liquor question and all it involved in the way of rum-running. In passing, Mrs. McClung deplored the result of the recent plebiscite in Alberta, declaring that the liquor interests never yet played fair and that it was not fair to place any Government in the liquor business.

In conclusion, she reiterated her appeal to the women "as the last reserves of civilization" to do all in their power to further the great cause of world peace and so combat the tendency to talk of "the next great war."

Mrs. Peter McNaughton in a graceful little address thanked the speaker on behalf of the club, and little Miss Gwen Watkins presented Mrs. McClung with a beautiful bouquet of chrysanthemums and roses.

Mrs. Green Again President Women's Conservative Club

There was a splendid attendance at the annual meeting of the Liberal-Conservative Women's Club, held in the club-rooms, Campbell Building, on Tuesday night.

The various reports showed a marked increase in membership, as well as a good financial standing for the year. The election of officers resulted in the re-election of Mrs. R. F. Green as president and Miss Bowron as vice-president. Other officers are as follows: Mrs. B. Brown, secretary; Mrs. J. E. Elliott, treasurer; Miss Mara, educational secretary. Representatives appointed to the central executive were Mrs. R. F. Green and Mrs. Mogan.

Eight new members were received and several amendments to the constitution adopted.

For Armistice Day—Members of the I.O.D.E. in charge of soldiers' graves are requested to place laurels and poppies in the crosses for Armistice Day. The Order has accepted the invitation of Armistice Period Committee to attend the memorial service on Sunday, when the standard bearers are requested to attend with their standards.

TO VISIT VICTORIA

DR. HELEN MACMURCHY

head of the division of child welfare for the Federal Department of Health, who is attending the lower mainland conference of women's institutes is expected in Victoria on Saturday for a brief visit.

SOCIAL AND PERSONAL

Mrs. Trotter Johnston, of Somenos, is registered at the Strathcona Hotel.

Mrs. R. Marpole, of Westholme, is registered at the Empress Hotel.

Mr. R. D. Merrill, the well-known Seattle lumberman, is a guest at the Empress Hotel.

Mrs. Beaumont Boggs and Miss Boggs, of Deep Bay, have returned from Vancouver, where they were guests over the week-end.

Mrs. J. Peters returned to her home in Esquimalt yesterday after visiting her daughter, Mrs. H. R. Bray, in Vancouver.

Mrs. Kuhn arrived in Victoria yesterday from New York to spend the Winter with her mother, Mrs. Alliott, Fowl Bay Road.

Major and Mrs. Sidney Johnston, of Prince Rupert, are visiting in Victoria as the guests of the latter's mother, Mrs. Kingham, Belmont Avenue.

Colonel W. J. H. Holmes, who has been surveying on the Queen Charlotte Island duuring the Summer, is expected home to-day. Mr. Ray Worlock, who was also of the party, returned to Victoria yesterday.

Mr. and Mrs. J. Cherry are spending part of their honeymoon here. They were married last week at Ladner. Mrs. Cherry was Miss K. Wright, of Spruce Grove, Boundary Bay.

T. D. Caven, former M.P., who has been absent from his home for several weeks, has returned to Cranbrook. Mr. Caven spent some time at Halycon Hot Springs with beneficial results.

Mr. and Mrs. Newton Burdick have returned from a few months' visit in New York and with Mr. and Mrs. W. Campbell Brown spent the week-end at Sahtlam. Yesterday, Mr. and Mrs. Burdick returned to Vancouver, where they will reside for the Winter months.

At the conclusion of the Women's Canadian Club meeting yesterday afternoon, Mrs. Nellie McClung was the guest of the executive at tea in the palmcourt. In addition to the guest of honor there were present: Mrs. H. P. Hodges (president), Mrs. J. C. F. Hyndman, Mrs. C. W. Bradshaw, Mrs. McLaren, Mrs. S. J. Willis, Mrs. P. B. Scurrah, Mrs. E. H. Griffiths, Mrs. P. H. Elliott and Miss Bowron.

Mr. and Mrs. Robert Eudean, Belmont Avenue, were hosts at an enjoyable 500 party at their home recently when the following guests were entertained by them: Mr. and Mrs. Ed. Simpson, Mr. and Mrs. G. Blackburn, Mr. and Mrs. R. Kinnear, Mr. and Mrs. W. J. Morrow, Mr. and Mrs. H. Higgins, Miss Gertie Eudean, and Mr. Stanley Blackburn. Prizes were won by Mrs. Blackburn, ladies' first; Mr. Higgins, gentlemen's first; Mrs. Kinnear, ladies' second, and Mr. Kinnear, gentlemen's second. Mrs. Blackburn assisted the hostess in serving delicious refreshments, the decorations being beautiful Autumn foliage and flowers.

The home of Mr. and Mrs. A. M. Davis, 1506 Holly Street, was the scene of a very happy time on Friday night when a bunch of friends sprung a surprise party on their son, Mr. Arthur Davis, on his return from the East. The evening was spent in games and dancing. Those present were Mrs. Kay, Mrs. Fike, Mrs. Newman, Mrs. Tutter, Mrs. Hillier, Mrs. Davis, Miss Houge, Miss Newman, Miss Weeks, Miss Simmons, Miss Kay, Miss Cauthroune, Mrs. C. Wright, Mr. T. Kay, Mr. Newman, Mr. Tutter, Mr. Kay, Mr. A. Davis, Mr. Naughton, Mr. A. M. Davis, Master Maurice Davis and Masters W. Collier.

A pretty wedding took place Saturday at St. Saviour's Church, Victoria West, when the Rev. C. Reed united in marriage Vera Lucy, second daughter of Mr. James Fairall, and Mr. J. Foster, of Fairfield. The bride entered the church on the arm of her father, looking lovely in a dress of turquoise blue satin with hat to match, and carried a bouquet of white carnations and chrysanthemums. She was attended by her sister, Miss Iris Fairall in a dress of navy blue satin, carrying a bouquet of yellow chrysanthemums. The groom was attended by Mr. Percy Owen. After the ceremony a reception was held at the home of the bride's aunt, Mrs. R. Owen, of 337 Michigan Street. Mr. and Mrs. Foster will reside in Victoria.

Miss Doreen Ashburnham entertained a few young friends at an informal dance last night at her home on the Gorge Road.

Miss Muriel Gurney, of Mayne Island, is the guest for a few weeks of Miss Josephine Heal, 2743 Mount Stephen Avenue.

Dr. and Mrs. Drysdale are in the city from Nanaimo to visit Mr. Herbert Stanton, who is seriously ill at the Jubilee Hospital.

Lieutenant - Commander Beard, R.N., has accepted the invitation of the Great War Veterans' Association to attend the poppy ball at the Empress Hotel Monday.

Mrs. Fitzgibbon, who has been residing at The Angela for some months, has gone over to Vancouver for a few days, as the guest of Mrs. H. E. C. Carry, Cardero Street.

Miss Ethel Hall, R.N., late supervisor Surgical Ward, Jubilee Hospital, now on the staff of St. Francis and Lane Hospital, San Francisco, came in on the Ss. Ruth Alexander yesterday on a visit to relatives here. Miss Hall will leave next week for the Okanagan to spend some time with her parents at Kelowna, B.C.

Mrs. Greenstreet and her son, Reverend Ernest Greenstreet, of Edmonton, who were the week-end guests of Miss Baynes Reed, Lee Avenue, left yesterday afternoon to visit with friends in Vancouver. Sister Frances, who was also the guest of Miss Baynes Reed over the week, returned by the same boat to her home in Vancouver. On Monday afternoon a number of old friends of Sister Frances were the guests of Miss Baynes Reed at the tea hour, among whom were Mrs. Scriven, Mrs. Roberts, Miss Sweet, Mrs. Darcy, the Reverend and Mrs. C. Reed, Mrs. Ford, Mrs. Barry, and others.

Mrs. James Peters, who is visiting her daughter, Mrs. Harry R. Bray, in Vancouver, has been much feted by Vancouver hostesses. On Sunday evening Mrs. Frank Fletcher entertained at a supper party in honor of Mrs. Peters and Mrs. Bray and on Saturday evening Mrs. Alex Henderson entertained at a bridge and supper party for them. Mrs. Bray entertained Monday afternoon at Shaughnessy Golf Club in honor of her mother, Mrs. James Peters, of Esquimalt. The table, centred with chrysanthemums, was presided over by Mrs. Frank Fletcher and Miss Boultbee. Mrs. Bray was assisted by Miss Dorothy Langford. Other guests were Mrs. J. Brignall, Mrs. Gardner Johnson, Mrs. F. W. Peters, Mrs. Mayne D. Hamilton, Mrs. H. Ayliffe Langford, Mrs. Julius Griffith, Mrs. Harper, Mrs. Frederick Ryder, Mrs. H. Montizambert, Mrs. H. O. Hanning, Mrs. Stanley Spain, Mrs. O'Brien, Mrs. Alex Henderson, Mrs. W. Woodward and Miss Totie Day. Others came in later for tea.

ASKS THANKSGIVING GIFTS FOR NEEDY

Friendly Help Makes Appeal For Fruit and Jam

The regular monthly meeting of the Friendly Help Association was held at the rooms on Tuesday, with Miss Spencer, president, in the chair. Seventeen members were present.

Seventy-two families were assisted during the month of October, representing 248 persons.

The president introduced Miss Shirpser, social service worker, from San Francisco. She gave an interesting talk about the social service magazine, "Survey," published bi-monthly, giving up-to-date information regarding social service work throughout the country. Several members availed themselves of the opportunity to subscribe to the paper. Miss Clare Powell is arranging a Christmas play to be given next month and has kindly offered to give part of proceeds as a donation to the association. This kindness is greatly appreciated.

The association is most grateful to many churches in the city and district which so kindly sent in fruit and vegetables from their harvest festivals.

Monday being Thanksgiving Day, the association would be pleased to receive donations of apples and jam to give to some needy families. Donations should be sent in before Saturday.

The association acknowledges with grateful thanks the following donations received during October, 1923:

Cash—The City, Cash, A Little Friend, M. B. Wilburn, Macey Abell, Gilbert D. Christie, S.F.N., A Friend, A Sincere Friend, Cash and Rose Farm Dairy.

Clothing—Mrs. Dunn, Mrs. G. G. Fraser, Mrs. Nicholson, Lady Lake, Mrs. H. Heisterman, Mrs. Bell, Mrs. J. G. Holmes, Miss Friend (hats), Mrs. Code, Mrs. Wyllie, Mrs. Morkill, Mrs. Cullum, Mrs. Arthur, Mrs. Cleveland, Miss Gray, Municipal Chapter, I.O.D.E., Mrs. Hale, Primrose Lodge, Doughters of England, Mrs. Hughes, Mrs. Patrick, Mrs. Walton, Miss Bekker, Mrs. LeSener, Mrs. Hibbert (Cordova Bay), Mrs. Stewart Williams, Miss Bunting, Mrs. Gilmour, Mrs. Mellin, Mrs. Rolls, Miss Crease, Mrs. Baiss (Cobble Hill), Mrs. Ker, Mrs. Williamson, Mrs. R. Mann, Mrs. Little, Mrs. Heywood Daly (Cobble Hill), Mrs. Dillabough, Mrs. Hubbard, Mrs. Gill, Mrs. J. Dubois, Miss Isobel Wilson, Mrs. (Dr.) Hudson, Miss K. McDowell, Mrs. Marsh and Mrs. Jones (new underclothing).

Provisions — St. Michael's Church, Royal Oak; St. Columbus Church, Strawberry Vale; St. Stephen's Church, Saanich; West Saanich Mission Hall; St. Saviour's Church, Victoria West; St. Luke's Church, Cedar Hill; Cash (bacon); Quarantine Station Church; St. Paul's Church, Esquimalt; St. Mary's Church, Saanich; St. Mary's Church, Metchosin; Burnside School, and Mrs. Dunsford (pears).

Sundries—Mrs. Percy Edmunds (bed, mattress and couch), Doris Walker (comic papers), Mr. Adye-Brawn, and Mrs. Fanthorpe (sewing machine).

Esquimalt Had Successful Year in Child Hygiene Work

Encouraging reports of splendid work accomplished during the year were given at the annual meeting of the Esquimalt Child Hygiene Council held last evening. The secretary's report showed that the year's activities included a successful picnic for mothers, the fortnightly mothers' welcomes and the Christmas tree arranged for the kiddies. Mrs. Booth, the president, presented a most useful and constructive plan of work for the coming year.

The election of officers resulted in the re-election of Mrs. Booth as president, and Mrs. Sanders as secretary.

It was announced that at the Mothers' Welcome, to be held in the Parish Hall to-morrow afternoon, Mrs. Booth will speak on tonsils and adenoids.

ALEXANDRA CLUB ELECTS OFFICERS

The Alexandra Club for ladies, Pemberton Building, held its annual meeting yesterday afternoon, when encouraging reports were presented. The election of officers for the ensuing year resulted in the unanimous re-election of Mrs. Willis Dean to the presidency, with other officers as follows: First vice-president, Mrs. J. S. Plaskett; second vice-president, Mrs. J. E. Umbach; secretary, Miss Bowron; honorary treasurer, Mrs. H. J. Pendray; librarian, Mrs. Gordon; executive committee, Mrs. A. Thomson, Mrs. Ellison, Mrs. Beaumont Boggs, Miss J. Crease, Miss Mara, Mrs. Tyrell Godman, Miss Bates, Mrs. Mrs. Longstaffe, Mrs. A. E. Todd, Mrs. Young, Mrs. Parker Hibben and Dr. Irene Hudson.

YOUR HOME AND YOU

By HELEN KENDALL

The Family Orchesrta

The big old house was full of young people calling back and forth, singing school songs and popular airs, playing tennis and golf outside and various games inside and eternally joking and "kidding." What was my surprise, then, at hearing my hostess, their quiet mother, say after dinner:

I anticipated an uncertain piano solo by one of the youngsters and perhaps a high-pitched song by others, but I was mistaken. Out from a large cupboard in the living-room came some bulky forms wrapped in dark Canton flannel bags, two music stands were unfolded and set up, the mother seated herself at the piano, and four young persons applied themselves to the violin and 'cello on one side, and the flute and saxophone on the other. There followed some amateur but truly creditable chamber music—simple things, but the work of great masters. I was delighted and said so.

"Why, they take to it like ducks take to water," said the mother. "I believe that children naturally love music, especially if they are given a chance to hear good music often. You know we play the different instruments much more rarely in our homes than they do in foreign countries. We think we have to leave it to professionals. Every family ought to have its own little orchestra, in my opinion.

"The amusing part of it is that each of my children can play any one of the instruments interchangeably. They all wanted to play the saxophone when that became so popular, so they all learned, and they play it in turn. At one time we had the ukulele in our band, but that is out of date now. I let them play what they like, for if it becomes forced the pleasure is lost."

As she spoke the children sat whispering and laughing together. Now they all looked at her with eloquent questioning eyes and she nodded and laughed.

"All right! You have played some really good music. Go ahead and have a little jazz."

DAME CLARA BUTT HERE FOR CONCERTS

Had Tumultuous Reception in Vancouver; at Capitol To-night

Concluding two most successful appearances in Vancouver at the Orpheum Theatre, Dame Clara Butt and her assisting artists arrived in Victoria this morning.

Tremendous enthusiasm prevailed in Vancouver, both houses being packed to the doors, with over 200 people crowding on the stage and hundreds of people unable to gain admission.

Last night Dame Clara, in addition to her regular programme, had to satisfy the demands of her audience with ten encores, the people refusing to leave.

Among the encores asked for were some of the songs made famous by Dame Clara, such as "Abide With Me," "Keys of Heaven," "Fairy Pipers" and "O Rest in the Lord," "Lost Chord," etc. Packed houses will greet her appearance here at the Capitol Theatre to-night and Thursday.

W.M.S. DISTRICT CONVENTION FRIDAY

The Women's Missionary Society will hold its annual district convention on Friday, November 9, in the Wesley Methodist Church, commencing at 2 p.m., and continuing in the evening. Mrs. J. W. Saunby, district president, will be in the chair at the afternoon session, and the programme will include the following:

Devotional exercises, Belmont auxiliary; minutes of executive; report of auxiliaries; auxiliary conference led by Mrs. McComb; report of strangers' department, Mrs. T. Hammond; systematic giving, Mrs. Rogers; "How to Make a Mission Band a Success," Miss Garbutt; offering; election of officers; place of next convention; exercise, Oriental band; reports of bands; blackboard talk, Mrs. J. W. Saunby; class formed of presidents and corresponding secretaries of auxiliaries and circles, also superintendents of bands; closing.

Rev. J. F. Dimmick will preside at the evening session commencing at 7.30, when the following programme will be given: Devotional exercises; report of general board meeting, Mrs. W. J. Sippreli; offering; chorus, Wesley Circle; reports of circles; work of circles, Miss M. Henderson, and illustrated hymn, girls of Oriental Home.

LADIES' MUSICAL CLUB

Misses Joy and Una Calvert and Mrs. McConnan to Give Next Programme

The Ladies' Musical Club will present their second recital of the season next Wednesday evening, Nov. 14, in the Empress Hotel ballroom. The programme, which will be a very delightful one, will be given by the Misses Una and Joy Calvert assisted by Mrs. Douglas McConnan, soprano.

The club has not had the privilege of listening to these talented artists for some time and much interest is being shown in the coming recital. Members may bring friends.

QUART OF WATER CLEANS KIDNEYS

Take a Little Salts If Your Back Hurts, or Bladder Is Troubling Your

No man or woman can make a mistake by flushing the kidneys occasionally, says a well known authority.

Eating too much rich food creates acids, which excite the kidneys. They become overcrowded from the strain, get sluggish and fail to filter the waste and poisons from the blood.

Then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys, or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast, and in a few days your kidneys will act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; makes a delightful exervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious Kidney complications. By all means have your physician examine your kidneys at least twice a year.—Advt.

ACID STOMACH IS DANGEROUS

Sufferers From Indigestion or Stomach Trouble

CUT THIS OUT

"Stomach trouble, dyspepsia, indigestion, sourness, gas, heartburn, food fermentation, etc., are caused nine times in ten by chronic 'acid stomach,'" says a well-known authority.

Burning hydrochloric acid develops in the stomach at an alarming rate. The acid irritates and inflames the delicate stomach lining and often leads to gastritis accompanied by dangerous stomach ulcers. Don't dose an acid stomach with soda, for soda only gives temporary relief from pain by driving the sour, fermenting food out of the stomach into the intestines.

Instead, neutralize or sweeten your acid stomach after meals with a little hot water and Bisurated Magnesia and not only will the pain vanish but your meals will digest naturally. There is nothing better than Bisurated Magnesia to sweeten and settle an acid stomach. It soaks up the harmful excess acid much as a sponge or blotting paper might and your stomach acts and feels fine in just a few minutes. Bisurated Magnesia can be obtained from any reliable druggist in either powder or tablet form. It is safe, reliable, easy and pleasant to use, is not a laxative and is not at all expensive. (Advt.)

B.C. MAKES BIG CUT IN MINE FATALITIES SLOAN FIGURES SHOW

Rigid Enforcement of Law Reduces Deaths in Mines Forty-two Per Cent. in Five Years, Mines Minister Declares in Reply to Guthrie Charges

Fatalities in British coal mines are being steadily reduced by rigid enforcement of laws framed to protect coal miners. To support this assertion Hon. William Sloan, Minister of Mines, gave the Legislature yesterday striking figures on mine accidents. Replying to Samuel Guthrie's charge that the mines regulations are not being enforced and that, as a result, innocent miners have been killed in explosions, Mr. Sloan declared that during the last five years of the former Conservative Government 152 fatalities had occurred in British Columbia coal mines, while during the last five years only ninety-eight fatalities had been recorded.

"Thus the rate formerly was 5.38 fatalities per thousand men employed," Mr. Sloan stated. "In the last five years the rate was 3.18 per thousand. This is a decrease in the number of fatal accidents of forty-two per cent."

The Mines Department, Mr. Sloan announced, is planning further legislation to protect miners. "But so long as you have coal mining you will have disasters in coal mines," he asserted. "This will occur notwithstanding all the precautions you can take. And we do take all precautions. My ambition is to reduce the number of fatalities and I am succeeding," the Minister declared, quoting his striking figures on the decrease of total accidents. "My ambition is to continue the reduction of accidents. I believe I will succeed. I believe that in this work I have the confidence of the miners of this Island."

Absurd Statements

Mr. Sloan declared that when Mr. Guthrie asserted that there should not and need not be gas in coal mines he did not know what he was talking about.

"I am surprised that he, a coal miner, should make such a statement," Mr. Sloan remarked.

Mr. Guthrie replied that he had stated that there should not be enough gas in a mine to cause an explosion. "You got my statement out of your own paper, The Nanaimo Free Press," Mr. Guthrie declared.

The Mines Minister produced a copy of The Colonist to prove what Mr. Guthrie had said. "That is sufficient to satisfy me that he said there should be no gas and need be no gas in mines," Mr. Sloan went on. "Well, as a miner he should know that forty per cent of coal is gas. If you have a coal mine you must have gas."

Air Sometimes Dangerous

As for Mr. Guthrie's suggestion that mine operators should turn on more air to purify the atmosphere in mines, Mr. Sloan declared that this often would be dangerous as modern safety lamps were ineffective in swift air currents. He mentioned one explosion which had been caused by the turning on of too much air.

Mr. Sloan quoted figures to show the enormous volumes of air that are forced through British Columbia mines every day. For instance, 7,000 tons of air is forced through the Granby Company's Cassidy mines every twenty-four hours, he stated, and only 1,000 tons of coal is mined in that time. It was impossible, he said to use more air than was being used now in British Columbia mines.

"In a coal mine one day there may be no gas and a few days later the mine may be dangerous," Mr. Sloan explained.

Miners Inspect Mines

The Minister told the House how committees of miners are allowed to examine mines to see for themselves that there are no dangerous gasses present. A miners' committee had examined the Cumberland mines shortly before the disastrous explosion early this year. For three months previous to the explosion, he stated, experts of the Mines Department had been unable to find in the mines any evidence of gas. To support these assertions, the Minister quoted evidence taken at the inquest over miners killed in the accident.

Mr. Sloan charged Mr. Guthrie with misrepresenting the case of a man named Gillette who was overcome by gas in a Nanaimo mine. Gillette, said Mr. Sloan, had violated coal mine regulations in going into a certain forbidden part of the mine where he had been overcome.

"Shots" in Mines

Turning to Mr. Guthrie's charge that fire bosses often were forced to fire too many "shots" in coal mines, Mr. Sloan pointed out that it was difficult to legislate for all the mines of the Province in this regard because of the difference of conditions in various districts. Fire bosses, he explained, can complain to Mines Department Inspectors if they feel that they are being forced to fire too many "shots."

"It would be more than a man's job would be worth to complain," Mr. Guthrie protested. "A man dare not complain."

Mr. Guthrie declared that a man named Black had been dismissed from the Extension mines because he had reported that there was gas in the mines.

"That was long before I was Minister of Mines but he is not honest enough to admit it," Mr. Sloan retorted.

Replies to Uphill

Mr. Sloan referred to the charges of Thomas Uphill, Labor Member for Fernie, that disasters in Vancouver Island mines were due to the fact that Island miners were not well organized. In Great Britain, the Minister pointed out, the miners were thoroughly organized and yet very serious accidents had occured there of late years. Mr. Sloan quoted figures to show that accidents had decreased in the coal mines of the Crow's Nest area, in Mr. Uphill's district.

Before turning his attention to mining matters, Mr. Sloan took up Mr. Bowser's charge that he had made no attempt to put into effect the platform which he had promulgated in 1917. "I advocated the recall then," Mr. Sloan admitted. "But with a one-man government in power it was necessary at that time," he added. It is not necessary now because we haven't got a one-man government."

The Minister remarked that R. H. Pooley, of Esquimalt, and Colonel Fred Lister, of Kaslo, Opposition Members, had admitted that they could do nothing for the constituencies.

"If that is the case, and they are honest enough to admit it, they might resign and let other men better qualified to represent their constituencies take their place," Mr. Sloan suggested.

To End Dual Control

Mr. Sloan said he had been working for seven years to end the dual control of metals in the Esquimalt and Nanaimo Railway land grants and he was confident that before the end of the next seven years the question will be settled," Mr. Sloan predicted. "I know I will succeed and this success will mean a big era of development on this Island."

Mr. Bowser, the Minister proceeded, appeared to have no sympathy with British Columbia mine owners who were forced to work their mines on a half-time basis because of the heavy importations of American fuel oil. "Before the session is over he may have an opportunity to express his views further on the importation of oil," Mr. Sloan remarked.

SAYS GOVERNMENT FAILS TO ENFORCE COAL MINING LAWS

Administration Seems to be Representative of Mine Owners, Guthrie Says

Charging that Hon. William Sloan, Minister of Mines, has failed to enforce coal mines laws, Samuel Guthrie, Socialist Member of Newcastle, declared in the Legislature yesterday that mine operators are not adequately protecting miners from accident.

"In fact," added Mr. Guthrie, "people say your Government is simply the executive committee of the capitalist class."

The Newcastle member spoke of the promised eight-hour legislation and said that now a sop was to be thrown to certain classes of labor when an election was coming on. It would be well for the Government to go a little further and give the miners a seven-hour day. He thought they were entitled to it.

Mr. Guthrie said there was nothing in the King's speech as to what would be done for the workers, who, he said, needed a great many things and until they got them conditions in this Province could not improve.

He charged the Government with neglecting to enforce the provisions of the Coal Mines Regulation Act provisions, he said, which could not be enforced, because the fire-bosses and under officials were not allowed to enforce them. He said Hon. Mr. Sloan had sent a good Liberal, T. Wilkerson, to investigate the Cumberland disaster. The higher-ups were lauded and the under-officials and workers damned.

Dead Chinaman Blamed

Mr. Guthrie spoke of the blame for the Cumberland disaster being placed upon a dead Chinaman. For himself, he did not think the Oriental was responsible, but it was "convenient" to blame him.

Mr. Guthrie said the last man he would have thought would be blamed would be a Chinaman. Mr. Sloan had promised before the 1916 election to have Orientals eliminated in mines, but there were more now around Cumberland than ever before, he declared.

Mr. Guthrie spoke of a prominent coal official, Thomas Graham, who at one time was a government inspector. He declared that at a former coal investigation, Mr. Graham had withheld information. J. W. de B. Farris, former Attorney-General, knew of these things, said the speaker. He had said that the miners of Vancouver Island were unfairly treated. Mr. Guthrie wondered why these crocodile tears had been shed.

The Newcastle member, speaking of immigration, again urged the Government to care for those here before getting more settlers into the country. In Scotland, he said, one-fifth of the men had fought in the war and to-day one-fifth of Scotland was turned into deer-farms. There were lots of good farms in Scotland, he said.

Mr. Guthrie could see no reason for a third party in this Province, unless it represented the views of labor.

WOMEN'S INSTITUTE EXHIBIT

Members of Vancouver Island Women's Institutes will send exhibits of potatoes to the forthcoming Potato Show.

Women's Institute District exhibits must consist of one or not more than two varieties of potatoes. Each exhibit must consist of six lots of potatoes grown by different persons. Each lot to consist of twelve potatoes of the same variety to be judged for seed purposes.

Mrs. B. Deacon, of the North Saanich Women's Institute, is doing everything possible to encourage interest in this class.

CONTRIBUTION HAS BEEN VEXED ISSUE

Sketch of History of Inter-Municipal Sewers

Few municipal questions have occasioned so much trouble in this district as the adjustment between the municipalities of the trunk sewerage question. Expensive and modern facilities have been provided, but the financial adjustments for their use have proved perplexing.

The latest development in connection with Saanich, where the council has been advised against submitting a sewer by-law for a third time next week, brings up the whole question of the tangled course of negotiations, which seem now as far off settlement as ever.

The Situation

The city in 1911, finding it essential to provide for trunk sewerage facilities, and that those facilities must be carried through to outfalls beyond its boundaries, negotiated with the districts of Oak Bay and Saanich. Esquimalt was not then organized, but the need of sewerage was forcing incorporation, which took place in August, 1912.

In October, 1911, ex-Mayor Morley and a civic delegation met the Saanich Council, and the sum of $19,000 was mentioned as the proportion which Saanich ought to contribute towards a sewer system. Later the amount was amended to $22,000, and there the sum long remained unchallenged for a long period. In November, 1911, Saanich Council passed a resolution agreeing to pay a proportion of the cost of the sewer, and to secure powers for assessing owners. That latter plan was subsequently obtained in a private act.

The northeast sewer was built in the Oak Bay district. The district council let a contract, and got the work done long before the city had started in regard to the section from Foul Bay Road to Bold Point. In 1912 the city constructed its section. However, when negotiations were renewed between Saanich and the city for the use of the trunk sewer, an unexpected difficulty arose, as Oak Bay asked for Saanich to pay the municipality $9,750 in view of the fact that the outfall passed through that district. Saanich refused to meet the situation on the ground that it was entirely a question between the city and Oak Bay, and the city having made a settlement with the district, Saanich should not have to pay direct to Oak Bay. There the matter stands, and no use of the northeast sewer has been made by the Mount Tolmie residents.

Northwest Sewer

With regard to the northwest sewer the situation is different. While the northeast sewer was building, the Esquimalt township had been incorporated, and when the councils of the city, Saanich and Esquimalt met in the Fall of 1913 the whole situation was put on a satisfactory basis. The council of 1913, just before vacating office, instructed Mr. Rust, then city engineer, to construct the sewer of sufficient capacity to take care of the requirements of Saanich at an estimated increased cost of $52,200, with a view to the possibility of eventually draining territory within Saanich on the northwest boundaries of the city.

The estimated cost of the entire work as prepared by the engineers of the three municipalities was $365,223. The actual cost of the work was about $298,853.

This showed a saving of about $75,000 below the estimate. This sum also included the sum of $8,380, which the city paid for easements, and which was not a part of the original estimate.

A draft agreement between Saanich, Esquimalt and Victoria was submitted in October, 1913, but was not executed by Saanich, although it was so done by Esquimalt. Two months later a separate agreement was entered into and duly executed between Esquimalt and Victoria.

By-laws Defeated

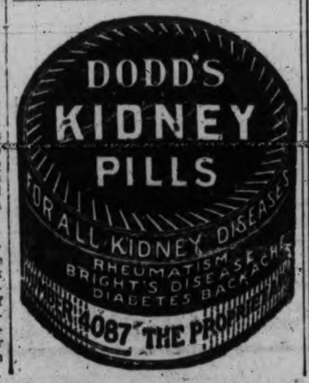

After the situation had drifted through 1916 and 1917 without the Saanich Council having reached any adjustment, an effort was made to draft an agreement fixing the contribution by Saanich. It was decided not to press the matter until the engineers of the two districts had settled the percentage of maintenance cost based on the quantity of sewerage to be permitted to enter the intake per hour.

Realizing the situation had drifted long enough, and there was serious fear of an epidemic, Saanich obtained the approval of the Provincial Board of Health in the Summer of 1920 to a scheme which contemplated an ultimate expenditure of $870,000 to sewer the whole of the urban district of the municipality. It was proposed, however, had the by-law been carried to limit the actual outlay to the repayment of the sewer debt, then at $54,000, and to the carrying out of four schemes aggregating a total cost of $245,500.

The vote was taken on this measure, after an agreement had been entered into with the city, on August 21, 1920, and was defeated by a two to one majority.

Since that time there has been another effort to obtain a favorable verdict, on the simple issue of paying the debt, without any provision for actual construction within the municipality.

On neither occasion was any protest raised by the authorities against the submission of the measure, the council holding that not only the provisions of the Municipal Act, but the special Saanich Act dealing with water and sewers was considered to give ample powers to meet the situation.

Senior Golfers Show Surprising Form on the Links in First Match

J. A. Sayward, of Victoria, Turns in Card of Eighty For Eighteen Holes, While John Ogilvie, of Vancouver, and F. Van Tyle, of Seattle, Each Shot an Eighty-one; These Golfers, Along With A. S. Kerry, of Seattle, Are Counted Most Dangerous in Championship; Surprise Handicap Opened Tournament Yesterday

J. A. Sayward, of Victoria; John Ogilvie, of Vancouver, and A. S. Kerry and F. Van Tyle, of Seattle, loom up as among the most prominent contenders for the first championship of the Senior Northwest Golfers' Association. In the Surprise Handicap held yesterday this quartette of veterans shot beautiful golf and gave the rest of the large field an inkling of the kind of game they must play if they wish to be in the running.

The Surprise Handicap, which was the opening match of the tournament, was a bogey competition of eighteen holes. Prizes for the best and lowest scores in the three divisions were awarded and all but one of these was won by Victoria. Alex. Baillie, of Seattle, was the only outsider to be numbered among the prize-winners.

The Handicap gave the players a splendid chance to key up to championship form and also enable the visitors to wise up to the tricky course at Oak Bay. Some of them found it rather difficult as was evidenced by the large scores, but the majority of the seniors were hitting fine, long balls and showed good work on the green.

Phil Had a Job

When Phil Taylor, the genial pro of the Victoria Golf Club, where the tournament is being staged, was handed the final list of starters for the Surprise Handicap he found that his duty as starter was going to be an onerous one. No less than 116 golfers had to tee off and they started in at 8.30 o'clock in the morning, before the mists had all been dispelled by the sun. At intervals of five minutes the golfers drove off and the shades of night were falling fast when J. R. Stirrat, of Seattle, the last man to come in, handed his card to Phil Taylor.

It was a wonderful day. The sun smiled brightly upon the grey-haired veterans of the links, the fairways and greens were in perfect condition and the invigorating sea air spurred the players on.

The Side Glances

Although the golfers were mainly interested in how many they were "up" or "down" in yesterday's handicap most of them took a couple of searching glances at the gross scores on the cards. Those glances told them that four players had shot golf that was good enough to qualify in most amateur championships throughout the country.

Mr. Sayward had the best card for the eighteen holes. He had a 40 going out and a similar score coming home, which gave him an even 80. Mr. Van Tyle and Mr. Ogilvie each shot an 81, the former going out in 39, which was the best score for nine holes for the day. Mr. Kerry, who is president of the Pacific Northwest Golf Association, turned in an 84 for his day's work. He is the scratch man of the Senior Association.

The Results

The results of yesterday's competition were as follows:

"A" Division, men 65 years and over—Best score, R. P. Butchart, of Victoria, 2 up; low score, R. B. Mosher, Victoria, 14 down.

"B" Division, men between 60 and 64 years, both years inclusive—Best score, J. E. Miller, of Victoria, all square; low score, A. Baillie, of Seattle, 15 down.

"C" Division, men between 55 and 59 years, both years inclusive—Best score, A. Robertson, Victoria, 1 up; low score, L. D. McLean, Victoria, 12 down.

The golfers started in at 8.30 o'clock this morning on the first round of the championship. They are playing 18 holes to-day and the second 18 will be played to-morrow. One hundred and sixteen players are teeing off in this event, the greatest field that has ever started in a golf tournament in the history of this city. The last men will not be in until close on to dark to-night.

The teams for the international match will be chosen to-morrow afternoon by the respective captains, W. A. Ward, of Vancouver, and A. S. Kerry, of Seattle. Fifteen players will compete for the United States and Canada and it is expected that the competition will be keen. The match will be played on Friday.

The oldest golfer competing in the tournament is Charles H. Hyde, of Tacoma, who is a rollicking lad of but 76 years of age.

James Grahame, of Victoria, a former employee of the Hudson's Bay Co., is the second oldest of the "boys," having passed his seventy-third year.

Col. A. W. Jones, president of the Victoria Golf Club, and G. V. J. Greenhill, of this city, are next in the order of seniority, both being 72 years of age.

A. Schoefield, of Seattle, is one year year over his allotted span of life, being 71.

The oldest golfer in the Association is Col. Lawson, of this city, who is 84 years of age. He has passed up the tournament this year.

The membership in the Association has been increased considerably during the past week and according to the records of Capt. Perks, the secretary, there are now 195 on the roll. Victoria has the largest representation, there being 61 seniors in this city. Seattle is the second largest with 42 members, Vancouver has 31; Portland 26; Spokane, 15; Tacoma, 9; New Westminster, 6; Everett, 4, and Calgary, 1.

The numerical strength of the various cities in the tournament is as follows: Victoria, 46; Seattle, 18; Vancouver, 15; Portland, 14; Spokane, 9; Tacoma, 7; New Westminster, 4, and Everett, 3.

The result of the Surprise Handicap yesterday was as follows:

A Class

R. P. Butchart, 2 up; W. J. Goepel, 2 down; J. O. Grahame, 3 down; A. C. Flumerfelt, 4 down; A. J. Fraser, 4 down; Colonel J. O. Wilson, 4 down; G. V. J. Greenhill, 5 down; E. J. Palmer, 5 down; Colonel A. W. Jones, 6 down; W. L. Morkill, 6 down; W. H. Bone, 6 down; R. W. Gibson, 6 down; D. E. Campbell, 6 down; E. J. Roberts, 8 down; G. H. Lent, 9 down; A. Schofield, 9 down; W. MacMaster, 9 down; Harold Preston, 10 down; F. H. Graves, 13 down; S. H. Hyde, 13 down; R. B. Mosher, 14 down.

B Class

J. E. Miller, all square; R. R. Sutherland, 1 down; A. McC. Creery, 1 down; C. S. Birch, 2 down; Dr. Garesche, 2 down; F. Nation, 2 down; J. A. Sayward, 3 down; E. A. Strout, 3 down; E. E. Blackwood, 4 down; J. R. Waghorn, 4 down; A. W. Tidmarsh, 4 down; Dr. A. E. Mackay, 4 down; E. Enloe, 4 down; A. A. Morrison, 5 down; C. B. Hurley, 5 down; Neis Nelson, 5 down; C. B. MacNeill, 6 down; H. E. Beasley, 6 down; C. F. Adams, 7 down; Sir R. Lake, 8 down; W. E. Davidson, 8 down; F. T. Post, 9 down; R. F. Green, 11 down; W. H. Hogg, 11 down; J. W. A. Macdonald, 11 down; C. F. Swigert, 11 down; B. Stubbs, 12 down; G. D. Bouton, 13 down; E. C. Atwater, 14 down; Alex. Baillie, 15 down.

C Class

A. S. Robertson, 1 up; Hon. W. Sloan, 1 down; J. Sobey, 1 down; J. Caven, 2 down; L. H. Hardie, 2 down; Major Roberts, 2 down; J. Ogilvy, 2 down; Captain W. Langley, 2 down; Senator Barnard, 3 down; F. W. Jones, 3 down; J. E. Wilson, 3 down; J. B. Kerr, 3 down; W. A. Ward, 4 down; F. R. Van Tuyl, 4 down; C. H. Jones, 4 down; W. Howarth, 4 down; Angus Campbell, 5 down; Judge Lampman, 5 down; F. A. Nitchy, 5 down; T. J. Humbird, 5 down; Ira Bronson, 6 down; A. S. Kerry, 6 down; W. A. Holt, 6 down; E. J. Cannon, 6 down; P. Criddle, 7 down; N. E. Ayer, 7 down; J. A. Colman, 10 down; H. W. Fletcher, 8 down; D'Arcy Tate, 9 down; J. A. Colman, 10 down; H. Kennedy, 10 down; F. G. Fowkes, 11 down; S. Cunliffe, 11 down; Rev. Canon Beanlands, 11 down; S. Warburton, 12 down; L. D. McLean, 14 down.

WINS "A" CLASS

R. P. BUTCHART

Victorians will be glad to know that Mr. Butchart, whose kindness is evidenced every day through the throwing open of his lovely gardens at "Benvenuto," has achieved fame on the golf course. Yesterday he was returned the winner in the "A" class of the Senior Northwest Golfers' Association tournament at the links of the Victoria Golf Club. Mr. Butchart's card showed ninety-two, which, with his handicap of sixteen, left him two up in the bogey competition.

OBLIVION FOR ONE

Omaha, Neb., Nov. 7.—Pugilistic oblivion faces the loser in the ten-round match here to-night between Billy Miske, St. Paul, and Bill Brennan, heavyweights, followers of the boxers declared here to-day. Both have met Champion Jack Dempsey, both being knocked out Brennan on two occasions.

Rough Work in Rugby to Stop Union Orders

Players Ordered From Field in Future Will be Punished; Reinstate Offenders

All Clubs Notified That Their Players Must Control Themselves on Field

Rough work at future rugby games will not be tolerated. This decision was reached at a meeting of the Victoria Rugby Union last evening, when Saturday's game between the Garrison and J.B.A.A. came up for review.

The report of the referee, C. Cowan, in which reference was made to B. Johnson, V. Graylin and Wengert being ordered off the field, was dealt with by the union.

As this was the first offence that has occurred this season, the union decided to reinstate the three players, but Secretary Cameron was instructed to write the captains of all teams notifying them that any player ordered from the field in future for any cause whatsoever would be severely dealt with.

Representatives in Accord

Representatives from the four senior league clubs were present, and they all agreed that action should be taken to prevent a repetition of the troubles in last Saturday's game. There was no dissension at the meet- as to what course should be taken. It was felt that the best interests of rugby could only be served by strong action.

Rugby fans who have taken a great interest in the game will be glad to know that the union has taken action in regard to rough tactics. There was general complaint on the sidelines last Saturday over the ill-feeling prevalent on the field. Many of the fans this year are ladies, and if their support is to be held the game must be kept clean.

TANFORAN JOCKEY HURT

San Francisco, Nov. 7.—The first serious accident on the new Tanforan race track occurred yesterday when, in the third race, Combustor stumbled and threw Jockey Eddie Taplin, as the horses were running in the back turn. Taplin was rendered unconscious, and suffered a compound fracture of the ankle. He may not be able to ride again for months. Taplin is a veteran jockey.

HELEN WILLS WILL DEFEND HER TITLE

Berkeley, Cal., Nov. 7. — Helen Wills, nation women's tennis champion, will defend one of her numerous titles when she appears in the annual women's tournament of the Berkeley Tennis Club, starting Saturday afternoon. Facing Miss Wills will be Mrs. Ruth Patrick Basham, Carolyn Swartz, Winifred Suhr, Carmen Tarlton, Ana and Lucy McCune, Helen Jacobs and other stars. Mrs. J. G. Cushing, a ranking player in the club, and well known in coast tennis circles, is a probable entry, but may be prevented by illness.

GLENNA AND BOBBY WIN

Boston, Mass., Nov. 7.—Miss Glenna Collett, Canadian women's golf champion, and Bobby Jones, United States open champion, yesterday defeated Miss Edith Cummings, United States national women's champion, and Max Marston, a national amateur titleholder, in an eighteen-hole exhibition match at the Braeburn Country Club.

WON AFTER KNOCKDOWNS

New York, Nov. 7.—After taking two counts of nine, Pat Walsh, of Cincinnati, last night won on a foul from Dave Rosenberg, of Brooklyn, in the fifth round of their ten-round fight. The referee charged Rosenberg with using the back of his glove. They are middleweights.

McLEAN NOT SIGNED BY SASKATOON TEAM

Fredericton, N.B., Nov. 7. — Fred McLean, of this city, has not yet accepted terms offered by "Newsy" Lalonde or signed a contract with the Saskatoon Crescent Club of the Western Canada Hockey League, it was learned to-day. Eastern clubs are now dickering for McLean's services, it was said.

GUELPH ELIMINATED

Toronto, Nov. 7.—St. Michael's College eliminated Guelph team from the running of the western group in the intercollegiate union intermediate series here yesterday, six to four. St. Michael's now meet Varsity here on Thursday afternoon in the final for the group, the winner of that game to play Royal Military College for the championship.

"MY DEAR" WINS RACE

Baltimore, Md., Nov. 7—Fred Musanteuq's My Dear accounted for the Bowie $10,000 handicap for three-year-olds and up at Pimlico yesterday afternoon, winning by three lengths, going away. Exodus was second, Heppaistos third and Maximac fourth. The time for the mile and a half miles was 2.34 4-5.

When the start was made Exodus rushed to the front and set the pace. Passing the stand, Exodus led, with Dunlin second and Maximac third. At the mile Exodus was still in front. At this point My Dear began to move and on the stretch turn she collared the leader and came on to a handy victory. Exodus held on and got the place. Maximac quit in the run through the stretch and Heppaistos beat him out for the show money. Chacolet did not like the going, the track being a veritable sea of mud.

STRONG MEN UPON WHOM TORONTO 'VARSITY RELIED

Toronto 'Varsity made a valiant effort to win the inter-collegiate rugby championship this year but the team was again vanquished by Queen's, which won not only the inter-collegiate but also the Canadian rugby championship last year. The players in the accompanying lay-out are as follows: Left, Captain George Westman; upper right, Alex. Campbell; lower right, C. R. Weber.

Esquimalt Seek to Lower Colors of Greenshirts

Suburban Team Meets First Division Leaders Saturday and Hope For Win

Only two First Division games will be played on Saturday afternoon owing to the fact that the Moose have asked for a postponement of their fixture. The Moose were to have met the Sons of England, but several of their players are on the injured list and will be unable to play and the game has been called off.

Both games scheduled will be exceptionally close and there should be some good football. The league-leading Wests will meet the fast-traveling Esquimalt team and there should be plenty of excitement. Since their victory over the Veterans last Saturday the boys from the naval town are quite confident of getting further in the race. They hope to lower the Wests' colors on Saturday. This is an ambitious programme and should they accomplish it, it will be the first time the greenshirts have gone down to defeat this season.

Tail-Enders Play

One of the tail-end teams is going to get a win on Saturday. The Wards and Navy are to meet and neither has been able to win this season. The Wards have been beaten three times, and the Navy five times.

The draw for Saturday is as follows.

First Division

Wests vs. Esquimalt, at Royal Athletic Park. Referee, Lock.

Wards vs. Navy, at Beacon Hill. Referee, Robbins.

Games to start at 2.45 p.m.

Veterans a bye.

Junior Division

Oaklands vs. Saanich Thistles, at Central Park. Referee, Oliver.

Victoria Wests vs. High School, at Victoria West Park. Referee, W. Cull.

Junior matches start at 2.30 p.m.

Pick Rep Team

At the regular weekly meeting of the Victoria and District Football League last evening the rep team which is to oppose the International Longshoremen of Vancouver in a holiday game on Thanksgiving Day was announced. A strong side has been selected and the game should prove close and interesting all the way.

The team selected is as follows: Goal, Beaumont (Vets.); full-backs, Burton and Ord (Vets.); half - backs, Thomas (Wests), Owens (Vets.), captain, and Tupman (S.O.E.); forwards, J. Sherratt (Wests), Merfield (Vets.), Southern (S.O.E.), Muir (Wests) and Clarkson (Vets.). Reserves, Church (S.O.E.); Roe (Vets.) and Motion (Wards). Manager, J. Bloom.

The game will be refereed by P. C. Payne, and the linesmen will be Okewell and Lock. Players must report at the Veterans of France rooms at 1.45 p.m. on the day of the match.

PROBLEM OF HOUSING VISITORS TO OLYMPIAD CONFRONTS CHAMONIAX

Chamonix, France, Nov. 7.—How to provide shelter for the twenty to thirty thousand visitors expected here from January 25 to February 5, during the Winter sports events, which mark the opening of the 1924 Olympic Games is the problem confronting the town authorities and French Olympic Committee, now that the work on the skating rink, bob sleigh chute and ski jump is finished.

Chamonix, a little town of 3,000 inhabitants, perched high on the slopes of Mount Blanc, possesses normal accommodation for about 1,500 to 2,000 transients.

OLD COUNTRY RUGBY

Edinburgh, Nov. 7.—Additional results of rugby football games played in Scotland Saturday are as follows:

Hawick 12, Royal High School 5.
Langholm 6, Jed Forest 9.
Edinburgh B. 0, Melrose 7.
Walkerburn 3, Kelso 12.
Earlston 3, Galashiels 3.
West of Scotland 3, Greenock W., 3.
Allen Glenn School 5, Old Spierians 3.
Loretto 20, Edinburgh Academicals 0.
St. Andrews University 19, Glenalmond 5.
Kelvinside Academicals 0, Glasgow University 3.

"NEWSY" RAISES OFFER

Fredericton, N.B., Nov. 7.—Manager Newsy Lalonde, of the Saskatoon Crescents of the Western Canada Hockey League, has raised his offer to Fred Maclean, the local hockey player, for his services this season and has extended the time given the former policeman to report.

Lalonde's latest offer is a straight salary of more than he offered before in salary and bonus, the bonus having been made dependent upon whether the club finished first or second in the league.

ARRANGE RACE FOR UNBEATEN JUVENILE

New York, Nov. 7—Turf enthusiasts here are awaiting with keen interest the outcome of negotiations under way to match Sarazen, unbeaten two-year-old star owned by Mrs. W. K. Vanderbilt II, and Wise Counsellor, Kentucky crack, in a race for the 1923 juvenile crown. According to reports, owners of both horses have practically accepted terms for a match at a mile next Saturday at Louisville.

Sarazen won his tenth consecutive victory on Monday at Pimlico, Md., in the second of the series races at that track. Recently the gelding conquered Happy Thoughts, a hitherto unbeaten filly, in a match race at Laurel, Md.

AUSTRIA TO STAY OUT

Paris, Nov. 7.—The French Olympic committee received formal notice to-day that Austria, as a nation, has decided not to participate in the 1924 games because of lack of funds.

MITCHELL A WINNER

Detroit, Mich., Nov. 7.—Pinky Mitchell, of Milwaukee, was awarded a newspaper decision over Sid Barbarian, of Detroit, in a ten-round go here last night.

Victoria Rugby Team Picked to Meet 'Varsity

Players With Experience in Former Rep Games Are Placed on Squad

Victoria's rugby squad which is to tackle 'Varsity at Vancouver on Saturday was selected at a meeting of the selection committee of the Victoria Rugby Union last night.

The committee decided to place its reliance in players who have performed in past years. A number of promising youngsters are coming along and may be ripe for the city colors very shortly but it was felt that this being the first game players with former experience in the McKechnie Cup series should be picked.

The team will be as follows:

Full-back — Boss Johnson, captain (J.B.A.A.).

Three-quarters—Totty and Munsey (J.B.A.A.), Taylor (Garrison) and Bendrot (J.B.A.A.).

Five-eighths—Adams (Wanderers).

Half-backs—Goodacre and Parker (Wanderers).

Forwards — Colpman and Gregg (Wanderers), Pendray (Garrison), Gland (Navy), Money (Wanderers), E. Brynjolfson and W. Brynjolfson (J.B.A.A.).

Reserves—Travis and McLean (J.B.A.A.) and Wengert (Garrison).

The next practice of the representative team will be held on Thursday evening at 8 o'clock in the Horse Show Building, when all those selected must report as well as those who were in last night's workout.

Vancouver, Nov. 7. — Opening matches of the McKechnie Cup series for the provincial rugby championship will be played on Saturday afternoon when Varsity entertains Victoria at Brockton Point and the Vancouver rep team travels to Nanaimo to meet the once-famed Hornets.

With these matches as a little preliminary canter the Varsity and Vancouver fifteens will meet in the feature tilt of the early season on Thanksgiving Day.

"We expect to have a strong McKechnie Cup team this season having considerable new material," writes Gordon A. Cameron, secretary of the Victoria Rugby Union, "and we look forward to giving Varsity a strenuous game on Saturday."

Vancouver's rep team will be chosen on Thursday night after workout in the Horse Show Building. The following players have been asked to turn out and go through their paces for the benefit of the selection committee:

Full-backs, Barwis and Keeling; three-quarters, Winch, McWhinney, Pinkham, Grimmett, Gyles, Tyrwhitt, Thornthwaite; five-eighths, Marshall and Cann; halves, Farmer, Lawson, Cameron, Doidge and LeRoy; forwards, MacFarlane, McDonald, Casey, Clark, George Thom, Art Lord, Lyall Fraser, Donaldson, Stan Allen, Rolston, Brown, Wilkinson, Boyd, Roquette.

Good Crowd Attended the First Rink Session

Fine Band and Good Ice Made For Enjoyable Skate Last Night; Cougars Speed Up In Their Second Workout; Frederickson and Speck Due to Arrive In Town To-day; Gibson Is Showing Fine Form

With the Arena opened to the general public once again it will be the centre of many exciting engagements during the next five months. The doors of the rink were opened last night and a large crowd gathered to enjoy the skating.

The ice surface was good and the band showed flashes of high form. The tunes played were delightful and the skaters found no trouble in keeping in step. It was just about the best music that has been heard at the Arena and it is hoped that the bandmaster will keep his musicians up to the standard set last night for the remainder of the season.

Opening night always attracts a big crowd and last night was no exception to the rule. Ice skating is becoming more popular each year and hundreds of school children are taking up the sport. The afternoon sessions are expected to be exceptionally well patronized this year.

Popular Pastime

The rink will be open every afternoon and evening this week, with the band playing on Thursday evening and Saturday afternoon and evening. It is expected that all the sessions will be well attended this year as the sport provides a fine source of recreation. Were it not for the artificial ice surface Victorians would never get a chance to skate, which is one of the most popular pastimes on the prairies and in the East.

The Cougars held their second workout yesterday afternoon at the rink and some of the youngsters showed an improvement in their form over the previous evening.

Jimmy Gibson, the Calgary boy, is a hockey player. There is no doubt about that. He uses his head all the time and showed bursts of speed that will no doubt keep him up with Frederickson and his stickhandling and shooting is good. Gibson is breaking in slowly and there is no doubt but that when he hits his real stride he will be a regular sensation. If Bill Speck, who came to Victoria with Gibson in exchange for Eddie Oatman, shows anything at all there will be no argument but that the Cougars profited by the deal. Gibson has many years of good hockey before him and will be a real asset to the team.

Find Air Heavy

Some of the newcomers complain about the heavy air here. They have been used to higher altitudes and the heavy atmosphere makes them rather sleepy. They will work this off in time, provided they work hard enough.

The regulars were stepping a little faster yesterday. Harry Meeking put in an hour and a half on the pond trying to cut down his weight. Jocko Anderson, although he has nothing to take off, was going like a jackrabbit.

Halderson will soon be able to cast aside his title as "Slim" and in a couple of seasons they may be calling him "Fat." During the past Summer "Slim" put on an extra fifteen pounds and he is in pretty fair fighting shape right now.

Expected To-day

Frank Frederickson and Bill Speck are expected to arrive in town this afternoon and while they may not be in time for the workout they will have a skate to limber up. They will both be on hand to-morrow afternoon.

No word has been received as to when Clem Loughlin will be here, but he may check in to-morrow or Thursday.

Lester Patrick still has received no further word from Hec Fowler.

Big Entry List is Promised For First Colwood Golf Title

"Although the half a hundred potential members of the Colwood Golf and Country Club whose applications for membership already adorn two walls of the clubhouse entrance will not be able to take part in the club championship, which commences next Saturday, it is expected that this event will be responsible for lining up every member who swings a club over this popular course.

It is the first championship that the club has held, and it is the desire of the directors and the energetic captain, "Jim" Wood, that there shall be a full entry. The qualifying round of eighteen holes must be played next Saturday, and the first sixteen will be entitled to play for the club title, but there will be flights for every entrant, and the defeated eight of the first sixteen will constitute the first flight. The draw will be announced on Friday.

WITH THE BOWLERS

At the bowling alleys last night the Denholm Ramblers were defeated by the Colonists, who took both games last evening by a margin of 104 pins. The Colonist team played a very consistent game, very few pins dividing the teams. For the Ramblers, Norris was the star performer. The scores were as follows:

The Colonist

	First Game	Second Game	Total
Hawkins	122	212	334
Moulton	139	192	331
Taylor	155	137	292
Moore	153	155	308
Chislett	162	172	334
	731	868	1,599

Denholm Ramblers

	First Game	Second Game	Total
Huxtable	141	167	308
Manson	94	171	265
Norris	152	190	342
Marshall	134	126	260
Denholm	146	114	260
	667	768	1,435

ZBYSZKO IS FINED

Winnipeg, Nov. 7. — Wladek Zbyszko, Polish wrestler, who lost to Jack Taylor here Monday night when he forfeited the final fall on account of suffering from a boil, was fined $250 here yesterday by the Manitoba Boxing Commission for failure to appear before the commission's examining physician yesterday. The money will be turned over to charity.

FOG ALARM WORK COMMENCES SOON

Stapleton and Carter Completing Contract at Calamity Point

Another new type fog alarm station will be constructed at Mary Island, Welcome Pass, it was announced at the Marine Department this morning by Col. A. W. R. Wilby, agent of marine, at the same time that work on the Quatsino fog alarm would be completed at the end of the month. He also announced that an electric fog alarm bell at Calamity Point, Vancouver, would be installed at once.

The Mary Island fog alarm will be of the compression type alarm, with a gasoline engine and diaphone. Work will be commenced in about two weeks on this new station. The steamer Berens will take the first gang of men and the first construction material there in about ten days' time. The work will take about three months.

Electrically Controlled

In connection with the Calamity Point electric fog alarm bell, Colonel Wilby stated that there had always been a bell there. The work, which has been placed in the hands of Stapleton & Carter, of Victoria, will convert the present alarm into an electrically controlled device. The preliminary work has been finished by Stapleton & Carter, and the actual work will commence either to-morrow or the next day. The main work comprises the laying of a cable from the bell to the lighthouse at Brockton Point, and the instalation of a motor. The bell will be controlled from the lighthouse, it was stated. Other extensive fog alarm work is being contemplated by the Marine Department, but nothing definite has yet been decided.

Passenger Men Appointed For World Service

San Francisco, Nov. 7.—Appointment of Herbert N. Thomas as assistant to Hugh McKenzie, recently named passanger traffic manager for the Dollar Steamship Company, was announced yesterday. The two will devote their attention to preparations for the inauguration by the Dollar Compahy soon after January 1 of an around-the-world passenger service out of this port. Thomas formerly was general manager here for the China Mail Steamship Company, now defunct.

Bringing 126 passengers, fifty-five of whim were trade delegates from the San Francisco Chamber of Commerce, the Matson Navigation Company's steamer Maui arrived yesterday from the Hawaiian Islands. The cargo included 45,540 cases of canned pineapple and 17,366 bags of raw sugar.

OCEAN AND COASTWISE SHIPPING

DISABLED SHIP IS AGAIN ADRIFT IN NORTH PACIFIC

Hawser Parted as Cutter Algonquin Was Towing Shinkoku Maru

Seattle, Nov. 7.—A new ten-inch hawser with which the United States coastguard cutter Algonquin was towing the freighter Shinkoku Maru, disabled by the breaking of her tail shaft, parted, the Algonquin reported in a message made public to-day by the offices of the coastguard here. Shinkoku, which had been picked up 100 miles south of the Aleutian Islands, was in no danger after the hawser parted, said the message.

After the parting of the hawser the Algonquin remained standing by the Shinkoku, awaiting the coming of the tug Humaconna, which left here Sunday night for Dutch Harbor, Unalaska Island, whither the Shinkoku was being towed. The Humaconna is equipped with wireless and it was expected that she would get in touch with the Algonquin and the Shinkoku by the time she reached the open ocean. The Humaconna started north by the inside passage and this morning was reported lying in Duncan Bay, B.C., on account of fog.

The Algonquin's starboard and half of her port towing rail on the poop deck was carried away when the hawser parted. Her message said that she could stand by "as long as oil and water last." The Algonquin was returning from a cruise in Bering Sea when diverted to aid the Shinkoku, and it was not known here to-day how much oil and water she had. The message did not give the time or position of the parting of the hawser, but said that the Shinkoku was safely offshore.

C.P.R. Breaks Grain Record

Winnipeg, Man., Nov. 7.—Breaking all previous records for the delivery and unloading of grain at the head of the lakes, Canadian Pacific Railway cars numbering 1,464 were received at Fort William Monday, while unloaded there at elevators were 1,007 cars for the day. Received at Vancouver were 3,009 cars since September 1, against 2,667 cars for last season. Marketing for the Western division Monday aggregated 2,-713,175 bushels over Canadian Pacific lines, while cars loaded numbered 1,379 and inspections were 1,514 cars. Comparative figures for 1922 are not available, as November 5 fell on Sunday.

VANCOUVER WILL HAVE ELEVATORS OF BIG CAPACITY

Winnipeg, Nov. 7.—Further elevator capacity for the Vancouver grain trade is being provided for in addition to the new Government elevator, which, it is expected, will be completed next Summer to contain approximately 2,500,000 bushels. There is also under construction an addition to the present elevator, which would hold 500,000 bushels, according to Hon. Charles Stewart, Federal Minister of the Interior, who arrived in Winnipeg yesterday.

While in the city Mr. Stewart will confer with C. D. Howe, the Government contractor for the new grain elevator to be built in Edmonton. It is hoped that the 2,500,000-bushel capacity which the structure will provide will be available for the 1924 season, said Mr. Stewart. It will be equipped with complete cleaning facilities and will be used in connection with the Canadian National Railways for grain to be sent to Vancouver, the C.P.R. having the use of an elevator at Calgary. The cost of the construction will be about $1,250,000.

Empire Cruise Will Start November 27

The tour of the Empire by the British battlecruisers H.M.S. Hood and H.M.S. Repulse, accompanied by the First Light Cruiser Squadron, will leave England November 27, it was announced to-day. The fleet of seven vessels will sail by way of South Africa, Australia, New Zealand and Canada and is scheduled to reach this port in June.

Notice to Mariners

BRITISH COLUMBIA

(211) Malaspina Inlet—Sailing Directions

Malaspina Inlet. — Penetrates the Mainland near the northern end of the Strait of Georgia and has its entrance 1½ miles from Sarah Point, between Georgina Point, Lat. N. 50 deg. 3 min. 30 sec., Long. W. 124 deg. 49 min. 30 sec., and the west shore of Gifford Peninsula. The Inlet runs for a distance of about eight miles in a southerly direction, parallel to the coast, and has one good harbor and several arms, at the head of some of which there is anchorage.

At the entrance it is about four cables wide, which is its general width, but for about half its length, from about a mile above Georgina Point t othe expansion at Coode Peninsula, it is so studded with islands and rocks as to considerably narrow the navigable channel. The narrowest part, three miles above the entrance, is only ¼ cable wide and has been swept to a depth of twenty-four feet at low water for a width of ninety yards. The whole length of this section of the channel from Beulah Island up to Edith Island, has been swept to the same depth for various breadths.

Abreast of Coode Peninsula the Inlet widens out to seven cables and continues southeastward under the name of Okeover Arm, and northeastward and northward as Lancelot Arm.

Lancelot Arm is about three miles long, and about two and a half miles up from its southern end on the eastern side is the entrance to Theodosia Arm.

Tides and Tidal Streams.—It is high water in Malaspina Inlet fifteen minutes and low water twenty minutes after that at Sandy Heads; the approximate mean rise is thirteen and a half feet.

For further tidal information, "Tide Tables for the Pacific Coast of Canada," published annually by the Department of Marine and Fisheries, should be consulted.

Stacey Rock.—The rock dries eleven feet at low water and lies three cables westward from Georgina Point at a distance of nearly a cable off the western shore. There is deep water within half a cable of the rock.

Zephine Head.—The west point of Gifford Peninsula on the east side of the entrance to the Inlet, and north of Georgina Point, is steep and bold.

Holland Point.—Lies about a cable southeastward from Zephine Head and on the same side of the Inlet, and is steep-to.

A rocky ledge which dries thirteen feet at low water extends half a cable from the shore, two and a quarter cables northwestward from Holland Point.

Beulah Island.—Nearly two cables long, ninety feet high and wooded, is close to the west shore opposite Holland Point, and has a small islet, five feet high, close to its eastern side. Westward of Beulah Island is a small bay with a float at its head.

A rock with three and a quarter fathoms over it lies three-quarter cable 260 deg. (S. 55 deg. W. mag.) from the north end of Beulah Island.

Josephine Islands.—About three-quarters of a mile within the entrance to Malaspina Inlet, with a passage on both sides, are two in number and almost joining each other. The northeastern one is very small and twenty-six feet high; the other is about one and a half cables long in the direction of the Inlet, and about half a cable wide. The passage between them and the eastern shore is the broader and is to be preferred. It has been swept to a depth of twenty-four feet at low water for a width of 150 yards. The passage west of the Josephine Islands is clear in the middle but narrow, with shoal water on each side.

Cavendish Rock.—With two shoal heads, lies on the east side of the channel eastward of the south end of the Josephine Islands. The shoalest head, with less than six feet at low water, is two cables 89 deg. (N. 64 deg. E. mag.) from the south point of Josephine Islands; the other head, with two fathoms over it, lies 79 deg. (N. 54 deg. E. mag.) from the same point.

Thorp Island.—Ninety feet high and wooded, lies close to the western shore of the Inlet, two and a half cables 181 deg. (S. 18 deg. E. mag.) from Josephine Islands; a rock with less than six feet water over it lies 120 yards southeastward from it.

Cross Islet.—Small and five feet high, lies three cables southeastward from Josephine Islands on the eastern side of the channel and one cable from a larger island which is close to the eastern shore of the Inlet.

Rosetta Rock.—A principal danger in this section of the Inlet, dries nine feet at low water and lies 135 yards 223 deg. (S. 18 deg. W. mag.) from the south end of Cross Islet.

Neville Islet.—Which is small and three feet high, lies in the bight of the eastern shore four and a half cables 123 deg. (S. 82 deg. E. mag.) from the south point of Cross Islet.

Cochrane Islands.—A group consisting of two islands, sixty and one hundred feet high, with several rocks and islets between them, extending three and a half cables in a northwest and southeast direction, lie about two cables from the western shore of the Inlet and southwestward from Neville Islet. Two small islets, two and four feet high, lie sixty-five yards north of the larger and northern of the Cochrane Islands, with which they are connected at low water.

From the Cochrane Islands the western shore of the Inlet trends to the southwestward, with shoal water off it for a distance of three-quarters of a cable, to Trevennon Bay.

Rocks.—Two rocks with two and a quarter and four and a quarter fathoms of water over them at low water lie respectively 320 deg. (N. 65 deg. W. mag.) about one cable, and 7 deg. (N. 18 deg. W. mag.) one cable, from the north point of the larger and northern of the Cochrane group, and on the west side of the channel.

Kakaekae Point.—On the eastern side of the Inlet, is a steep, bold Point, three and a half cables eastwardof the south end of the Cochrane Islands.

Scott Point.—Steep-to at a short distance, and two and a half cables southeastward from Kakaekae Point, on the same side of the Inlet is the western point of the entrance to Grace Harbor. Between Kakaekae and Scott Points is a small bay with an islet at its entrance.

Rocks.—Off Scott Point the channel trends east for a short distance and on the south side is a patch of rocks with depths of one and three-quarters, two and a quarter and two and a half fathoms at low water, lying two cables 168 deg. (S. 37 deg. E. mag.) from Scott Point.

Moss Point.—Two and a quarter cables east from Scott Point, is the eastern point of the entrance to Grace Harbor, and is low, grassy and steep-to at a short distance.

Grace Harbor.—In Lat. N. 50 deg. 2 min. 30 sec., Long. W. 124 deg. 46 min. 30 sec., on the eastern side of Malaspina Inlet, about three miles from Zephine Head, has its entrance about two cables wide between Scott and Moss Points. The harbor extends about one mile northeastward, and is divided at the head by a point into Barlands and Carberry Bays.

Two cables within the entrance points, Jean Island, which is about a mile long, lies nearly in the middle of the channel; there is a passage on both sides of it, but the western one is only suitable for boats. At three and a half cables above Jean Island the harbor for a short distance contracts to half a cable in width, and then opens to a width of two and a half cables with depths apparently of five to six fathoms.

Anchorage with limited swinging room may be obtained for small vessels in the middle of the harbor one and a quarter cables above Jean Island, southeastward of a bare rocky islet, thirty feet high, close to the northern shore, in thirteen fathoms over mud bottom.

The deep channel east of Jean Island is narrow, and care should be taken to keep in the middle of the channel when entering.

Isbester Islands.—A group of three, lie on the west side of the main channel of Malaspina Inlet, two and a half cables southward of Moss Point and off the northwest end of Coode Island.

Coode Island.—About six cables long in a northwest and southeast direction, the eastern side of which is steep-to at a short distance, lies close to the northwest end of Coode Peninsula, and forms the eastern side of Trevennon Bay.

Selina Point.—On the eastern side of the Inlet, lies half a mile southeastward from Moss Point; it is the southern point of Gifford Peninsula, and is steep-to.

Main Channel and Foul Ground.—The main channel here trends southeasterly between Isbester Island and Coode Island on the southern and Moss and Selina Points on the northern hand and is about three-quarters of a cable wide, with foul ground on both sides. It has been swept to a depth of twenty-four feet at low water for a width of ninety yards.

On the northern side, about half way between Moss and Selina Points, a rocky ledge dries nine feet at low water, with foul ground extending from it towards Selina Point, and off Isbester Islands on the southern side shoal water with a depth of two fathoms extends half a cable eastward.

Beacons.—About a cable and a half northward from Scott Point and just inside the entrance of Grace Harbor, are erected two white day beacons, the northwestern one about 150 yards back from the front and southeastern one. These in line, bearing 309 deg. (N. 76 deg. W. mag.) lead through the middle of the channel between the rocks on either hand.

Edith Island.—One hundred feet high, wooded, one and three-quarters of a cable long in a north and south direction and about three-quarters of a cable wide, lies immediately south of another small island, which is close to Gifford Peninsula. The south end of Edith Island, with shoal water extending from it, lies about three and a half cables eastward from Selina Point.

Lion Rock.—Which dries eleven feet at low water, lies in an extensive kelp patch, two cables 146 deg. (S. 59 deg. E. mag.) from Selina Point and two cables eastward from Coode Point. The channel between Selina Point and Lion Rock has been swept to a depth of twenty-four feet at low water.

Lancelot Arm.—Branches off sharply northeastward at Selina Point and then northward, and extends for three miles to the head, which latter is known as Wootten Bay and is divided from Portage Cove in Desolation Sound only by a low neck of land not more than a cable across.

The Arm maintains an average width of six cables to Ellen Point, on the eastern shore of the entrance to Wootten Bay, where it is only three and a half cables wide. The water is generally deep and there are no off-lying dangers, as far north as the entrance to Theodosia Arm.

Hillington Point.—Bold and steep-to, is on the eastern shore of Lancelot Arm about six cables eastward across from Edith Island.

Stopford Point.—On the western shore of the Arm about six and a half cables northwestward from Hillingdon Point, is steep cliffs and is steep-to.

Isabel Bay.—In whose entrance lie Polly and Mary Islands, the former being the smaller and southward from the latter, and 103 feet high, is half a mile northward of Stopford Point and about two cables in extent.

Lewis Point.—Is steep-to, and lies on the eastern shore of the Arm abreast of Isabel Bay.

Thors Cove.—On the eastern shore is one and a half cables north of Hillingdon Point. It is three cables wide at the mouth and extends for a distance of four cables eastward, narrowing to a width of half a cable at the head. An islet twelve feet high is in the southern part of the Cove.

Sebastian Point.—Is the northern Point of the entrance to Thors Cove.

Thynne Island.—Eighty-five feet high, wooded, narrow and nearly a cable long, in a northeasterly and southwesterly direction, lies about one and a quarter cables off Sebastian Point, with deep water close up to it, except on its eastern side.

Theodosia Arm.—Its entrance on the eastern shore of Lancelot Arm, about two miles northward from Hillingdon Point, forms a bay, on the northern side of which is a steep bluff, Ellen Point. Two small islands, eighty-five and seventeen feet high, are situated nearly in the middle of the bay, the northwestern and smaller of the two having a conspicuous pointed rock on its summit.

Several rocks, the highest of which dries fourteen feet at low water, lie between Ellen Point and the islands in the middle of the bay. Eastward of Ellen Point is a small bay the greater part of which dries at low water.

Along the southern side of the entrance the water is shoal for a distance of about half a cable off the shore.

St. Martin Point, on the northern side of the bay, about four cables southeastward from Ellen Point, are the Narrows, about 130 yards wide, with shoal water rocks, northward of an island which is connected to the southern shore of the bay at low water.

Anchorage.—A small vessel may anchor in eleven fathoms, over mud bottom, 150 yards southeast of the larger island situated in the middle of the bay.

Bank.—A bank of small extent with a depth of eleven fathoms is situated in the middle of Lancelot Arm, west of the entrance to Theodosia Arm.

Directions.—A vessel entering Malaspina Inlet midway between Georgina Point and Zephine Head should steer a course of about 126 deg. (S. 69 deg. E. mag.) for the small islet, five feet high, on the east side of Beulah Island.

When the north point of Beulah Island is distant one and three-quarter cables, the entrance to the passage north and east of Josephine Islands will have opened out and the course should be altered to port for about half a mile and then to starboard, rounding the Josephine Islands at a distance off the eastern side of about half a cable so as to avoid Cavendish Rock, lying one and one-quarter cables east of the south end of the islands.

When abreast the south end of Josephine Islands, steer 180 deg. (S. 25 deg. E. mag.) until the extreme of the land near Zephine Head, bearing about 325 deg. (N. 60 deg. W. mag.) is midway between the west side of the Josephine Islands and the west shore of the Inlet, when haul to port on this last bearing and steer 145 deg. (S. 60 deg. E. mag.), for the middle of the northern Cochrane Island, which course will lead midway between Rosetta Rock on the port hand and the rock southeastward of Thorp Island on the starboard hand.

When Neville Island, in the bight on the eastern shore, bears 103 deg. (N. 78 deg. E. mag.) steer for it for a short distance, with the south point of Thorp Island astern, until the middle of the northern Cochrane Island bears 180 deg. (S. 25 deg. E. mag.), when alter course to pass Kakaekae Point at a distance off of three-quarters of a cable, steering on this course about 140 deg. (S. 65 deg. E. mag.)

When Kakaekae Point is abeam three-quarters of a cable, haul eastward and steer about 108 deg. (N. 83 deg. E. mag.) to pass Scott Point at the same distance.

If bound for Grace Harbor, round Scott Point at a distance of about three-quarters of a cable and steer northeastward for the harbor, passing midway between Jean Island and the eastern shore. The best anchorage is in the middle of the harbor one and one-quarter cables above Jean Island in about thirteen fathoms.

If bound up the Inlet, from the position off Scott Point steer about 98 deg. (N. 73 deg. E. mag.) for midway between Moss Point and the east head of Isbester Islands, until the beacons northward of Scott Point come in line, bearing 309 deg. (N. 76 deg. W. mag.) when alter course to starboard to keep them in line, bearing 309 deg. (N. 76 deg. W. mag.) when alter course to starboard to keep them in line, steering 129 deg. (S. 76 deg. E. mag.).

Caution.—The leading line of the beacons passes close to Lion Rock, two cables southeast from Selina Point and should be held only so long as the land north of Edith Island is shut in by Selina Point, or until Selina Point bears 61 deg. (N. 36 deg. E. mag.), when course should be altered etiher to starboard or port, depending on the vessel's destination.

If bound for Okeover Arm, alter to starboard and steer to pass midway between Lion Rock and the east side of Coode Island.

If bound for Theodosia Arm alter course to port and steer 91 deg. (N. 66 deg. E. mag.), passing between Selina Point and Lion Rock, and about one cable south of Edith Island into the wide entrance of Lancelot Arm.

From here northward keep a midchannel course until abreast of the entrance to Theodosia Arm, when steer to pass midway between the large island, eighty-five feet high, lying southeast of Ellen Point, and the south point of the entrance, anchoring southeast of the above island in about eleven fathoms, over mud bottom.

OVER 3,000 CASES LIQUOR WILL BE DISCHARGED HERE

Tydeus is Bringing 3,437 Cases of Light Wines and Liquor

Three thousand four hundred and thirty-seven cases of light wines and liquor will be the portion allotted to Victoria for her Christmas holiday season from the cargo of the inbound Blue Funnel steamer Tydeus, which is due here on Saturday direct from the United Kingdom with the largest liquor shipment that has been brought to British Columbia in months.

The Tydeus, it was reported this morning, is due at William Head on Saturday and after securing pratique will dock at Rithet's piers to discharge. There are 495 tons of cargo for this port.

Vancouver's consignment more than doubles this, while Mainland cargo totals several thousand tons.

Wireless Outfit

Another feature of the vessel's cargo is the wireless outfit that will be discharged here for installation in the Ss. Siberian Prince before she takes her trip to Belfast, England, in the Furness-Withy Company's new service. The wireless will be installed here.

There is a large consignment of steel plates in addition to the usual quota of settler's effects, jams, preserves, stationery supplies, books and Christmas toys. Another big shipment of golf clubs is being brought here by the Tydeus.

O.S.K. Ship Due

Rithets Consolidated, Ltd., report the expected arrival of the Osaka Shosen Kaisha line steamship Manila Maru on Saturday. Radio advices from the captain state that the vessel will make William Head on Saturday night. The Manila Maru has a large silk shipment for transshipment to the East.

FOG DELAYS SHIPS ON PUGET SOUND

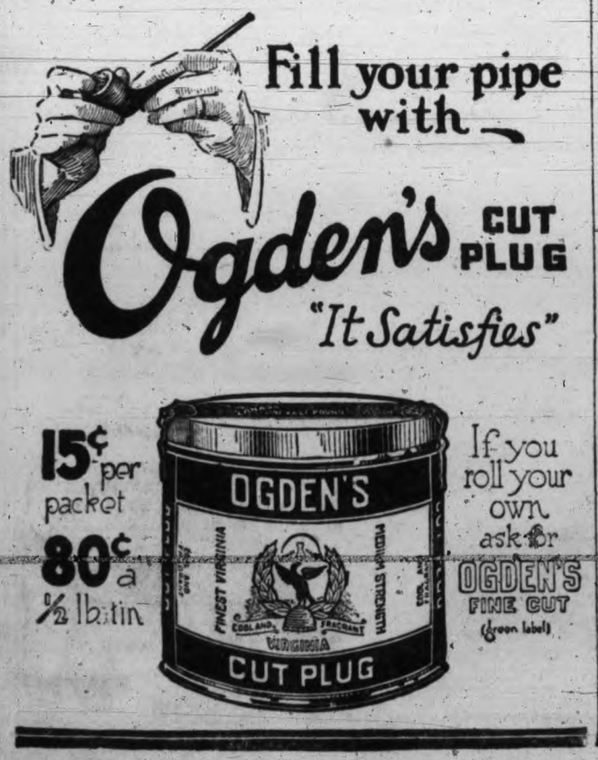

Pilots Say it Was Thickest Fog Coast Has Experienced For Years

Seattle, Nov. 7.—Several vessels, large and small, due here yesterday, were detained in various harbors about Puget Sound and vicinity because of a heavy fog prevailing over the Northwest. The steamships Edgar Bowling, Wheaton and West Calera, scheduled to leave this port yesterday, postponed sailing until the fog bank partly lifted. Puget Sound pilots declared that the fog was the thickest prevailing in this vicinity for years.

The steamship Lurline, of the Matson Navigation Company, sailed for the Hawaiian Island from her yesterday with a full passenger list. A number of the passengers were residents of the Islands returning to their homes after visiting various parts of the United States and Canada.

Fire in the pilot house of the tug Stimson, of the Cary-Davis Tug & Barge Company, caused a loss of several hundred dollars early yesterday, according to officials of the company. The origin of the fire has not been ascertained.

Concluding the loading of her Seattle consignment for the east coast of South America, the steamship West Calera, of the Pacific Argentine and Brazil Steamsihp line, shifted to Tacoma during the night. This vessel will leave Puget Sound with close to 6,000 tons of general cargo, including lumber, canned goods and other commodities for Rio de Janeiro and Buenos Ayres.

PANTAGES OFFERS FINE PROGRAMME

Exceptional Show Reflects Management's Promises For Winter Season

Last night's Vaudeville show at the Pantages Theatre justified the prolonged applause given in appreciation of the various acts.

A scintilating comedy, with extravagant and gorgeous settings, high-class musical and dancing numbers, and a delightful playlet, in addition to the opening overture and an added motion picture, are the attractions.

This week's bill equals any that has been staged at the popular vaudeville house.

Gorgeous in its settings, "The Midnight Marriage" was the outstanding success of the evening. The ladies in the cast displayed their new radium costumes, which are said to be valued at many thousands of dollars. Delightful musical numbers were sung and three new songs were introduced. The comedy incorporates a fashion parade.

The story running through the play keeps the audience interested the whole time.

In an interpretation of Anna Pavlova's famous dance, Jeanette won admiration. Assisted by Harry Shields, she presents an exceptional act. "The Dying Swan," Anna Pavlova's most famous number, was excellently given.

"Just a Couple of Good Men" was the number that Billy Baker and Eddie Rogers were billed for and they fulfilled all expectations.

Prosper and Maret, clever college athletes, performed an act worthy of special mention. Their herculean feats were much appreciated by the capacity house.

George La Shay, mirambaphonist, was heard in many delightful selections, while his interpretations of "Miserere" from "Il Trovatore" was well received. The motion pictures, which opened this exceptionally entertaining programme, were "Don't Scream" and "Pal, the Wonder Dog."

Powerful Crook Play Is Screened At Royal Theatre

From the grandeur of the Court of Louis X in "The Eternal Flame" and the enchantment of the turreted East in Robert Hichens' "The Voice From the Minaret" to the underworld of New York City may seem a long step for any motion picture star, but the versatile Norma Talmadge makes it with her latest drama, "Within the Law," one of the most powerful crook plays ever brought to the screen.

As Mary Turner, the little shop girl around whom Bayard Vellier wrote his tremendously successful stage production, Miss Talmadge is said to perform the finest emotional work of her career.

Some of the strongest scenes are enacted in the courtroom and in prison when Mary Turner, a shop girl, is convicted and sentenced for a theft of which she is not guilty. Because of her record and police persecution, Mary is unable to find respectable employment on her release, and it is this circumstance that sends her into a band of blackmailers and brings about an extraordinary romance.

Many of the principal scenes are shown in the Tombs and at Auburn Prison, as well as in the New York underworld proper and in the fashionable centres of Florida. This widely heralded photodrama, directed by Frank Lloyd, will be shown at the Royal again to-day.

As a special added attraction the great international horse race between Papyrus and Zev will also be shown.

STOP IT!
Why Cough Your Head Off
Make Your Own Cough Mixture for the Whole Family and Save Money. It's Easy

When you can make in your own home, a wonderful cough mixture far ahead of any you can buy ready made, why not do it?

This home made mixture will stop the most stubborn cough and is fine for chest colds and acute catarrh. Children love it.

Get from any druggist, one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make half a pint—that's all there is to it.

Like a soothing, healing poultice one costly substance in this home made cough mixture spreads itself completely over the membrane of the throat. This causes the most stubborn hang-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

Any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

Advt.

STOMACH SUFFERING
disappears as if by magic when JOTO is used. Gas pains, acid stomach, sour stomach, burning and all after-eating distress relieved in two minutes. All Drug Stores.

Spanking Giant Is Harold's Task in Latest Picture

So far as Harold Lloyd is able to recall, he only had three spankings, and those were equally divided among his father, mother and grandmother. A scolding always cut the sensitive boy much deeper than any beating possibly could have done. Because Harold's mother has always been his idol, when she would tell him that she was disappointed in him because of something he had done or because he had hurt her by some mischievous prank, he was hurt for her and was much more effectively punished than by switching.

Everybody goes through the running-away-from-home period, and with Harold Lloyd it came at the age of six or seven. His great delight was to "hook" on street cars and it was being caught doing this that led to the one and only spanking he can remember ever receiving from his dad.

In "Why Worry?" his newest Pathecomedy, coming to the Dominion Theatre this week, Harold Lloyd tries to spank a giant, but finds it easier to quell a Spanish revolution.

"Brass" Showing at the Columbia Has Marriage as Theme

Marriage, as practised nowadays by the cynical and careless, gets an awful body blow in "Brass," a powerful Warner Brothers classic of the screen adapted from the novel of Charles G. Norris, which opened Monday at the Columbia Theatre, for a week's run with Monte Blue and Marie Provost in the featured roles.

Not only the silliness of people going into marriage without knowing each other well, but their readiness in exiting and bee-lining for the divorce court is shown, in a way unforgetable indeed. It must not be supposed that there is any sober preachment in the picture; far from it. "Brass" tells a corking story, a story that moves every minute of the time it is projected on the screen, and that delighted the big audience that beheld it. Absorbing as few pictures can be, with a plot crammed with action, "Brass" should be seen by everybody in need of genuine enjoyment.

Nearly everybody knows the story, from the popularity it enjoyed as a "best seller." Philip and Marjorie Baldwin, young and married, suddenly wake up to find themselves utter strangers. A mother-in-law partially accounts for their distance, but especially does Marjorie's weakness for cabarets and good times. After a quarrel she leaves him forever, and Philip picks out the scattered threads of his life as best he can. Two women come into his life, the while Marjorie divorces him and remarries. The ending is led up to in masterly fashion, with thrilling climaxes that surprise and fascinate.

Monte Blue never acted better than he did here, giving a superb interpretation of the likable puzzled Philip. Praise is also due the able supporting cast which includes Marie Provost, Harry Myres, Irene Rich, Helen Ferguson, Frank Keenan, Edward Jobson, Margaret Seddon, Cyril Chadwick and Pat O'Malley. The splendid direction is by Sidney Franklin, and the production was made by Harry Rapf.

P.G.E. OPERATIONS REVOLUTIONIZED BY MacLEAN POLICIES

(Continued from page 3.)

if necessary, should be made before coming to this conclusion.

"Since the inception of the enterprise in 1914, the P. G. E. Railway, has loomed large in the political history of the Province," Dr. MacLean went on. "I do not propose to enter into the field of partisan discussion of this question at this time. In my opinion, a great deal of injury has already been done both to the reputation of the Province and to the railway by the unsavory publicity given to this project. Since its inception, the Liberal Government has won two general elections with the P. G. E. as a political factor. Within the next two years, we shall again appeal to the people on our record. When I became Minister of Railways, I decided that I would not waste my energies in futile controversies about the past history of the road. My co-directors and myself conceived it to be our duty to find a solution for one of the most difficult problems that faces the Province to-day."

North Shore Line

With the reference to the thirteen and a half miles of the P. G. E. Railway in operation on the North Shore of Burrard Inlet, the Minister reminded the House of the agreements that had been entered into by Foley, Welsh & Stewart, in order to secure free right-of-way through these districts. There agreements contained a penalty clause that provided that unless an hourly schedule was kept up for 18 hours of the day in so far as the private owners of land were concerned, they should be paid for the right-of-way at the prices existing at the time the enterprise was begun.

In the Municipality of West Vancouver, there was a penalty clause of $100 for every day that the Railway failed to abide by its schedule, he said.

"The business of this line does not warrant the implementing of the agreements in full, but it is the desire of the Board of Directors to do so in so far as the circumstances will permit," he declared. "There has been an annual operating loss of $8,000 and upwards on this line. To reduce this operating loss, conferences have been held with the Municipality of West Vancouver having for their object the elimination of the West Vancouver ferries as a competing factor to the P. G. E. While no final settlement has been arrived at, the prospects for an amicable agreement are bright."

Wants Young Immigrants

"If our immigrants are young and in good health it does not matter so much what their situation in life has been or their former occupation. They will in a short time adapt themselves to the changed conditions in their new home," Dr. MacLean declared. Turning to other matters, Dr. MacLean defended the speech of Mrs. Mary Ellen Smith, the lady Member for Vancouver, and complimented her on bringing to the attention of the House the question of the reception which Old Country people received on their arrival in Canada. It is most important, he said, that these people, coming as strangers to a strange land, should be heartily welcomed by the present residents of the Province.

"We, ourselves, or our ancestors," he said, "have all migrated from the Mother Land; in fact, we have a number of Members belonging to all parties in this Legislature who have migrated to this country, and while the honorable gentlemen opposite displayed poor judgment in their party affiliations, they are nevertheless good citizens and a desirable acquisition to the population."

In his opening remarks, Dr. MacLean referred to the speeches delivered by the Opposition Leader and by R. H. Pooley, Conservative Member for Esquimalt. He commented on the fact that while Mr. Pooley had lived all his life in the Province, and while he had been a Member of the Legislature for the past eleven years, he had never until this Summer made a trip to the northern portion of the Province.

Voters' Lists

Another matter on which he commented was the request of the Member for Esquimalt that his party should be given a copy of the Esquimalt Voters' List free. This, he pointed out, was in direct violation of the statutes, and while the Member for Esquimalt admitted that this had been done by the Conservative Party in the past, the Minister criticised Mr. Pooley for urging officials of the Provincial Secretary's Department to violate the statute law of the country.

He also commented on Mr. Pooley's advocacy of the claims of the big interests in his opposition to the personal property tax and to the Succession Duty Act. The farmer, he pointed out, has also to pay a personal property tax whether he makes any profit in any particular year or not, yet the Member for Esquimalt had failed to advocate any relief for the agriculturalists, the most important class in the community.

Referring to Mr. Bowser's remarks on the attitude of the Minister of Education on the proposed educational survey, Dr. MacLean read the correspondence on this question a telegram which was sent to the chairman of the Vancouver School Board.

"When charged that he was misrepresenting my atitude, Mr. Bowser expressed his regret, but I venture to say that if he thinks the circulation of this statement will give him any political advantage he will again repeat it," Dr. MacLean asserted.

Reads Telegram

Dr. MacLean's telegram to the Chairman of the Vancouver School Board, which the Minister read, ran as follows:

March 22, 1923

"R. G. Wolfe Merton, Secretary Board of School Trustees, Corner of Hamilton and Dunsmuir Streets, Vancouver, B.C.

"Regret that I am unable to attend meeting to-morrow night. Department has no objection to a survey of our Education System when convinced that there is a general public demand for same.

J. D. MacLean."

Reviews Government's Work

One of the statements made by Mr. Bowser, Dr. MacLean recalled, was to the effect that "the record of the administration of the Oliver Government will be green in the memories of the people of this Province for years to come." Hon. Dr. MacLean replied that he quite agreed with this statement, and proceeded to enumerate the many important reforms in administration carried out by the Oliver Government, as well as giving a list of the social legislation which was passed since that Government came into office.

Dr. MacLean referred to the recent appointment of Dr. Lamb, a specialist in tuberculosis, as Traveling Medical Health Officer. Dr. Lamb's duty, he stated, was to carry on an educational campaign throughout the Province with the object of informing the public on the prevention and cure of tuberculosis. He pointed out that the death rate from tuberculosis had fallen 25 per cent in the last three years. He observed that during the last eight years of Conservative rule the death rate from this disease had doubled in the Province.

Minister is Sarcastic

The Minister waxed somewhat sarcastic and admitted some failures on the part of the Oliver Government. He stated that it had failed "to give the speculator a chance; to interfere with those charged with the administration of justice in the performance of their duty; to build up a political machine at the expense of the taxpayers."

One of the greatest boons, he said, conferred on the people of this Province by the present Government was the restoration to them of the privileges of free citizens and the "abolition of despotism in the administration of their affairs."

ASKS GOVERNMENT TO STATE POLICY ON STEEL SCHEME

Optimism Justified But Government Has no Right to Credit, Says Pearson

Optimism is needed in British Columbia and there is reason for it, said Thomas Pearson, Conservative member for Richmond, in the Legislature yesterday afternoon. He did not see, however, what right the Government had in taking all the credit for what was good in this Province.

Mr. Pearson felt that there was good reason for the Government to look into the question of decreased coal production and the vast increase in the use of fuel oil. The present "exorbitant" price of coal might have something to do with matters, he said. Twelve or thirteen dollars a ton for soft coal was not fair, he charged. The Government should acquaint itself fully with the situation, or perhaps it might be wise to boost the use of fuel oil in the hopes that the price of coal would come down.

Hon. Mr. Sloan, Minister of Mines, stated that it was costing seven dollars a ton to produce coal in this Province. Mr. Pearson said it had cost $1.50 per ton for coal on the cars in the East before the war. He could not believe that the cost of production had increased to that extent.

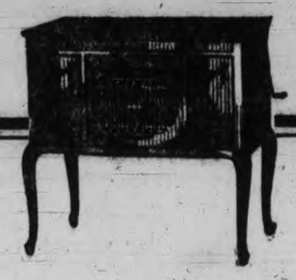

Mr. Pearson spoke favorably of the Coast Range Steel project, saying Mrs. Smith, in her address, had given him a lot of valuable information when she pointed out why she thought the scheme should be endorsed. The junior member for Victoria had denounced the project, and Mr. Pearson wondered if he had been inspired by the stand of the local Chamber of Commerce.

"The development of an iron and steel industry is a big thing," said the Richmond member. "I am not committed to this particular project, but I think every consideration should be given to its merits. Big men may be behind it; the promoters say they can get $11,000,000 if British Columbia guarantees bonds to the value of $4,000,000. I am convinced that a plan can be worked out under some circumstances."

British Columbia has iron ore deposits, coke, water-powers and water and rail transportations, said Mr. Pearson. The next thing was to see if there was a market. The country wanted immigrants, it was said, and, if so, there must be work provided for them. He asked the Government to say one way or the other what it proposed in this connection, as people were waiting for such an announcement.

J. Hinchliffe, Conservative member for Victoria, adjourned the debate.

THE TIMES DAILY PICTURE PAGE

A MINIATURE OF THE CHICAGO OPERA COMPANY STAGE. — This photograph shows a miniature scene from "Rigoletto," as prepared under the auspices of the Chicago Civic Grand Opera Company. The stage is but part of the entire opera house, done in similar miniature. The entire miniature structure was three years in building, and is a marvel of mechanical skill.

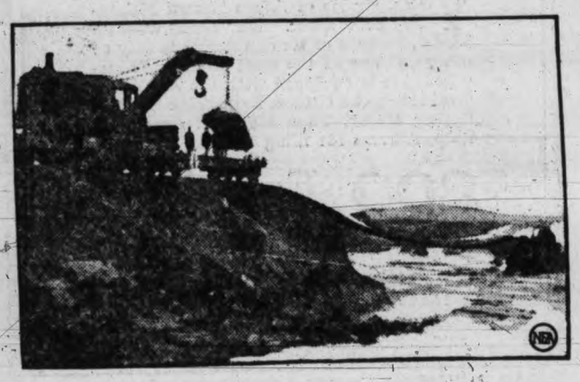

ILLUSION.—One would judge from this photo showing Lloyd George leaving the White House after a chat with President Coolidge, that the English statesman is—er—knock-kneed. But he isn't. It's just the unusual slant the camera took of him.

RARE APE.—For the first time in forty years, two Bleeding Heart baboons have arrived at the London Zoo. "Sam," shown here, kept the photographer busy for half an hour before he would pose.

HUGO STINNES, JR.—Yes, this is none other than Hugo Stinnes, Jr., and his wife. Young Stinnes' father is the wealthiest man in Germany. The young couple are in New York, having arrived on the Resolute.

AFTER FLOOD'S ANGER.—The water's fury has abated. The raging torrents have grown calm again. So the work of reconstruction may proceed. Here's a railroad crew beginning the rebuilding of a 350-foot bridge across the Powder River, near Arvado, Wyo., in the heart of the flood-swept region.

SENATOR FRANK B. KELLOGG of Minnesota, whom President Coolidge has appointed United States Ambassador to the Court of St. James.

GENERAL METAXAS, a royalist of Greece, heads two thousand men in revolt against the military government of Premier Gonatas.

DRIVING THE FIRST SPIKE.—Mayor Bassett, of Whitby, on the left, ready to strike the first blow driving home the first spike on the Toronto Eastern Railway last week. E. W. Oliver, manager of C.N.R. electric lines, holding the nickel-plated spike.

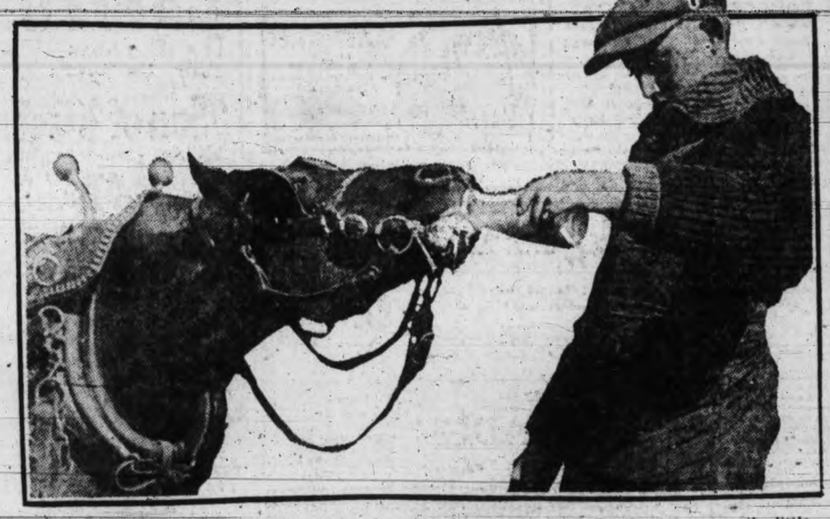

KING GEORGE AND QUEEN ELIZABETH of Greece are to tour America.

MISS CLARA BRETT MARTIN, Canada's first woman lawyer, is dead in Toronto.

ON STAGE NOW.—Princess Marie Louise Galitzine, daughter of Prince Galitzine who was Russian Minister at Munich in 1914, has taken the stage as a livelihood. She is appearing in Paris.

HE'S A REGULAR OLD TOPER.—Rinus has been raised on a bottle. For fourteen years, the little Shetland pony that drags Fred Pofbrel's milk wagon along a Minneapolis route, has been getting his daily swig. He must have his milk at least twice a day. Sometimes he insists upon a beverage even stronger. On a hot day he can't be induced to move unless he gets his white soda at the corner grocery store.

SCHOOL DAYS

Copyright, 1923, by The McClure Newspaper Syndicate.

By DWIG

A GOOD REMINDER.—Saturday, November 10, is "Forget-Me-Not Day," in United States for disabled World War veterans. And pretty girls, with their bunches of forget-me-nots, will keep people from forgetting. This maiden is a typical reminder. Proceeds will be expended in welfare, relief and legislative assistance for the disabled men.

NEARLY 100 YEARS OLD.—A steam roller, you say. You're wrong. It's the first locomotive ever to enter Washington, D.C. It's the Atlantic, designed by a York, Pa., watchmaker for the Baltimore & Ohio railroad in 1832. At the recent three-day golden jubilee celebration at North Baltimore, O., folks from miles around took a ride on it. And they sure stepped on it! Made about seven miles an hour, according to the motorcycle cop's speedometer.

THE LATEST NEWS FROM FINANCIAL CENTRES

STRENGTH IN OILS IN WALL STREET

(By British American Bond Corp., Ltd.)

New York, Nov. 7.—To-day's stock market alternated between strength and weakness almost throughout the session with final strength in the oil issues. The recent market leaders changed very little from Monday's prices, the activity extending into stocks which have trailed the advance of the past week. The oil stocks have been under pressure for some times and a belated realization that they are considerably behind the market no doubt was responsible for the strength to-day. There was no important news to affect prices, the elections of yesterday being considered of no market importance. Outside of the oil group the market was very spotty, even the rail group having a rather irregular movement with weakness in St. Paul issues and strength in the Eries being notable features. Specialties such as Loose Wiles, Eastman Kodak, Fleischmann, Public Service of New Jersey and Congoleum were strong up to the close. The general market showed considerable strength at the finish.

EXCHANGE SUMMARY

New York, Nov. 7.—Foreign exchanges easy. Quotations in cents.

Canadian sterling — Demand 4.51½; selling 4.54½.

Great Britain—Demand 4.44¾; cables 4.45; 60-day bills on banks 4.42½.

France—Demand 5.70½; cables 5.71.

Italy — Demand 4.42¾; cables 4.43¼.

Belgium — Demand 4.91; cables 4.91½.

Germany—Demand .00000000003; cables .00000000003.

Holland—Demand 38.57; cables 38.62.

Norway—Demand 14.70.

Sweden—Demand 26.31.

Denmark—Demand 17.04.

Switzerland—Demand 17.74.

Spain—Demand 13.25.

Greece—Demand 1.54.

Poland—Demand .0000½.

Czecho - Slovakia — Demand 2.91¼.

Jugo-Slavia—Demand 1.16.

Austria—Demand .0014.

Rumania—Demand .49.

Argentine—Demand 31.80.

Brazil—Demand 8.50.

Montreal 98½.

Call money firm; high 5; low 5; ruling rate 5; closing bid 5; offered at 5¼; last loan 5; call loans against acceptances 4½.

Time loans easy; mixed collateral 60-90 days 5; 4-6 months 5.

Prime commercial paper 5 @ 5¼.

OIL GROUP TO-DAY ATTRACTED NOTICE

(By Burdick Bros., Ltd.)

New York, Nov. 7.—The foreign news over the holiday was not taken as being very encouraging and this, coupled with the desire in some quarters to accept profits on long stocks, caused some selling early in the session, but this was rather well absorbed. The coppers displayed a better tone on fractional price improvement in the red metal.

In the afternoon dealings the oils as a group were features on the up side and considerable short covering was indulged in in this class of issue on the announcement of the regular dividend by the Texas Company, which had previously been in some doubt.

Sterling exchange made a new low for the year and other foreign exchanges were somewhat reactionary.

The demand from shorts seems to have spent its force for the present and it is still a question whether sufficient outside buying power can be attracted to further improve the price level.

STRENGTH IN CORN FEATURE IN CHICAGO

(By British-American Bond Corporation, Ltd.)

Chicago, Nov. 7.—The strength in December corn was the outstanding feature in to-day's grain trading. This strength was the more noticeable on account of the pressure on wheat futures, which actually lost ground again to-day in the face of nearly a two-cent advance in corn. Cash corn sold at 99 for No. 2 yellow and this does not give much encouragement to the seller of corn futures with the nearest delivery selling at 77. The bearish world situation in wheat does not seem to be functioning very well against wheat prices, although wheat is perhaps being held up by the strength in corn. Corn closed near the day's high, while wheat strengthened a little toward the close, but still remains a good fraction below yesterday's finals.

STOCK OPINIONS

(By British American Bond Corp., Ltd.)

New York, Nov. 7.—Following opinions were expressed at to-day's opening:

A. A. Housman & Co.: Election day results mean nothing one way or another to the stock market. While this is not primarily a group market strength seems to hand around certain groups at a time. Motors show signs of strength at the moment. Coal roads are more prominent than they have been and it is our opinion for some time past there has been accumulation of the Erie issue. This road has already more than earned the full year's dividend requirement on the two preferred and a measurable surplus for the common is in sight. We do not think that Chesapeake and Ohio is yet at the distributing point and do not regard the hesitation in the movement as meaning that possibilities have been discounted.

J. S. Bache & Co.: There is enough steam behind the recovery to keep prices generally strong for the most of this week.

Prince & Whitely: On any sharp bulges during the next few days would accept profits on purchases made last week.

Hayden Stone & Co.: Although there may be some tempering of the recent outburst of enthusiasm it is well to remember that the market had already entered the area of accumulation.

Clark Childs & Co.: On any recession in prices in the standard stocks there should be good buying.

Miller & Co.: This latest upswing promises to develop into a real forward movement of substantial proportions.

CHICAGO GRAIN OPINIONS

Chicago Tribune—Corn and wheat are gaining a few friends, but the preponderance of the trade favors lower prices. Volumes, however, are not working in accord with their ideas. Corn shorts may have to do the liquidating, as a few close observers see it. There is no stock of corn here and unless weather conditions and the corn improve there will be little Nos. 3 and 4 corn to deliver on December sales.

As one cash handler sees it, December corn is selling too low as compared with cash.

Journal of Commerce—There is a growing belief in the local grain trade that wheat and corn prices are to work closer together, which will mean a declining movement for wheat and an upward one for corn. There was buying of corn against sales of wheat yesterday on that theory. Weather conditions for corn were more favorable, but country offerings to arrive were moderate; Iowa points said husking centres were disclosing a disappointing yield and less desirable quality than expected.

Bartlett Frazier—We look for lower prices in wheat and have little faith in the permanency of advance in corn.

Harris Winthrop—Wheat news remains bearish; weather conditions are vastly better for corn.

CORN IS LEADER IN CHICAGO GRAINS

(By Burdick Bros., Ltd.)

Chicago, Nov. 7.—Wheat—Considering the action of the corn market, the wheat was especially heavy to-day, but there was a fair demand on the declines which took up the liquidation sales. The general view of the situation in wheat and one which appears warranted is that the general supply and demand conditions are bearish. Every day or so, however, new reports come from Washington that something will be done partly to help the American producer, and more recently stress has been put on the plight of the German people, who are said to be suffering from lack of food. The bull argument now is therefore that the Government will come to the relief of the German people the way the Russians were aided.

North of the United States the Canadian wheat raisers are still pouring in a flood of wheat to be exported. Argentine official reports are favorable, and foreign cables stress the heavy loadings of grain at Black Sea ports. This suggests that relief for the Germans may come from Russia in exchange for needed commodities to some extent. We favor sales for the present.

Corn—Shorts have covered freely to-day but there has been no suggestion of any heavy profit taking, and bulls appear confident that prices will sell much higher. Cash prices to-day advanced 1 to 5 cents with No. 2 yellow selling at $1.03 and even the low grades bringing prices much above the December. So long as this situation continues the December will be out of line and invite buying, and at this time there is not enough country pressure to change the situation vitally. Consequently the buying movement appears to be gaining ground rather than losing.

Oats—Trade was fairly active with the strength in corn mainly responsible for a strong tone at times. We see nothing new in the oats situation but naturally prices will reflect continued strength in corn.

SHERIFF'S SALE

Under and by virtue of a Warrant of Execution issued out of the County Court of Victoria, holden at Victoria, and to me directed, against the goods and chattels of British Columbia Automobile Association and John R. Sigmore, I have seized and taken possession of one 2-passenger Ford roadster, 4 cyl., 1920 model, and will offer the same for sale at public auction at my office, Law Courts, Bastion Street, on Thursday next, November 8, at 10.30 a.m.

Terms of sale, cash.

The car can be seen at the Plimley Garage, 629 Broughton Street, Victoria.

H. W. GOGGIN, Sheriff.

Sheriff's Office, Victoria, B.C., Oct. 31, 1923.

MOUNT ROYAL HOTEL STOCK GETS ACTIVE

Toronto, Nov. 7.—In their comment on the market for unlisted securities, A. J. Pattison, Jr., & Co. say that Mattagami debentures were in demand at 34, and the 6 per cent. bonds at 66½ throughout the week. Indications are that better prices will likely be seen for these securities in the near future, as this buying has been going on in a quiet way for some time.

Mount Royal Hotel, common and preferred, were quite active, and many sales were recorded without any material change in price.

Gunns preferred opened early in the week at 26, and on sales of about one hundred shares sold off to 25½.

Sterling Bank remained unchanged, offered at 90.

A decided improvement is now to be noted in several securities, and as this has been going on for the last four weeks it has attracted considerable outside interest. We are still of the opinion that more activity may be looked for, with a gradual improvement in prices.

DOW JONES SUMMARY

(By British American Bond Corp., Ltd.)

New York, Nov. 7.—Dow Jones financial news summary to-day says:

Believed that election results have not changed the market sentiment.

In connection with the upward movement in Lackawanna Railway it is suggested that extra dividends may be resumed before long.

Advance in Royal Dutch Sheel is on reported offer to buy the British Government's holding of Anglo-Persian stock on theory of increasing friendly relations with the United States.

General Motors turned out more cars in October than in any month in the history of the company.

Reported from Washington that Secretary Mellon in forthcoming annual report will not recommend reduction of taxes, but will leave matters to initiative of Congress.

Kresge Company sales $7,246,079 vs. $6,018,543 last year.

Stocks of gasoline on hand at refineries throughout the country October 31, 972,694,832 gallons, constituting forty days' supply and represent a decrease of 8,000,000 gallons from September 30 at which time forty-seven days' supply was on hand.

Nation's investment in 14,000,000 motor vehicles estimated at $10,000,000,000.

Production of oil fields of Los Angeles on basis of last week November, 589,000 per day.

Waldorf System October sales $1,215,711 vs. $1,107,556 in October, 1922.

Laclede Gas declares dividend $3.50 on the common, designed to compensate shareholders for smaller dividend in previous year.

Imperial Oil Company of Canada declares regular dividend of 75 cents.

Brown Shoe Co. declares two quarterly dividends $1 each on common, and regular quarterly dividend $1.75 on the preferred.

COTTON

New York, Nov. 7.—Logan and Bryan say—Cotton: The Liverpool and New Orleans markets scored big advances and Liverpool is again higher to-day. Spot sales at the later point, 10,000 bales yesterday and the same amount to-day.

The bullish factors in the situation are exerting their effect on the prices.

TRIBUNE SAYS TRADERS BEARISH

(By British-American Bond Corporation, Ltd.)

Chicago, Nov. 7.—The Chicago Tribune grain news summary to-day says:

"Corn and wheat are gaining a few friends, but the preponderance of the trade favors lower prices. Values, however, are not working in accord with their ideas. Wheat traders are looking for December liquidation and lower prices with a widening of the December-May spread to around six cents or more and as one man put it, cash interests may have the market all their own way in getting their hedges over into May a little later. Corn shorts may have to do the liquidation, as a few close observers see it. There is no stock of corn and unless weather conditions and the corn improves there will be little No. 3 and No. 4 corn to deliver on December sales.

HERE AND THERE

(By Burdick Bros., Ltd.)

New York, Nov. 7.—A Paris dispatch says the total number of applications by unemployed in all France last week was 415, while total for March, 1921, was 91,000.

A Washington dispatch says: Senator Albert B. Cummins, of Iowa, announced on his return to Washington to-day that he will press his fight for compulsory consolidation of the railroads when Congress convenes Dec. 3.

Negotiations are under way between the Continental Oil Co. and the Mutual Oil Co. for the purchase of the Mutual by the Continental, Mr. Strong, vice-president of the Continental, said to-day.

The New York Herald says: "There is one industry which will bear much watching just at this time and that is the oil industry. While they are not conclusive or sufficiently clear to make certain that the turn in the industry has come, there are factors in the situation which are encouraging to say the least. The oil industry has been through one of the most drastic readjustments that has a big basic business, perhaps it is not over yet, but there certainly are some indications that the turn either has arrived or is close at hand."

Brown Shoe Co. declared two regular quarterly dividends, one dollar each, on common stock, payable Dec. 1 and March 1, to record Nov. 20 and Feb. 20.

Laclede Oil and Gas declared a dividend of $3.50 on common, payable Dec. 1, record Nov. 15.

Imperial Oil declared regular quarterly dividend of 75 cents.

Standard Oil Nebraska declares regular semi-annual dividend of $5.

McCrery Store Oct. sales $1,877,497, against $1,435,684 in Oct., 1922.

National Department Stores Oct. sales $3,809,729, against $3,936,472 in Oct., 1922.

Proposals for $50,000,000 State hospital bond issue and $45,000,000 soldiers' bonus approved at polls.

Twenty industrials 89.36, off .27; twenty rails 80.03, up .10.

Tidewater Oil nine months ended Sept. 30, net income $3,454,748, after depreciation, depletion, etc., against $3,294,517 in same period in 1922.

London, Nov. 7.—At the wool auction here yesterday 11,247 bales were offered. The wool comprised better selections and prices were firm. There were some withdrawals. The United States bought a fair quantity of the best merinos and greasy crossbreds.

PARTICIPATING PREFERRED STOCK $4,000,000

Rated "A" by Moody.

Earned on preferred average last five years, 19.88%.

"Financial Times" October 20, 1923

"An engineer who is in close touch with this industry assured The Financial Times that not only was Canada producing from eighty-five to ninety per cent. of all the asbestos mined in the world, but he believed that the high quality of the Canadian product would enable it to retain that proportion of the world's supply of raw material for an indefinite period. It is on the basis of such an optimistic forecast of conditions before the industry that the plans for the present are being launched."

"A second fact is the steady expansion in the use of asbestos. It is estimated that in the United States alone there are mills for the manufacture of the crude asbestos with an investment of over $100,000,000. New uses for the metal are being found constantly, and one of the latest is for the walls and partitions of houses.

"A third factor almost equally important for the Canadian industry is that means have been found to treat the lower grades of ore, and at once vast areas have been brought into commercial possibilities where previously it was found practically unprofitable to handle them at all."

DIED

McCALLUM—On the 5th inst., at the Royal Jubilee Hospital, there passed away Mrs. Mary Catherine McCallum, beloved wife of J. B. McCallum, aged 52 years, a native of Hamilton, Ontario, and a resident of this city for the past twenty years, late residence, Douglas Street. Mr. J. B. McCallum and Miss Reita McCallum mourn the loss of a loving wife and mother. The late Mrs. McCallum was a member of the Eastern Star, Victoria Chapter, No. 2, and a member of the Metropolitan Methodist Church for many years.

The remains are reposing at the Thomson Funeral Home, 1625 Quadra Street, from where the funeral will take place on Friday (November 9) afternoon at 2.30 o'clock, when the Rev. W. J. Sipprell, D.D., will conduct the service. The remains will be laid to rest in Ross Bay Cemetery.

NOTICE OF APPLICATION FOR PRIVATE BILL

NOTICE is hereby given that an application will be made to the Legislative Assembly of the Province of British Columbia at its next Session by the Corporation of the City of Victoria for an Act (to be known as the "Victoria City Act, 1923") providing for the following matters, and giving to the said Corporation and the Municipal Council thereof the following powers, namely:

1. Amending "Victoria City Act, 1921," as follows:

(a) Amending section 19 to provide for cancellation of "Better Housing" Agreements on default of purchasers and for forfeiture of lands and payments after ninety days' notice.

(b) Amending Section 19 to provide that tax sale lands becoming revested in the City by cancellation proceedings pursuant to said section, shall be deemed tax sale lands for purposes of re-sale.

(c) Repealing and re-enacting with amendments Section 22, requiring Collector to apportion tax arrears and future instalments charged against land, among parcels thereof after subdivision.

(d) Amending Section 25 to provide for the making of changes and corrections therein referred to in assessment rolls from and after July 15 in each year.

2. Repealing Sections 4, 5, 10 and 11 of "Victoria City Act, 1922."

3. Amending Subsection 2, Section 17, "Victoria City Act, 1922," providing retroactively for the apportioning of the Principal Sum Lien charged on land, among the various parcels into which said land may be subdivided.

4. Validating the Municipal Voters' List as closed October 31, 1923.

5. Enabling the Council by by-law:

(a) To prohibit, regulate, restrict, define and allot areas of highways or public places for parking purposes, and for classifying vehicles, designating what vehicles shall or shall not use such areas.

(b) To acquire lands for parking vehicles, to lease or sublet any part thereof, to charge or collect fees or rent therefor, or to grant money from current revenue for use in acquiring said lands and equipping same with buildings or other equipment for parking or tourist camp purposes.

(c) To grant money from current revenue for defraying part or all costs of management, operation and maintenance of tourist camps within or without the City.

6. Enabling the Assessor to assess all parcels of land upon which a building stands as one parcel.

7. Enabling the Council to appoint any one or more of its own members as Directors of the Provincial Royal Jubilee Hospital.

8. Enabling the Court of Revision to consider complaints against assessments according to districts or otherwise, in the discretion of its members.

8A. Enabling the Council to enter into financial agreements for the consolidation and refunding of part or all of the City's debt.

9. Providing, retroactively, that Section 11 of "Victoria City Relief Act, 1918 (No. 2)," shall not apply to the land upon which a church stands.

10. Enabling the Council to increase license fees which, in its discretion, may be considered inequitable.

11. Validating By-law 2232, entitled "Bank Overdraft By-law, 1923."

12. Enabling the Council to make, alter and repeal by-laws for any of the following purposes:

(a) To lease any portion of Elk Lake Reservoir and Water Shed property to any Government, person, firm or corporation for hotel purposes or for game farm purposes for a period not exceeding thirty years, and by agreement to terminate lease at any time on one year's notice and payment of lessees of compensation not exceeding value of improvements thereon.

(b) To subscribe for and out of current revenue to acquire shares, not exceeding par value, of $10,000.00 of any Hotel Corporate Body as lessee of any part of said Water Shed property.

(c) By payment out of current revenue to construct and establish camping grounds, bathing beaches, boating, fishing and other sporting facilities, including trap-shooting, tennis, lawn bowling and any other forms of sport, game or amusement, to acquire necessary equipment to operate or lease the same, to make rules and regulations and to charge fees or rentals in discretion of the Council.

(d) To supply water to the said Hotel Corporation lessee on terms to be fixed by the Council.

(e) To enter into necessary agreements for all purposes herein mentioned.

13. Defining what a building set apart and in use for the public worship of God shall include; enabling the Assessor to assess the same as a separate parcel, and to assess adjoining land as a separate parcel or parcels; and providing that Subsection 1 of Section 206 of the "Municipal Act" shall not apply in the City of Victoria unless the said parcels are shown on a plan filed in the Land Registry Office.

14. Enabling the Council, subject to vote of the ratepayers, to lease municipal lands for a period not exceeding forty years on terms to be agreed upon by the Council.

15. Providing that the property known as "The Willows Grounds," now in Oak Bay Municipality, shall be deemed to be a part of and within the municipal limits of Victoria for all purposes.

H. S. PRINGLE,
City Solicitor.

Victoria, B.C., Sept. 21, 1923.

WANTED, A REASONABLE OFFER

OWNER LEFT CITY, FORCED TO SELL

CHEAP TIMBER

FORTY ACRES valuable timber, on Cowichan Lake Road, land and timber for $1,000.

SIXTY ACRES on Cortez Island, opposite Campbell River, on salt water, over million feet of fir. Land and timber for $750.

J. GREENWOOD
1236 Government Street

THE REASON OF THE LOW PRICE ON THIS BUNGALOW

is that the owner is taking a position in the East and must sacrifice his home in the West. The bungalow is very modern and almost new. Three bedrooms, exceptionally fine large bathroom with separate toilet, reception hall, dining-room with archway to living-room, built-in buffet, fireplace in dining-room, pass pantry to kitchen. Lot is 50x120 and on a corner, and is in garden. Good garage. Situated in a nice part of the Esquimalt district. Only $3,500, terms arranged.

ANOTHER NICE HOME AND A BARGAIN

On Fernwood Road, close to Yates, a semi-bungalow of 7 rooms. Lovely living-room with folding doors to dining-room, fireplace in living-room; two bedrooms and sewing-room; also two large, bright bedrooms upstairs. The foundation is of brick on stone, and the front fence is of stone with a beautiful hedge. This is the first time the property has been up for sale. Only $5,750, terms arranged.

CONSERVATION OF FORESTS DISCUSSED

Pulpwood Commission of Inquiry Holds Session in Ottawa

Ottawa, Nov. 7.—The matter of an embargo on exportation of Canadian pulpwood is not the most important question before the Royal Commission investigating the pulp and paper industry, said E. Wilson, of Laurentide, Que., giving evidence yesterday before that body.

He believed forest management and conservation was the most important pending question before the Dominion to-day. Furthermore, Mr. Wilson contended, the question was one for Canada alone to solve. He said that opinion was becoming prevalent that United States paper concerns were so interested in the matter that they were attempting to overrule the work of the commission.

The United States had wasted its own timber resources, he said, and there was no reason why it should be allowed to take advantage of those of the Dominion. Canada was already overcutting its timber every year, and unless better methods of conservation were adopted, the Dominion forests would not lend themselves to an expansion in the output.

Approve Principle

A. Geoffrion, K.C., Montreal, appearing in the interests of United States pulp and paper manufacturers, questioned Edward Beck, who previously read a seatement outlining the attitude of the Canadian Pulp and Paper Association toward an embargo on the export of pulpwood. Mr. Geoffrion wished to know if the association favored an embargo on wood cut by settlers and farmers. To this, Mr. Beck said the principle of an embargo had been adopted, but some individual members had expressed themselves as in favor of excepting the product of settlers.

Mr. Beck would not admit that such an embargo would leave the settlers without a market. They would still sell to Canadian manufacturers.

Commissioner Anstie, of Vancouver, attended the session yesterday for the first time.

The Best Cough Syrup is Home-made.

Here's an easy way to save $2, and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? When you do, you will understand why thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will quickly earn it a permanent place in your home.

Into a 16-oz. bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the bottle. Or, if desired, use clarified molasses, honey, or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you 16 ounces of better cough remedy than you could buy ready-made for $2.50.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Toronto, Ont.

(Advt.)

MAN ONCE WORTH $40,000 DIED POOR

John A. Barry, Alaskan Sourdough Miner, Succumbed in Reno, Nevada

Reno, Nev., Nov. 7.—John A. Barry, sixty-seven, Alaskan sourdough miner and prospector, a "follower of the lone trail" from Nome to Juneau for thirty years, reputed to have been the first Mayor of Fairbanks, and who once "wrote a cheque for $40,000," died a pauper in an attic over Douglas Alley in Reno yesterday afternoon.

"I've fought all my life and it's no time for me to welch now," was one of his last statements. He refused to be taken to a hospital, and scorned sheets, insisting that he be permitted to die between blankets, as he had slept between them practically all his life.

SAYS WIRELESS PLAN IN CHINA OPPOSED

New York, Nov. 7—Internationalization of foreign-owned radio stations in China, proposed as a means of ending the long diplomatic controversy over American and Japanese claims to Chinese wireless concessions, never will be approved by the Chinese or United States Governments, R. F. Schwerin, President of the Federal Telegraph Company of America, asserted here yesterday. He has had conferences with State Department and Japanese Embassy officials in Washington recently.

Despite the recent ratification by the Peking Cabinet of the federal company's contract to build five radio stations in China, to be operated in conjunction with the Radio Corporation of America, Mr. Schwerin charged that Japanese diplomats in China had so well taken advantage of openings in provincial land condemnation proceedings as to make it impossible for his concern to get sites up to the time he left China two months ago.

Denying the inference in recent dispatche from Tokio that the agreement was tentative, Mr. Schwerin asserted that it was properly validated by the Chinese Cabinet. He declared the American people should be alive to the Japanese attitude toward the open door in China and toward the American opportunity for getting uncensored news and commercial messages out of the country.

Threats Alleged

Mr. Schwerin stated that before Japan had sent its second note of protest to Washington its representatives had adopted such tactics as threatening armed intervention or recalling all loans to China unless the Peking Government upheld Japanese claims to a monopoly concession on radio in China.

He said the Japanese press had carried on a persistent propaganda that the United States sought the stations in China for strategic purposes in a coming war with the Japanese. He ascribed recent outbreaks in China to that propaganda. He said the full force of Japanese diplomacy had been brought to bear on China.

Mr. Schwerin scoffed at predictions in Tokio dispatches that China would ask American and Japanese aid in developing her wireless communications.

PARCEL POST INSURANCE

Ottawa, Nov. 7—The Post Office Department announces that parcel post addressed to Great Britain on and after November 15 will be accepted for insurance under the same terms as apply to parcels posted for delivery within Canada, excepting that the 3c and 6c fees are cancelled for Great Britain. The scale of insurance fees for Great Britain will be 12c for insurance not exceeding $50 and 30c for insurance exceeding $50 and not exceeding $100.

VETERANS PLAN NEW COUNCILS

Dominion Alliance of Ex-Service Men Outlines Organization Work in Provinces

Changes in Pensions Board and D.S.C.R. Urged

Ottawa, Nov. 7 — The Dominion Veterans' Alliance will continue as the united voice of Canadian ex-service men in dealing with legislative problems affecting their interests and the interests of dependents, and will endeavor through the formation of provincial and district councils to harmonize the views of the different groups with a view to accomplishing a merger of all organizations. This decision was reached at the conference of the Dominion council in session here yesterday.

Changes Asked

The gathering decided to take steps to bring to the attention of the Dominion Government its belief in the necessity for a "house cleaning" among the personnel of the Board of Pension Commissioners and the Department of Soldiers' Civil Re-establishment if veterans and dependents are to receive the benefits intended by Parliament in passing remedial legislation at the last session. It was stated, and supported by a citation of individual cases, that obstacles had been placed by departmental officials in the way of promulgation of the wishes of Parliament. The view was expressed that only by removal of the offending officials would the Government be able to keep faith with those who suffered because of the Great War.

WOULD DEMAND GREATER REVENUE

Ottawa, Nov. 7 (Canadian Press).—Lack of revenue is the main reason given by the Canadian railway to the Minister of Labor for refusing to grant an increase of pay to certain classes of maintenance of way employees as recommended unanimously by a board of investigation under the Industrial Disputes Investigation Act. The railways concerned, which include the chief railway systems of the Dominion, have sent separate communications to the Minister, but these letters are identical in purport. "The recommendation of the board," reads an excerpt from these letters handed out by the Department of Labor, "to increase by two cents per hour rates of pay for employees receiving less than forty cents per hour, can not be accepted until some means have been found to secure the increased revenue required to meet the additional expenditures which the adoption of the board's recommendations would involve."

Stated in Evidence

"It was definitely shown," the statement ends, "in evidence submitted to the board, which was not questioned, that the rates of pay in recent years had increased materially beyond any increase in the cost of living and that there has not been any change in the cost of living since the rates of pay for maintenance of way employees were last revised to justify any further revision upward at the present time."

SMALL PIECE OF PAPER FOR WILL

Doylestown, Pa., Nov. 7 (By Canadian Press).—A piece of paper, four inches long by three wide was used by the late Major Samuel Comfort to bequeath his entire estate, said to be about $1,000,000, to his widow and daughter.

The will, written in April, 1921, has just been filed with the registrar here. It consists of only two sentences, naming the widow, Mrs. Elizabeth Comfort, Newtown, Bucks County, Pa., and Mrs. Emma W. Crookshank, London, England, his daughter, as his sole beneficiaries.

Major Comfort died October 11.

MEMORIAL ERECTED IN SOUTH AFRICA

Settlers' Campanile Commemorates Landing of British Settlers

Cape Town, Nov. 7 (Canadian Press Cable via Reuter's).—In the course of his farewell tour Prince Arthur of Connaught, Governor-General of South Africa, yesterday opened the "Settlers' Campanile," a lofty tower of dignified proportion erected in Port Elizabeth at the approximate spot where the first British settlers landed from surf boats in 1820 after the final cession of the Cape to Great Britain. The retiring Governor-General congratulated the city on the erection of a memorial worthy of the great traditions it commemorated.

DEVELOPMENT OF WATERWAYS URGED IN UNITED STATES

Washington, Nov. 7 (By Canadian Press).—Indications are not wanting that the movement for development of inland waterways in this country is gathering force. Due to the complaints about high rates for carrying freight on the railroads, the symptoms are that practically the entire farm bloc in the Senate and House will unite in a fight for inland waterway development on a broad and continuing basis. This movement has a direct bearing on the St. Lawrence project, and in a general way the advocates of waterway development for the Mississippi, Missouri, Ohio, and other leading streams within the United States favor development of the St. Lawrence project.

Senator Capper, of Kansas, chairman of the Senate farm bloc, has declared the farmers cannot stand the present burden of high freights, and that for the reason he favors waterway development. He is especially committed to development of the route from the Great Lakes to the Mississippi, and thence to the Gulf of Mexico. He says the farmers are getting sixty per cent. less for their wheat than five years ago, while the railroads are getting at least sixty per cent more for carrying it, and that this sort of thing cannot continue. Similar views are uttered by other farm bloc members. Moreover, they are anxious for President Coolidge to take a stand in his message both for lower freight rates and development of the inland waterways.

A meeting of House members who favor inland waterway development will be held about the time of the opening of Congress and efforts will be made to unite on a policy, a feature of which will be a great authorization of money, with large annual appropriations to carry out the authorization in the least feasible period.

CONGRESS TO DECIDE U.S. AID FOR MANY NEEDY GERMANS

Washington, Nov. 7. — Any programme for extension of Government relief of the population of Germany must, in the opinion of President Coolidge, await the convening of Congress.

HON. G. P. GRAHAM TO LEAVE ENGLAND NOVEMBER 16

London, Nov. 7 (Special cable to the Canadian Press by George Hambleton, staff correspondent)—Hon. G. P. Graham, Canadian Minister of Railways and Canals, has been compelled by pressure of business in connection with the Imperial Economic Conference to cancel his booking on the liner Regina, which will sail Friday. Presumably he will sail a week later.

St. Cloud, Minn., Nov. 7—Joseph Dart, fifty, a prominent Winnipeg musician, was killed when his automobile struck a bridge railing on the state highway and turned turtle into the creek. Dart was pinned beneath the wreckage and drowned.

Successful Function Was Held on Monday For Merry Dancers

Special to The Times

Duncan, Nov. 6.—The Guy Fawkes dance held at St. John's Hall on Monday evening proved a most pleasing innovation, the floor space being taxed to the utmost with the merry dancers. Mrs. Seeley as "Old Nick's wife" was awarded first prize for being the best Guy, with Miss Savage a close second as an ideal Klootchman, the way she insisted on stalking the poor parson all the evening causing much merriment. Other competitions arranged were hat trimming contest by Mrs. Townsend, Mr. Brickwell, first, and Mr. Asker second, being the two gentlemen whose nimble fingers produced the best hats from the multiplicity of shapes and trimmings provided.

Mrs. Seeley again won the prize in the "cracker eating contest" arranged by Mr. Bischlager, and Miss Helen Mackenzie proved the most skilful in the balloon dance.

The Guy, which had been riding around town all day in grand style, was ignominiously burnt, just before supper time, in true old English fashion.

Those responsible for the hall decorations and supper were: Mesdames Brockway, Tanner, Hadden, Spencer, Leyland, Harris, H. W. Mackenzie and Mr. L. C. Brockway.

Mrs. Smith supplied the music for the dancing and the vicarage fund should be augmented to a considerable extent.

Masquerade Dance at James Island Was Big Success

James Island, Nov. 6.—Over one hundred people attended the Hallowe'en fancy dress dance held Friday in the Assembly Hall here. Hunt's orchestra, of Victoria, provided an attractive variety of dance numbers and were very generous with encores, which added greatly to the success of the function. The costumes were many and varied, which proved no easy task for the judges, Mrs. G. Richards, R. H. Lyons and Captain Bissett.

The prizes were awarded as follows: Best dressed lady, Mrs. J. Lynch, as Stars and Stripes; best dressed gentleman, Donald Sinclair, as Mephistopheles; best comic lady, Mrs. Schilling, as a scarecrow; best comic gentleman, W. H. Thomas, as a little boy.

The hall was attractive, the colors of black and orange predominating in the decorative scheme, with black cats, witches and other Hallowe'en symbols. The supper, under the convenership of Mesdames Emmens, Thompson and Bowker, was excellently carried out.

Between teh dances two songs were given, one by nine little girls, entitled "The Little Red School House," each child doing her part well.

The following children took part: M. Luff, P. Thornton, B. Burrows, M. Winter, E. Dixon, A. and P. Van Norman, M. Thompson and W. Rowbottom.

The one was the sextette from "Floradora," "Tell Me, Pretty Maiden," sung by the following: The Misses Thomas, Ford, Eyres, Bradly, Bowker and Rowbottom and Messrs. Inglis, Cheater, Lake, Rivers, Whalen and Sinclair.

The James Island Football Club is arranging a concert and dance to be held here on Saturday to raise funds for carrying on the games during the Winter months.

Mr. and Mrs. Kennedy and daughter, Pamela, were the guests of Captain and Mrs. Bissett, of Saanichton, last Sunday.

Mr. and Mrs. C. W. Holland were visitors to Victoria last week-end.

Mrs. Dixon, of Gabriola Island, is the guest of her son and daughter-in-law, Mr. and Mrs. I. Dixon.

Mr. and Mrs. E. Rowa and son, Arnold, spent last week-end with friends in Victoria.

Mr. and Mrs. J. Branson, of North Saanich, have been spending a few days with their daughter, Mrs. H. Burrows.

Mrs. Stoddart and daughter, Betty, of Victoria, have been the guests of Mrs. J. Van Norman for a few days.

PRETTY WEDDING AT CHEMAINUS

Miss Irene Murray Marries Mr. H. Smith

Chemainus, Nov. 6.—A quiet wedding was solemnized on Sunday afternoon at the home of the bride's parents, when Irene, eldest daughter of Mr. and Mrs. D. Murray, was united in marriage to Mr. H. Smith, of Genoa Bay. The bride was charming in a gown of gold satin-backed crepe, the bodice trimmed with Paisley. She carried a beautiful bouquet of pink Ophelia roses, and ferns. Miss Grace Murray, sister of the bride, was her only attendant, and wore a handsome costume of nigger brown wool crepe, her bouquet being of pink carnations. After the ceremony, which was performed by the Rev. E. M. Cook, a reception was held at which only relatives and intimate friends were present, among them being Mrs. Robertson, grandmother of the bride; Mr. and Mrs. F. E. Beacham, Miss O. Beacham, Mr. and Mrs. Irving P. Smith. Later, Mr. and Mrs. H. Smith left for Genoa Bay, where they will make their home.

Miss Grace Murray returned to Victoria on Monday, having spent the week-end at Chemainus.

SEEKS FURTHER INFORMATION

Nanaimo, Nov. 6.—On the motion of Alderman Smith, the Council last evening tabled for additional information a resolution of endorsation for the Fraser Canyon route sought by Kamloops on behalf of the Trans-provincial Highway Association.

FOR THE CHILDREN

The Sandman Story For To-night

I shan't have those bees sipping my sweetness," said Vain Rose one day, as the honey bees flew through the garden, stopping at the sweetest flowers to take their daily sips.

"I don't see why they are buzzing around me, when all I want is to be let alone to grow beautiful."

So when a handsome bee came humming in a Summer tune and stopped to sip her sweetness, Vain Rose closed her petals tightly. "You go away," she said, "I want all my sweetness myself."

"It won't do you any harm to let me have a sip," said the bee, "and it will help me to get my daily supply for our queen."

"I am the only queen around here," answered Vain Rose, "and you should bring honey to me, not take it from me; no, I shall not give you even a sip. Now go away and let me grow beautiful."

"But it will make you more beautiful to let me have the honey and it won't do you any good to keep it, Rose, for you must wither and blow away just like all of the others. You can't take your sweetness with you, of course. You know that. Come now, be generous and let me have my daily sip to carry to the hive."

But selfish Vain Rose said "No," and off flew the bee to some other flower, while Rose hugged her petals close, for fear some bee might take her unaware and sip the honey she wished to keep.

Not long after, when the bee was busy sipping from a flower close by Vain Rose, he heard faint cries of "Honey Bee, Honey Bee," coming from the rose bush.

Vain Rose was withering on the stem and her petals blowing away one by one. "Did you call me?" inquired the bee.

"Yes," faintly said the dying rose. "I want to give you some of my sweetness."

"But it is too late, Rose," said the bee, "when I begged for it you would not give it, but hugged it close so no one could have it, and now when it is too late you wish to be generous. You are sweet no longer and have nothing to give me," and away flew the bee, leaving Rose withering on the stem to be blown away at last by the wind and not a bit of her sweetness left in the world to be remembered.

And just as Rose did, so people do with things they cannot use; they store them away in boxes or trunks to be put in the attic, perhaps and spoil with age, when if given to some deserving person they would do a great deal of good.

And, sometimes, it is the same with our kind words, which would help some one through the day, we are careless and forget to say a cheery "good morning," or "thank you," perhaps for some small favor. We close ourselves up like the rose and keep much that would not make us the poorer for giving, but might help some one a great deal.

Let us look in the attic and into our hearts and see if we cannot find something to give away.

VANCOUVER CANADIAN CLUB

Vancouver, Nov. 7.—Members of the Vancouver Canadian Club elected W. J. Blake Wilson, prominent busines man, president of their club for 1924 at the annual meeting last night. He succeeds Colonel J. S. Tait. Other officers are: Vice-president, W. J. Baird; second vice-president, F. R. McD. Russell; literary correspondent, Ronald Kenvyn; secretary-treasurer, J. R. Dunlop.

SMALL PERCENTAGE CUT IN VALUES

Progressive Drop in Assessments to Prevail in 1924

The city of Victoria will reach in its assessment on land values when the 1924 roll is certified at the end of this month a total approximating the figure when land began to boom in 1910.

The Court of Revision began its work early last month, when the assessment stood at $33,360,641 on land. About $500,000 assessment has been cut off by the labors of the court, and it has now been determined to cut off five per cent. of the remainder. Thus, allowing for the reductions by operation of the court and by the percentage reduction, the figure is expected to approximate $31,250,000 by the time the roll is ready for approval.

In 1910 the assessment was $26,288,592 on land, and then began the pressure from outside on the Council to boost up values, as a consequence of which the figures were: 1911, $46,516,205; 1912, $71,670,770; 1913, $89,130,150, and 1914, $89,151,990.

Next came the war, and with it the Shallcross amendment, which required a percentage cut annually. As a consequence by 1918, when a section of the city's private act entailed a new assessment by commissioners, the figure had fallen to $46,000,000. In 1920 the Court of Revision again had an opportunity to exercise its free functions, and, aided by reductions carried out by the assessor, some few millions were again lopped off. This continued to be the case in a progressive ratio in 1921 and 1922, until this year the land value assessment stands at $35,008,892.

Land in Victoria with the new figures will be assessed as just three times the value it held in 1900.

NITRATE PLANT IN NEW ZEALAND

Special to The Times

Wellington, N.Z., Nov. 6.—To extract nitrates from the air and thus be independent of imported supplies from Chile or elsewhere is the plan of a syndicate formed here to set up a big electrical plant in the South Island.

The idea is to establish a plant at Bowen Falls, Milford Sound, where there is a wonderful head of water for generating electricity and tidewater for vessels to load. There is an inexhaustible supply of limestone granite, also a necessity in the extraction of nitrogen.

The Government is being asked for water rights.
